› Aheaplus Closet System with 8 Wooden Drawers (Model YHCC-20A) - Instruction Manual

Aheaplus YHCC-20A

Aheaplus Closet System with 8 Wooden Drawers (Model YHCC-20A)

Instruction Manual

1. PRODUCT OVERVIEW

The Aheaplus Closet System, Model YHCC-20A, is a modular wood closet organizer designed to enhance storage and organization in walk-in closets or open spaces. This system includes two 21.3-inch towers, eight wooden drawers, four expandable hanging rods, four top shelving towers, and six interior shelves (two of which are adjustable). It is engineered for versatility, allowing customization to fit spaces ranging from 7 to 12 feet wide.

Key Features:

- **Modular Design:** Consists of two main towers that can be combined and configured in multiple ways.
- **Ample Storage:** Features 8 large wooden drawers for concealed storage.
- **Versatile Hanging Space:** Includes 4 expandable hanging rods, adjustable from 26 inches to 47 inches.
- **Adjustable Shelving:** Four top shelving towers and six interior shelves (two adjustable) provide flexible storage for various items.
- **High Weight Capacity:** Constructed from premium wood board, offering a total load-bearing capacity of up to 1200 lbs.
- **Safety Features:** Equipped with 2 anti-tip kits to ensure stability.

2. SAFETY INFORMATION

- Always assemble the unit on a soft, clean surface to prevent scratches.
- Ensure all hardware is securely tightened before use. Do not overtighten.
- Install the provided anti-tip kits to secure the closet system to the wall, preventing accidental tipping.
- Do not allow children to climb on or play with the unit.
- Distribute weight evenly across shelves and hanging rods to maintain stability.

3. PACKAGE CONTENTS

The Aheaplus Closet System is delivered in two separate packages, which may arrive at different times. Please ensure you have received both packages and all components before beginning assembly.

Included Components:

- 2 x 21.3-inch Closet System Towers
- 8 x Wooden Drawers
- 4 x Expandable Hanging Rods
- 4 x Top Shelving Towers
- 6 x Interior Shelves (2 adjustable)
- All necessary hardware and tools for assembly.
- 2 x Anti-tip Kits

4. SETUP AND INSTALLATION

Assembly of the Aheaplus Closet System requires two people for efficient and safe installation. Follow the provided instructions carefully. The product instructions are separate for each item within the two packages; combine them to install the complete system as desired.

General Assembly Steps:

1. **Unpack and Identify:** Carefully unpack all components from both packages. Lay out all parts and hardware, cross-referencing with the parts list in the instruction manuals to ensure everything is present.
2. **Assemble Towers:** Follow the specific instructions for assembling each 21.3-inch tower. Ensure all screws and connectors are tightened appropriately.
3. **Install Drawers:** Assemble the 8 wooden drawers according to their individual instructions and integrate them into the towers.
4. **Attach Shelving:** Position and secure the top shelving towers and interior shelves. Note that some shelving boards can be installed on only one side of a unit or trimmed/cut for smaller closets.
5. **Mount Hanging Rods:** Install the 4 expandable hanging rods. These rods can be adjusted from 26 inches to 47 inches. If necessary, rods and top shelves can be cut or trimmed to fit specific dimensions.
6. **Secure with Anti-Tip Kits:** Attach the anti-tip kits to the back of the closet system and secure them to a wall stud. This step is crucial for safety and stability.

Customization and Multiple Installation Ways:

The modular design allows for various configurations to suit different closet sizes and layouts. The system is ideal for spaces measuring 80", 116.9", 154.3", and can be cut to fit even wider spaces. The shelving tower boards and hanging rods can be customized by trimming or cutting to achieve your desired design.

Multiple Installation Ways Ideal forOpen Walk-in Closet

DIY and Cut - the shelving Tower boards can be installed on only one side of unit or trimmed/cut for smaller closets.

