SETUP

Charging the Headphones

Before first use, fully charge the headphones. A full charge takes approximately 1.5 hours.

1. Connect the USB Type-C charging cable to the charging port on the headphones.
2. Connect the other end of the cable to a compatible USB power source (e.g., computer USB port, wall adapter).
3. The LED indicator will show charging status (refer to the "Controls and Indicators" section for details).

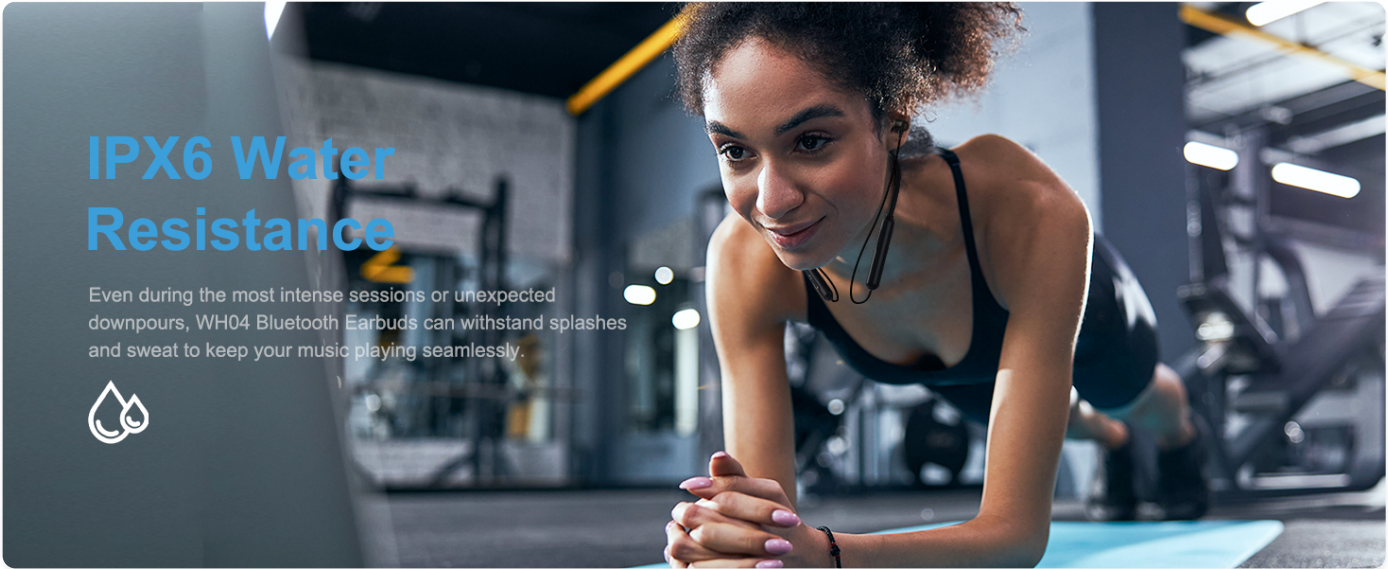

Bluetooth Pairing

To pair your Rythflo WH04 headphones with a device:

1. **Power On:** Separate the magnetic earbuds to automatically power on the headphones. The LED indicator will flash, indicating pairing mode.
2. **Activate Bluetooth:** On your device (smartphone, tablet, computer), enable Bluetooth.
3. **Select Device:** In your device's Bluetooth settings, search for "RY-WH04" in the list of available devices and select

it to connect.

4. **Confirmation:** Once connected, the LED indicator will change, and you may hear an audible confirmation.

IPX6 Water Resistance

Even during the most intense sessions or unexpected downpours, WH04 Bluetooth Earbuds can withstand splashes and sweat to keep your music playing seamlessly.

Image: Diagram illustrating the auto ON/OFF function of the magnetic earbuds: separating them turns the headphones on, attaching them turns them off.

Multipoint Connection

The WH04 headphones support connecting to two devices simultaneously:

1. Pair the RY-WH04 with the first device as described above.
2. Turn off the Bluetooth on the first device.
3. Connect RY-WH04 to the second device.
4. Re-enable the Bluetooth on the first device. The headphones will automatically connect to both devices.

OPERATING INSTRUCTIONS

Controls and Indicators

The control panel is located on the neckband. Familiarize yourself with the buttons and LED indicator:

Button/Indicator	Function
ANC Button	Press once: Cycle through Normal Mode, ANC On, Transparency Mode.
Multi-Function Button (MFB)	Short Press: Play/Pause audio, Answer/End call. Long Press (2s): Reject call. Double Press: Activate Voice Assistant.
Volume Up (+) Button	Short Press: Increase volume. Long Press (2s): Next Song.
Volume Down (-) Button	Short Press: Decrease volume. Long Press (2s): Previous Song.
LED Indicator	White/Red: Indicates various statuses (e.g., pairing, charging, connected).
Type-C Charging Port	Used for charging the headphones.

Image: Detailed diagram of the control panel on the neckband, showing the ANC button, Multi-Function Button (MFB), Volume Up/Down buttons, LED indicator, and Type-C charging port with their respective functions.

ANC Modes

The Rythflo WH04 headphones offer three distinct audio modes:

- **Active Noise Cancellation (ANC) Mode:** Maximizes noise reduction, ideal for noisy environments like airplanes or busy offices.
- **Transparency Mode:** Allows you to hear your surroundings while still enjoying your audio, useful for awareness in urban environments or conversations.
- **Normal Mode:** Standard audio playback without active noise cancellation or transparency features.

Press the ANC button to cycle through these modes.

Enhanced Awareness

Filtering background noise while playing your audio, so you can stay connected to your favorite podcasts or music without missing what's happening around you.

Image: A person reading outdoors, illustrating the "Enhanced Awareness" provided by Transparency Mode, which filters background noise while allowing environmental sounds.

Image: A person on an airplane, demonstrating the "Noise Off Melody On" experience with ANC Mode, ideal for uninterrupted focus during travel.

MAINTENANCE

- **Cleaning:** Regularly wipe the headphones and eartips with a soft, dry cloth. For eartips, you may use a slightly damp cloth with mild soap, then dry thoroughly before reattaching.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- **Eartip Replacement:** Replace eartips periodically for optimal hygiene and sound quality. Use the provided spare eartips.
- **Water Exposure:** While IPX6 water-resistant, avoid submerging the headphones in water. If exposed to sweat or splashes, wipe them dry immediately.

TROUBLESHOOTING

Problem	Possible Solution
Headphones do not power on.	Ensure the earbuds are separated. Charge the headphones fully.
Cannot pair with device.	Ensure headphones are in pairing mode (LED flashing). Turn off and on Bluetooth on your device. Move headphones closer to the device. Clear previous Bluetooth connections on your device.
No sound or low volume.	Increase volume on both headphones and connected device. Ensure headphones are properly connected to the device. Check if eartips are properly sealed in your ears.

Problem	Possible Solution
Poor call quality.	Ensure microphones are not obstructed. Move to a quieter environment. Check Bluetooth connection stability.
ANC not effective.	Ensure ANC mode is activated (press ANC button). Verify eartips provide a good seal in your ears.
