SAFETY INFORMATION

WARNING: Do not exceed the total weight limit of 2500 LBS (500 LBS per shelf). Ensure proper installation on a stable, level surface to prevent tipping or collapse. Always wear the provided gloves when handling metal components to avoid cuts or pinches. Keep children and pets away from the assembly area. Do not climb on the shelving unit. Distribute weight evenly across shelves.

PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. The package should contain:

- Double-walled steel columns (vertical supports)
- Metal shelf panels (5 units)
- Support beams and connectors

- Rubber mallet (small hammer)
- Pair of protective gloves
- Tool storage bag

SETUP AND ASSEMBLY

The REIBII shelving unit is designed for tool-free assembly, utilizing an interlocking system. It can be assembled by one person in approximately 10 minutes.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, flat surface.
2. **Wear Gloves:** Put on the provided protective gloves to prevent injury during handling.
3. **Assemble Vertical Columns:** Connect the column sections by aligning the interlocking tabs and gently tapping with the rubber mallet until secure. Ensure all connections are flush.
4. **Attach First Shelf:** Begin by attaching the bottom shelf. Align the shelf's corner posts with the slots on the vertical columns. Tap firmly with the rubber mallet to secure the interlocking tabs.
5. **Install Remaining Shelves:** Continue installing the remaining four shelves, working your way upwards. The height of each shelf is adjustable to suit your storage needs.
6. **Verify Stability:** Once all shelves are in place, gently shake the unit to ensure it is stable and all connections are secure.
7. **Attach Tool Bag:** Hook the included tool storage bag onto the side of the assembled shelving unit for convenient access to small tools.

OPERATING INSTRUCTIONS

Adjusting Shelf Height

The 5-tier design allows for flexible storage. Each shelf can be adjusted to different heights to accommodate items of various sizes. To adjust a shelf:

1. Empty the shelf you wish to adjust.
2. Carefully lift the shelf to disengage its interlocking tabs from the vertical columns.

3. Reposition the shelf to the desired height, ensuring the tabs align with the corresponding slots on the columns.
4. Tap firmly with the rubber mallet to secure the shelf in its new position.

Converting to Workbench

The shelving unit can also be disassembled into two separate, shorter units of the same height, which can function as workbenches or smaller storage racks. To do this, simply separate the vertical columns at the middle connection point and assemble two independent units following the general assembly steps.

MAINTENANCE

To ensure the longevity and optimal performance of your REIBII storage shelves, follow these maintenance guidelines:

- **Regular Cleaning:** Wipe down the metal surfaces with a damp cloth to remove dust and dirt. Avoid abrasive cleaners that could damage the finish.
- **Inspect Connections:** Periodically check all interlocking connections to ensure they remain secure. Re-tap with the rubber

mallet if any connections feel loose.

- **Weight Distribution:** Always ensure weight is distributed evenly across the shelves to prevent stress on individual components.
- **Environmental Conditions:** While designed for garage and basement use, avoid prolonged exposure to extreme moisture or corrosive chemicals to prevent rust or damage.

TROUBLESHOOTING

If you encounter any issues with your shelving unit, consider the following common solutions:

- **Unit Feels Unstable:** Ensure all shelf and column connections are fully engaged and tapped down with the mallet. Verify the unit is on a level surface.
- **Difficulty Assembling:** Double-check that components are oriented correctly. Sometimes a firm, even tap with the mallet is needed to fully seat interlocking parts. Refer to the assembly video for visual guidance.
- **Missing Parts:** Review the package contents list. If any parts are genuinely missing, contact customer support.
