5. OPERATING INSTRUCTIONS

5.1 Android 13 System

The unit operates on an Android 13 system, featuring 2GB RAM and a 4-core CPU for responsive performance. It includes 64GB ROM for application storage. The 8-inch touch screen provides high-definition visuals and sensitive touch response.

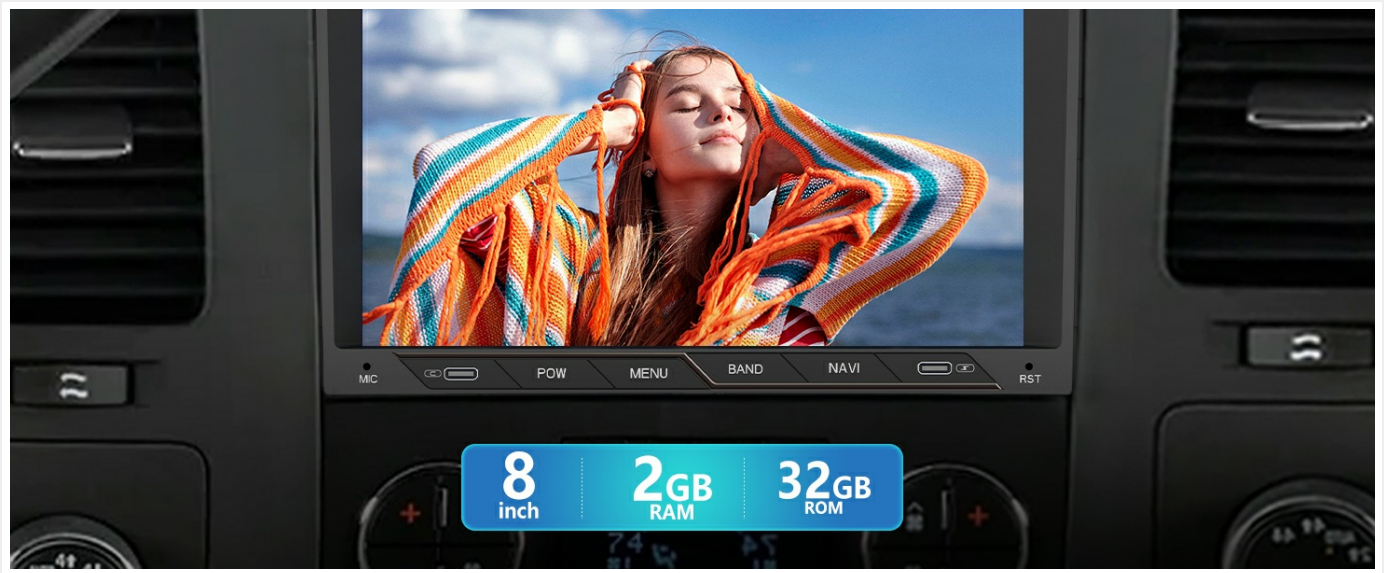

Figure 6: Android 13 interface on the 8-inch display.

5.2 Wireless CarPlay and Android Auto

Connect your smartphone wirelessly via Bluetooth to access CarPlay or Android Auto. This allows for seamless integration of phone features such as calls, navigation, music playback, and app management on the car radio's screen. Supports 1080P video and high-definition picture display.

Figure 7: Wireless CarPlay and Android Auto interfaces.

5.2.1 Wireless Android Auto Connection

Follow these steps to connect your Android phone wirelessly:

1. Open the Zlink5 app on the car radio.
2. Confirm the Bluetooth name of the device (e.g., "Car BT").
3. Turn on Bluetooth on your phone and pair with the car radio's Bluetooth name.
4. Turn on Wi-Fi on your phone and connect to the car radio's Wi-Fi network.
5. After successful connection, you can use online maps and listen to music.

Your browser does not support the video tag.

Video 1: Instructions for connecting wireless Android Auto.

5.2.2 Wireless CarPlay Connection

Follow these steps to connect your iPhone wirelessly:

1. Open the Zlink5 app on the car radio.
2. Confirm the Bluetooth name of the device (e.g., "Car BT").
3. Turn on Bluetooth on your iPhone and pair with the car radio's Bluetooth name.
4. Turn on Wi-Fi on your iPhone and connect to the car radio's Wi-Fi network.
5. After successful connection, you can use online maps and listen to music.

Your browser does not support the video tag.

Video 2: Instructions for connecting wireless CarPlay.

5.3 GPS Navigation

The unit supports both online and offline navigation applications available from the Play Store. Wi-Fi connectivity allows for seamless map updates and access to online services.

Figure 8: GPS Navigation interface.

5.4 Bluetooth and Wi-Fi Connectivity

Built-in Bluetooth enables hands-free calls, music streaming, and map navigation from your smartphone. Wi-Fi connectivity provides internet access for updates and online services.

Figure 9: Bluetooth 5.0 features.

Figure 10: Wi-Fi internet connectivity.

5.5 Steering Wheel Control (SWC)

The unit supports learning original steering wheel control buttons. This allows for convenient control of the car radio functions while driving, such as switching tracks, adjusting volume, or pausing music.

Figure 11: Steering Wheel Control setup interface.

5.6 AM/FM Radio

The unit includes an AM/FM/RDS radio with manual and automatic station search and storage. It features 16-band equalizer options for audio customization.

Figure 12: AM/FM Radio interface.

5.7 DSP/EQ Setting

The radio features a 32-band EQ and DSP sound adjustment for music, video, and radio, allowing for professional audio tuning.

6. MAINTENANCE

To ensure the longevity and optimal performance of your AWESAFE car radio, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for and install software updates to ensure system stability and access to new features.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Power Management:** Ensure your vehicle's electrical system is in good condition to prevent power fluctuations that could damage the unit.

7. TROUBLESHOOTING

7.1 No Sound After Installation (Rear Speakers)

If you experience no sound, particularly from the rear speakers, after installation, check the following:

1. **Swap 16-pin Plugs:** Please swap the position of the two 16-pin plugs.
2. **Audio Cable Connection:** Check if the audio cable (RCA IN/OUT) is connected correctly.
3. **AMP Cable Connection:** Check if the AMP cable (POWER-AMP, RCA-AMP) is connected.

Figure 14: Troubleshooting steps for no sound from rear speakers.

7.2 General Troubleshooting Tips

- **Unit Not Powering On:** Check all power connections and the vehicle's fuse box.
- **Touch Screen Unresponsive:** Try restarting the unit. If the issue persists, ensure the screen is clean and free of debris.
- **Bluetooth/Wi-Fi Connection Issues:** Ensure Bluetooth and Wi-Fi are enabled on both the unit and your smartphone. Try forgetting and re-pairing devices.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