5. OPERATING AND USAGE

The Aheaplus Closet System is designed for efficient organization of clothing and accessories. Utilize the various components as follows:

- **Hanging Rods:** Use the four expandable rods to hang shirts, jackets, dresses, and other garments. Ensure weight is distributed evenly.
- **Wooden Drawers:** The eight drawers are suitable for storing folded clothing, undergarments, socks, or other personal items, keeping them out of sight and dust-free.
- **Shelving Towers:** The top shelving towers and interior shelves are ideal for folded sweaters, pants, shoes, handbags, hats, or decorative items. Adjust the shelves as needed to accommodate different item heights.

6. MAINTENANCE

To ensure the longevity and appearance of your Aheaplus Closet System, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Clean spills immediately to prevent staining or damage to the wood.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Environmental Conditions:** Avoid placing the unit in direct sunlight or near heat sources, which can cause warping or discoloration. Maintain a stable humidity level in the room.

7. TROUBLESHOOTING

If you encounter any issues during the assembly or use of your Aheaplus Closet System, refer to the following common solutions:

Common Issues and Solutions:

- **Missing or Damaged Parts:** If any parts are missing or damaged upon arrival, do not proceed with assembly. Contact Aheaplus customer service immediately for assistance.
- **Difficulty Connecting Units (No Pre-drilled Holes):** Some standalone closet system panels may not have pre-drilled holes on the side for connecting to other units or for certain shelving configurations. In such cases, you may need to use appropriate tools to drill pilot holes directly into the panel to secure connections. Refer to the image below for clarification.
- **Instability/Wobbling:** Ensure all screws are fully tightened. Verify that the anti-tip kits are correctly installed and securely anchored to a wall stud. Distribute items evenly across the unit.
- **Drawers Not Sliding Smoothly:** Check that drawer slides are correctly installed and aligned. Ensure no debris is obstructing the tracks.

