GOFEI 3-in-1 Montessori Mirror with Baby Pull Bar Instruction Manual

Model: JW248302-YRWJJ3281 | Brand: GOFEI

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Always mount the mirror securely to the wall using the provided hardware.
- Keep the area around the mirror clear of any objects that could fall and cause injury.
- Do not place the mirror in an area where it could be easily knocked over or broken.
- Always supervise children when they are near the mirror.
- Ensure all screws and fasteners are tightened properly before use. Periodically check for tightness.
- The mirror surface is acrylic and designed to be less fragile than glass, but it can still be damaged. Avoid sharp objects.

2. PRODUCT OVERVIEW

The GOFEI 3-in-1 Montessori Mirror with Baby Pull Bar is designed to support early childhood development through self-exploration and motor skill enhancement. It offers versatile installation options to adapt to your child's growth stages.

Image: A baby observes their reflection in the Montessori mirror, which features an adjustable pull bar.

Key Features:

- **3-in-1 Design:** Can be wall-mounted, horizontally floor-mounted, or vertically floor-mounted.
- **Adjustable Pull Bar:** Features 6-level height adjustment to accommodate different developmental stages.
- **Acrylic Mirror:** Safe, explosion-proof, and less fragile than traditional glass mirrors.
- **Smooth Wood Construction:** Designed with smooth edges to protect small hands.

4. SETUP AND INSTALLATION

4.1 Wall-Mounted Configuration

1. **Prepare the Mirror:** Carefully remove any protective film from the acrylic mirror surface.
2. **Attach Bar Supports:** Insert the wooden pull bar into the two wooden bar supports. Secure each support to the bar using the short silver screws.
3. **Positioning:** Determine the desired height for the mirror on the wall. The pull bar has 6 adjustable positions. Mark the locations for the wall mounting screws. Ensure the mirror is level.

4. **Drill Holes:** Drill pilot holes at the marked locations. Insert the green wall anchors into the pilot holes.
5. **Mount Mirror:** Align the mirror frame with the drilled holes and secure it to the wall using the long black screws. Ensure it is firmly attached.
6. **Attach Pull Bar Assembly:** Secure the assembled pull bar and supports to the mirror frame at the desired height using the provided screws.

Image: A baby stands at a wall-mounted Montessori mirror, holding onto the pull bar.

4.2 Floor-Mounted Configurations (Horizontal or Vertical)

For floor-mounted use, the mirror can be placed horizontally for tummy time or vertically for standing exploration. The optional anti-tilting footings can be attached to the base for added stability.

1. **Prepare the Mirror:** Remove any protective film from the acrylic mirror surface.
2. **Attach Footings (Optional):** If using, attach the anti-tilting footings to the bottom edge of the mirror frame using the provided screws.
3. **Positioning:** Place the mirror on a flat, stable surface. For horizontal use, ensure the mirror is angled slightly upwards for optimal baby viewing during tummy time. For vertical use, ensure it stands upright and is stable.

4. **Secure Pull Bar (Optional):** If using the pull bar in a floor-mounted configuration, attach it to the mirror frame at the appropriate height.

Image: A baby crawls towards a Montessori mirror set up horizontally on the floor, suitable for tummy time.

5. OPERATING INSTRUCTIONS

5.1 Using the Mirror for Self-Exploration

The mirror encourages self-awareness and visual development. Place your child in front of the mirror during tummy time or sitting to allow them to observe their movements and expressions.

Image: A baby on their stomach looks at their reflection in the mirror, engaging in self-discovery.

5.2 Utilizing the Adjustable Pull Bar

The pull bar is designed to assist babies in developing gross motor skills, such as pulling themselves up to a standing position and cruising. Adjust the bar height to match your child's current developmental stage.

- **Stage 1 (0-6 months):** Mirror can be used horizontally for tummy time.
- **Stage 2 (6-18 months):** Wall-mount or vertically floor-mount the mirror with the pull bar at a height that allows your baby to grasp it and pull themselves up.
- **Stage 3 (18+ months):** Adjust the pull bar higher as your child grows to continue supporting standing and balance activities.

Image: A diagram highlighting the 6-level adjustable pull bar and overall dimensions of the mirror (45.6 inches wide, 22.8 inches high).

6. MAINTENANCE AND CARE

- **Cleaning the Mirror:** Use a soft, lint-free cloth and a mild, non-abrasive cleaner specifically designed for acrylic or plastic surfaces. Avoid ammonia-based cleaners, as they can damage acrylic.
- **Cleaning the Wood:** Wipe wooden parts with a damp cloth and mild soap if necessary. Dry immediately. Avoid harsh chemicals or excessive moisture.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight. Inspect the mirror surface and wooden frame for any signs of damage or wear.
- **Storage:** If storing, keep the mirror in a dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

- **Issue: Mirror image appears distorted or wavy.**
Solution: The mirror is made of acrylic, which can sometimes exhibit minor distortions compared to glass. This is generally normal for acrylic mirrors and does not affect its developmental purpose. Ensure the mirror is mounted on a flat surface and not under any stress that could cause warping.
- **Issue: Pull bar feels loose.**
Solution: Check and tighten all screws securing the pull bar to its supports and the supports to the mirror frame. Ensure the bar is properly seated in its designated slots.
- **Issue: Mirror is not stable when floor-mounted.**
Solution: Ensure the mirror is placed on a completely flat and even surface. If available, attach the anti-tilting footings for increased stability. Always supervise children during use.

8. SPECIFICATIONS

Feature	Detail
Brand	GOFEI
Model Number	JW248302-YRWJJ3281
Package Dimensions	48.5 x 27 x 3.5 inches
Item Weight	18.06 pounds
Mounting Type	Wall Mount, Floor Mount
Frame Color	Wood/Wood Tone
UPC	717298507462
