

LUTHXAY 60-Inch Double Sink Bathroom Vanity Set

LUTHXAY 60-Inch Double Sink Bathroom Vanity Set with LED Smart Mirror User Manual

Model: 60-Inch Double Sink Bathroom Vanity Set

1. PRODUCT OVERVIEW

Product Description

The LUTHXAY 60-Inch Double Sink Bathroom Vanity Set is a modern, floating vanity designed for family bathrooms. It features a double sink, an LED smart mirror with hand-wave control for lighting and defogging, integrated storage, and large drawers. The cabinet is constructed from oak wood, and the basin is a one-piece hot bend design.

Key Features

- **Fashion Smart Mirror Cabinet:** Hand-wave control for lighting and defogging functions.
- **Double Sink:** Provides ample space for multiple users, enhancing morning routines.
- **Spacious Storage:** Includes three levels of open storage above the dresser and a combination of large and small drawers for hidden storage.
- **One-Piece Hot Bend Basin:** Seamless design for enhanced aesthetics and easy cleaning.
- **Selected Oak Cabinet:** Durable oak wood construction with soft-closing hinges and rails for smooth operation.

2. SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always ensure the vanity is securely mounted to a sturdy wall structure to prevent tipping.
- Electrical components (LED mirror) must be installed by a qualified electrician in accordance with

local electrical codes.

- Ensure all electrical connections are properly insulated and protected from moisture.
- Do not overload drawers or shelves.
- Keep small parts and packaging materials away from children.
- Avoid using harsh chemicals or abrasive cleaners on any part of the vanity or mirror.

3. PACKAGE CONTENTS

The LUTHXAY bathroom vanity set is delivered in multiple packages to ensure safe transport. Please verify all components are present before beginning assembly.

Included components typically consist of:

- Sink countertop
- LED Smart Mirror
- Vanity cabinet
- Faucet fittings (faucets may be sold separately, check your specific order)
- Hardware components for assembly and mounting

4. SETUP AND INSTALLATION

Assembly is required for this bathroom vanity set. It is recommended to have two people for installation due to the size and weight of the components. Refer to the included E-Instructions for detailed step-by-step guidance.

4.1 Pre-Installation Considerations

- **Wall Preparation:** Ensure the wall where the vanity will be mounted is structurally sound and capable of supporting the weight of the vanity and its contents.
- **Plumbing:** Verify plumbing rough-ins are correctly positioned for a double sink vanity.
- **Electrical:** For the LED smart mirror, reserve power sockets in advance to ensure normal use of smart lighting and defogging functions.

Figure 4.1: Product dimensions for planning installation space.

4.2 Mirror Cabinet Wiring

The LED mirror requires an electrical connection. There are two primary methods for connecting the mirror's power:

1. **Solution A (Direct Wiring):** Connect the mirror's power cord directly to a reserved light cord in the wall. This typically involves cutting the plug and hardwiring. This method should be performed by a qualified electrician.
2. **Solution B (Plug Connection):** Purchase a power cord with a plug (if not included) and connect it to the reserved light cord, then plug it into a nearby socket.

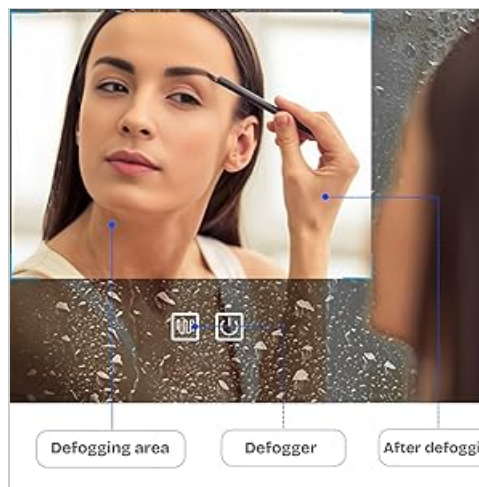

Figure 4.3: Detail of the mirror's defogging area and controls.

5. OPERATING INSTRUCTIONS

5.1 LED Smart Mirror Control

The LED Smart Mirror features intelligent sensing for convenient operation of lighting and defogging functions.

- **Lighting Control:** Simply wave your hand in front of the sensor to turn the mirror lights on or off.
- **Defogging Function:** Wave your hand in front of the sensor to activate the defogging function. This will clear condensation from the mirror surface.

5 STORAGE AREAS TO HELP YOU ORGANIZE EVERYTHING.

Figure 5.1: Hand sweep sensor switch for lighting and defogging.

5.2 Storage Organization

The vanity is designed with multiple storage areas to help organize your bathroom essentials efficiently.

- **High Frequency Zone:** Open shelves above the dresser for frequently used items.
- **Countertop Storage Area:** Space around the sinks for daily necessities.
- **Multiple Drawers:** Combination of large and small drawers for hidden storage.
- **Storage Area / Stocking Area:** Additional cabinet space for larger items or reserves.

6. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your LUTHXAY bathroom vanity set.

6.1 Cleaning the Vanity and Basin

- Use a soft, damp cloth with mild soap and water for general cleaning.
- Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the finish and basin material.
- Wipe surfaces dry immediately after cleaning to prevent water spots and moisture damage.
- The one-piece hot bend basin design is seamless, reducing areas where dirt can accumulate, making it easier to clean.

MULTI-LAYER PAINT PROTECTION SHEET WATER AND MOISTURE RESISTANT

EASY CLEANING

STAIN RESISTANT

Figure 6.2: Rock slab countertops are wear-resistant, non-marking, high-temperature resistant, and easy to clean.

6.2 Oak Wood Cabinet Care

- Dust regularly with a soft, dry cloth.
- Protect the wood from excessive moisture and direct sunlight.
- For spills, wipe immediately with a soft, dry cloth.
- Avoid placing hot items directly on the wood surface.

**IMPORTED SOLID RUBBERWOOD
TRUSTWORTHY QUALITY**

Door panel modeling with rich layers and a strong sense of space

Figure 6.3: Imported solid rubberwood construction ensures trustworthy quality and durability.

6.3 Mirror Care

- Clean the mirror surface with a glass cleaner and a soft, lint-free cloth.
- Do not spray cleaner directly onto the mirror; instead, apply it to the cloth first.
- Avoid getting cleaning solutions into the mirror's electrical components.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your vanity set.

7.1 LED Smart Mirror Issues

- **Mirror lights or defogging not working:**
 - Ensure the mirror is properly connected to a power source. Check if the power socket is active.
 - Verify that the hand-wave sensor is clean and unobstructed.
 - If hardwired, ensure connections are secure (consult a qualified electrician).
- **Mirror LED lamp power supply:** The mirror and cabinet LED lights require connection to a socket.

Ensure a power socket is reserved or available for normal operation.

7.2 Drawer Operation

- **Drawers not closing smoothly:**
 - Check for any obstructions in the drawer slides or within the drawer itself.
 - The soft-closing system hinges and rails are designed for smooth operation. If issues persist, inspect the rails for damage or misalignment.

7.3 General Issues

- **Water leaks:** Ensure all plumbing connections are tightened and sealed correctly. If leaks persist, consult a plumber.
- **Vanity stability:** Re-check wall mounting hardware to ensure the vanity is securely fastened to the wall studs.