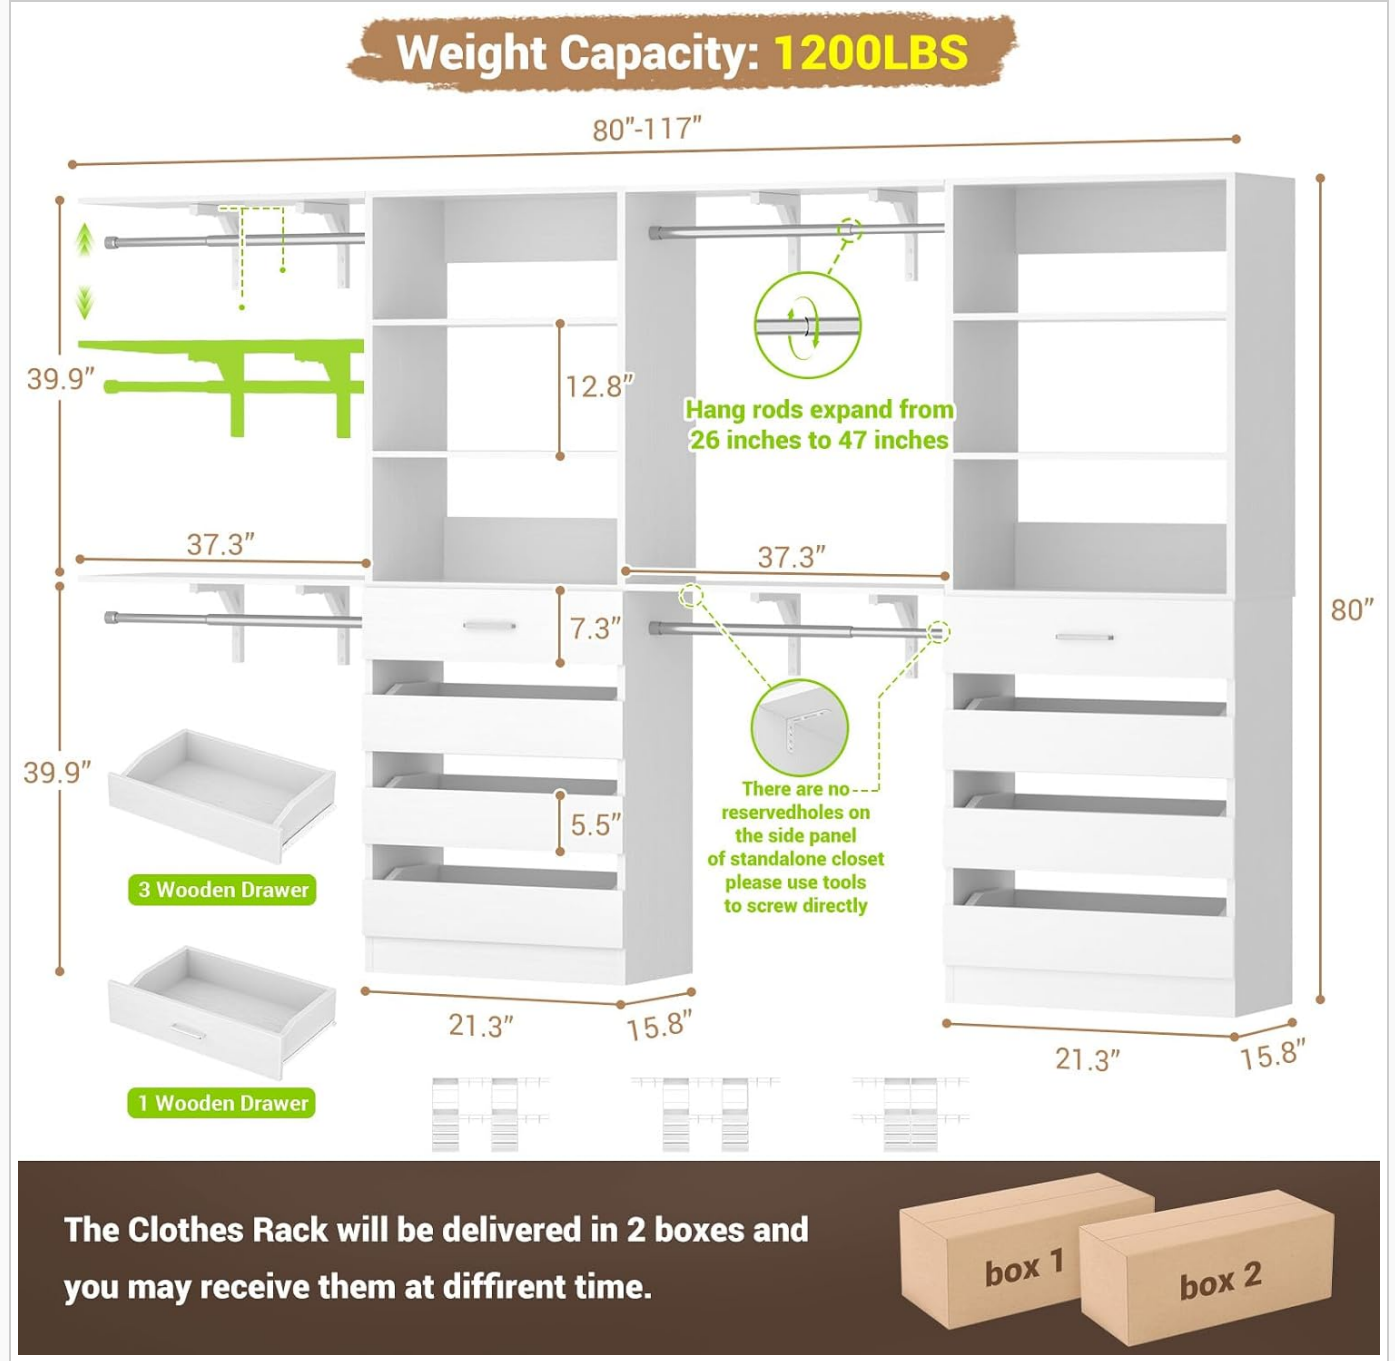

Image 7.1: Note regarding the absence of pre-drilled holes on some side panels for direct connection.
