Lamshaw S1, V92 Compatible Charger

Lamshaw Magnetic Smart Watch Charger

Instruction Manual for S1, V92 Compatible Models

1. Introduction

Thank you for choosing the Lamshaw Magnetic Smart Watch Charger. This product is specifically designed to provide efficient and reliable charging for your Hwagol S1 and V92 1.43-inch smartwatches. This manual will guide you through the proper use, maintenance, and troubleshooting of your new charger to ensure optimal performance and longevity.

Please read this manual carefully before using the product and retain it for future reference.

2. Product Overview

2.1 Components

- 1 x Magnetic Smart Watch Charger Cable

2.2 Key Features

- **Compatibility:** Specifically designed for Hwagol S1 and V92 1.43-inch Smart Watches.
- **Magnetic Connection:** Ensures a strong and stable connection for immediate charging upon contact.
- **Built-in Chip:** The charging cable incorporates a built-in chip to effectively prolong the service life of your smartwatch.
- **Portable Design:** Lightweight and easy to carry, ideal for home, office, car, or travel use.
- **Durable Construction:** Features ABS+PC materials, flexible PVC cable, and pure copper probes for rapid and stable conduction.
- **High-Speed Charging:** Designed for efficient power transfer, achieving a full charge in approximately 2.5 hours with a 1A output current.

2.3 Product Images

Image 1: Overview of the Lamshaw Magnetic Smart Watch Charger with a compatible smartwatch. The image displays the smartwatch being charged magnetically, alongside the full charger cable with its USB-A connector and magnetic charging head.

Image 2: A detailed view of the charger cable, highlighting the magnetic charging pins and the standard USB-A connector. This illustrates the two main ends of the charging cable.

Image 3: Depicts a smartwatch actively charging, with its screen showing a 50% battery level and a charging indicator. Text overlays emphasize 'Fast & Efficient Charging', highlighting the charger's capability for rapid power transfer.

Image 4: An illustrative diagram breaking down the construction of the charger cable. It points out the 'Pure Copper Probe' for stable conduction, 'ABS+PC' material for durability, and the 'Flexible PVC Cable' for easy storage, noting its 3.3 feet (1 meter) length.

Image 5: An exploded diagram illustrating the 'Strong Magnetic Charging' feature. It shows the internal structure of the magnetic charging head, emphasizing how the magnetic components ensure an immediate and secure connection for charging.

Image 6: Highlights the 'Reinforced Design' of the charger cable. It details three key aspects: 'Multi-layer Shielding' for stability, 'Flexible PVC Cable' for ease of handling, and 'Pure Copper Probe' for rapid and stable electrical conduction.

Image 7: Illustrates the 'Original High-Speed Charging' capability. A smartwatch is shown connected to the charger, with an icon indicating that a full charge takes approximately 2.5 hours when using a 1A output current.

Image 8: Shows a smartwatch being charged by connecting the USB end of the cable to a laptop's USB port. This image demonstrates the versatility of the charger, allowing for 'Multiple Charging Methods' from various USB power sources.

3. Setup

Setting up your Lamshaw Magnetic Smart Watch Charger is straightforward:

1. **Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB power source. This can be a USB wall adapter (recommended 5V/1A), a computer's USB port, a power bank, or a car charger.
2. **Prepare Smartwatch:** Ensure your Hwagol S1 or V92 smartwatch is clean and free of debris on its charging contacts.
3. **Attach Charger:** Bring the magnetic charging head of the cable close to the charging contacts on the back of your smartwatch. The magnets will automatically align and snap into place, establishing a secure connection.

4. Operating Instructions

Once the charger is set up, follow these steps to charge your smartwatch:

1. **Verify Connection:** After attaching the magnetic head, ensure it is firmly connected and does not easily detach.
2. **Monitor Charging Indicator:** Your smartwatch screen should display a charging indicator (e.g., a battery icon with a lightning bolt or a percentage increase) to confirm that charging has begun.
3. **Charging Time:** A full charge typically takes approximately 2.5 hours when connected to a 1A output power source. Charging time may vary depending on the power source and the smartwatch's current battery level.
4. **Disconnect:** Once your smartwatch is fully charged, gently pull the magnetic charging head away from the smartwatch to disconnect.

5. Maintenance

To ensure the longevity and optimal performance of your charger, follow these maintenance guidelines:

- **Cleaning:** Periodically wipe the charging contacts on both the cable and your smartwatch with a soft, dry cloth to remove dust or debris. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the charger in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tangling the cable excessively.
- **Handling:** Do not bend the cable sharply or apply excessive force to the connectors. Avoid dropping the charger.
- **Water Exposure:** This charger is not waterproof. Avoid exposing it to water or other liquids.

6. Troubleshooting

If you encounter issues with your charger, try the following troubleshooting steps:

- **Smartwatch Not Charging:**
  - Ensure the USB end is securely plugged into a working power source. Try a different USB port or wall adapter.
  - Check that the magnetic charging head is correctly aligned and firmly attached to the smartwatch's charging contacts. The magnets should snap into place.
  - Clean the charging contacts on both the charger and the smartwatch. Dust or debris can interfere with the connection.
  - Ensure your smartwatch is compatible with this charger (Hwagol S1, V92 1.43-inch models).
- **Slow Charging:**
  - Use a power adapter with a 1A (or higher) output. Lower amperage USB ports (e.g., some older computer USB 2.0 ports) may result in slower charging.
  - Ensure the cable is not damaged.
- **Charger Feels Warm:**
  - It is normal for the charger to become slightly warm during use. If it becomes excessively hot, disconnect it immediately and contact customer support.

7. Specifications

Feature	Specification
Brand	Lamshaw

Model Compatibility	Hwagol S1, V92 1.43 inches Smart Watches
Connector Type	4-Pin Magnetic, USB-A
Input Voltage	5 Volts
Output Current	1 Amps
Cable Length	Approx. 3.3 feet (1 meter)
Color	Black
Item Weight	0.598 ounces
Package Dimensions	5.98 x 3.43 x 0.39 inches

8. Warranty and Support

This product is subject to a 30-day refund/replacement policy from the date of purchase. For specific warranty details, technical support, or any product-related inquiries, please contact the manufacturer or seller directly through your purchase platform.

Please retain your proof of purchase for any warranty claims.
