INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Mirightone 36-inch Bathroom Vanity with Sink. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

- Always follow local plumbing and building codes during installation.
- Ensure all connections are secure to prevent leaks.
- Do not overload drawers or shelves beyond their stated weight capacity (200 lbs for the vanity).
- Keep small parts away from children during assembly.
- Use appropriate tools and wear safety gear as needed.
- This product is intended for bathroom use only.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer service.

- Main Cabinet
- Ceramic Sink
- Hardware Package

- Instruction Manual (this document)

SETUP & ASSEMBLY

The Mirightone 36-inch Bathroom Vanity requires assembly. A detailed instruction manual is included in the package to guide you through the process. It is recommended that two people assemble the vanity for ease and safety.

Dimensions

Refer to the diagram below for detailed product dimensions to ensure proper fit in your bathroom space.

Size:inch

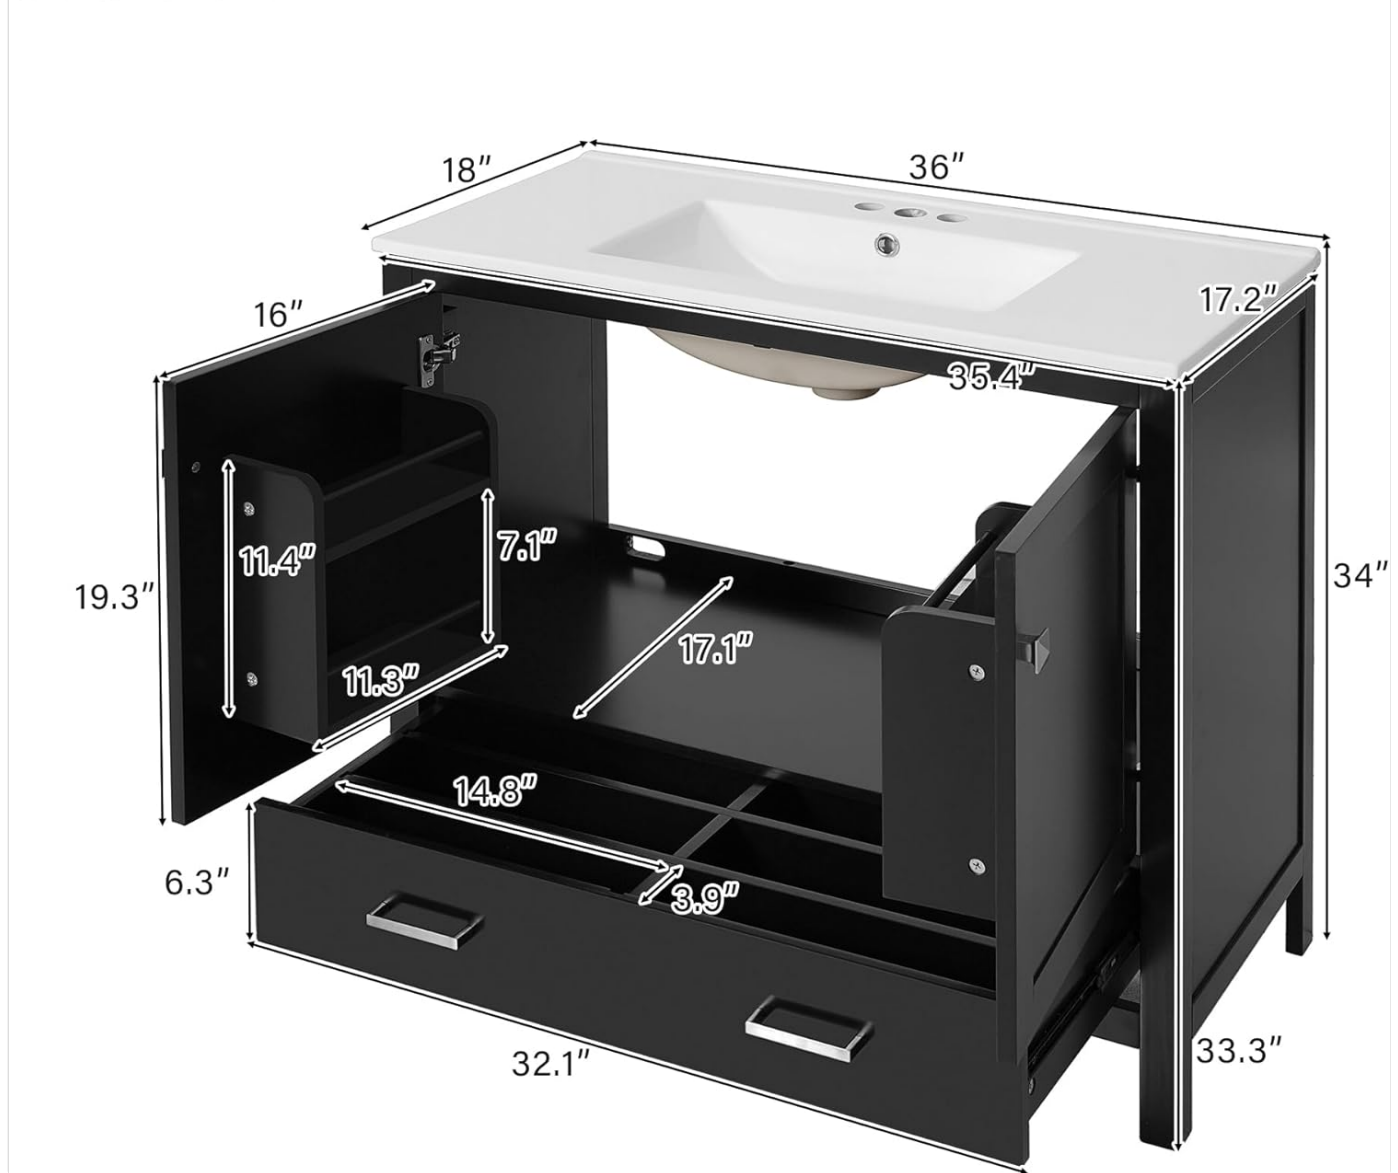

Image: Mirightone 36-inch Bathroom Vanity Dimensions. This diagram shows the vanity with measurements: 36 inches width, 18 inches depth, and 34 inches height. Internal dimensions for shelves and drawers are also indicated.

Plumbing Installation

The vanity features a semi-open back design to facilitate easy plumbing installation. Ensure all plumbing connections are correctly sealed to prevent leaks.

FEATURES & OPERATION

Your Mirightone bathroom vanity is designed with both aesthetics and functionality in mind.

Ample Storage Space

The vanity includes various storage solutions to keep your bathroom organized:

- **Under-sink Cabinet:** Provides generous space for larger items like cleaning supplies or towels.
- **Double-tier Door Shelves:** Built into the cabinet doors, these shelves are ideal for smaller items such as shampoo, shower gel, or cosmetics.
