MOKPR 15W Wireless Car Charger Mount (Model JR-ZS219) Instruction Manual

Brand: MOKPR | Model: JR-ZS219

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your MOKPR 15W Wireless Car Charger Mount. Please read this manual thoroughly before use to ensure optimal performance and safety.

WHAT'S IN THE BOX

- 1x Wireless Car Charger
- 1x USB Cable
- 1x Suction Cup Mount
- 1x Air Vent Clip
- 1x User Manual

PRODUCT FEATURES

- **Intelligent Fast Wireless Charging:** Automatically identifies and charges your device safely, with up to 15W fast charging.
- **3-in-1 Mounting Options:** Versatile installation on dashboard, windshield, or air vent.
- **Auto-Clamping Mechanism:** Arms and foot automatically open upon power connection and securely clamp the phone when placed.
- **360° View Angle:** Features a 360° ball joint and extendable telescopic arm for adjustable viewing in portrait or landscape mode.
- **Stable & Anti-shake Design:** Non-slip rubber pad, solid support frame, and scratch-free claws ensure phone stability on various road conditions.
- **Phone Case Friendly:** Compatible with cases up to 4mm thick.

SETUP AND INSTALLATION

Choosing a Mounting Location

The MOKPR Wireless Car Charger offers three installation options: dashboard, windshield, or air vent. Select the option that best suits your vehicle and viewing preference.

Image: Visual representation of the three mounting options: dashboard, windshield, and air vent. Each option shows the charger mount combined with its respective accessory (suction cup or air vent clip).

General Installation Steps

1. Attach the desired mount (air vent clip or suction cup) to the back of the wireless car charger unit.
2. Securely fasten the chosen mount to your vehicle's air vent, dashboard, or windshield. Ensure it is stable.
3. Connect the USB cable to the charger unit and a compatible car charger adapter (not included).

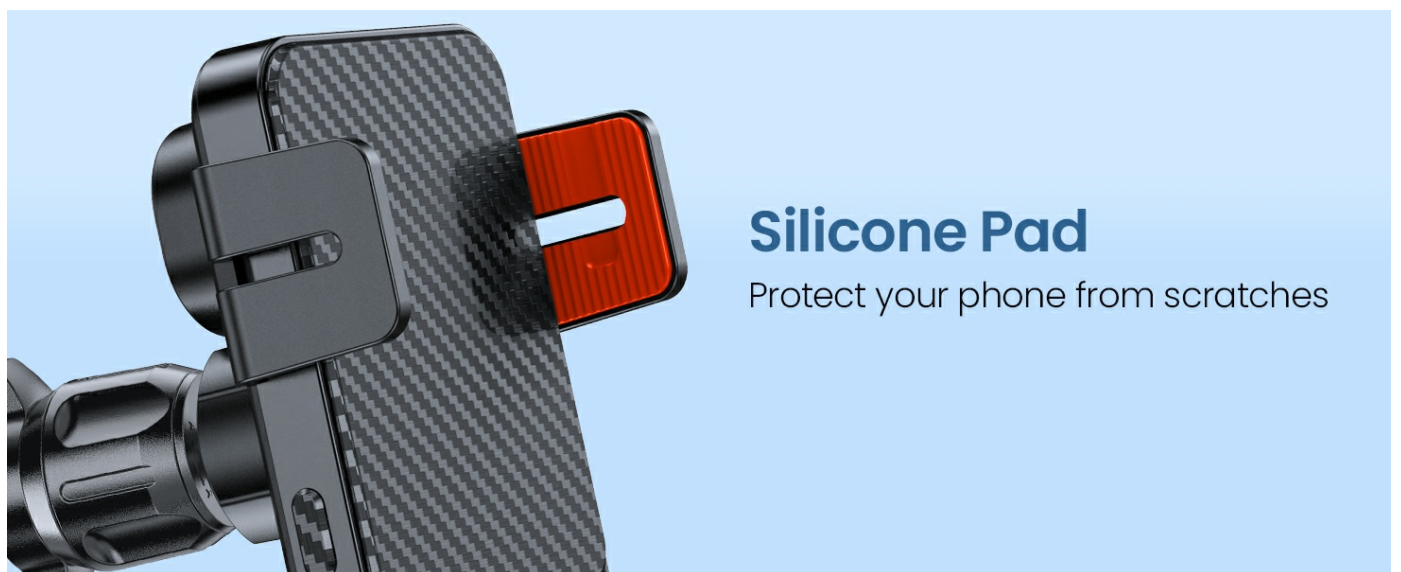

Image: Step-by-step visual guide for easy installation, showing how to attach the mount and secure it in the car.

OPERATING INSTRUCTIONS

Placing Your Phone

1. Ensure the car charger is powered on. The arms and foot will automatically open.
2. Gently place your smartphone into the mount. The arms and foot will automatically clamp securely around your phone.
3. The device will begin wireless charging automatically.

Image: Illustration of the automatic clamping feature. The arms and foot open when powered on and close securely around the phone when placed, initiating wireless charging.

Removing Your Phone

To remove your phone, press the release button located on the side of the charger. The arms will open, allowing you to safely retrieve your device.

COMPATIBILITY

This wireless car charger mount is compatible with all wireless charging phones. It supports various fast charging standards:

- **15W Wireless Fast Charging:** For LG V50/V40/V30/G8/G7.
- **10W Wireless Fast Charging:** For Samsung Galaxy S23 Ultra/S23+/S23/S22 Ultra/S22/S21/S21+/S21 Ultra/S20+/S20/Note 20/Note 20 Ultra/Note 10+/Note 10/S10+.
- **7.5W Wireless Fast Charging:** For iPhone 16/15/14/14 Plus/14 Pro/14 Pro Max/13/13 Pro/12 Pro Max/12 Pro/12/11/11 Pro/11 Pro Max/SE/XS/X/XR/8 Plus/8.
- **5W Standard Wireless Charging:** For other Qi-enabled phones.

Note: For optimal charging performance, please ensure your phone case is less than 4mm thick. Remove any metal or magnetic objects from your phone case before charging.

Image: Illustrates the compatibility of the charger with various phone cases, highlighting that cases up to 4mm are supported, while metal/magnetic objects and overly thick cases are not recommended.

MAINTENANCE

- Keep the charger clean by wiping it with a soft, dry cloth.
- Avoid using abrasive cleaners or solvents.
- Ensure the charging surface is free from dust and debris for efficient wireless charging.
- Periodically check the suction cup for a secure seal if using the dashboard/windshield mount.

TROUBLESHOOTING

Device Not Charging

- Ensure the USB cable is securely connected to both the charger unit and a working car charger adapter.
- Verify that your car's power outlet is functioning.
- Check if your phone supports wireless charging.
- Remove any metal objects, magnetic attachments, or overly thick cases (over 4mm) from your phone.
- Reposition your phone on the charging pad to ensure proper alignment with the charging coil.

Phone Not Clamping

- Ensure the charger is powered on. The arms should automatically open when power is detected.
- If the arms do not open, check the power connection.
- If the arms do not clamp, ensure the phone is properly placed within the sensor area.

Mount Instability

- For suction cup mounts: Ensure the mounting surface is clean and smooth. Re-apply the suction cup, pressing firmly and engaging the lock.
- For air vent clips: Ensure the clip is securely fastened to the vent louver and the knob is tightened.