- **Divided Drawer:** A long bottom drawer with internal dividers helps organize smaller bathroom essentials like shavers, towels, or soaps.

Soft-Close Doors and Smooth Drawers

The cabinet doors are equipped with soft-close hinges to prevent slamming and ensure quiet operation. The bottom drawer features smooth sliding mechanisms for easy access.

Ceramic Sink

The integrated pure white ceramic sink offers a smooth, non-porous surface that resists stains and is easy to clean. It includes overflow protection to prevent spills and features three pre-drilled holes suitable for a 4-inch widespread faucet (faucet not included).

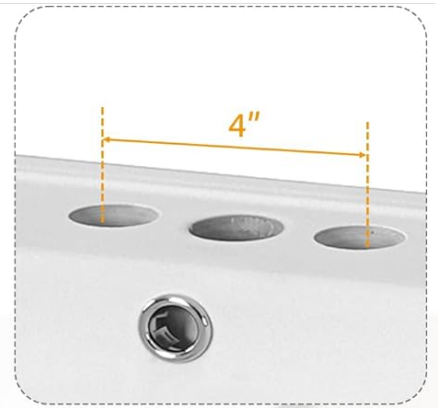

Premium Ceramic Sink

Smooth, non-porous surface resists stains and is easy to clean.

Overflow Protection

Prevents spills and keeps the space mess-free.

Three Pre-drilled Holes

Easy faucet installation (faucet not included)

MAINTENANCE

Cleaning the Ceramic Sink

The ceramic sink's smooth, waterproof surface is easy to clean. Use a soft cloth and mild, non-abrasive cleaners. Avoid harsh chemicals or abrasive scrubbing pads that could damage the finish.

Cabinet Care

Wipe the cabinet surfaces with a soft, damp cloth. Avoid excessive moisture and promptly clean up any spills to prevent water damage to the wood and engineered wood components. Do not use harsh chemicals or abrasive cleaners on the cabinet finish.

TROUBLESHOOTING

Cabinet Door Adjustment

If the cabinet doors are misaligned or have uneven gaps, you can adjust them using the hinges. The hinges allow for left/right and inward/outward adjustments.

- **Left/Right Adjustment:** Use a screwdriver to turn the adjustment screw on the hinge. Turning counterclockwise moves the door to the left, and clockwise moves it to the right.
- **Inward/Outward Adjustment:** If the door is not flush with the cabinet frame, unscrew the hinge counterclockwise to retract it (move door inward) or tighten clockwise (move door outward).
