SYSTEMTREFF High-End Gaming PC

USER MANUAL

Image: The SYSTEMTREFF High-End Gaming PC tower, showcasing its transparent side panel with vibrant internal RGB lighting and cooling fans.

1. Product Overview

The SYSTEMTREFF High-End Gaming PC is engineered for demanding gaming, streaming, and professional applications. It features an AMD Ryzen 7 9800X3D processor, AMD Radeon RX 9070 XT graphics, 32GB DDR5 RAM, and a fast 1TB M.2 NVMe SSD, ensuring exceptional performance and responsiveness. This system comes with Windows 11 Pro pre-installed, ready for immediate use.

The infographic for the SYSTEMTREFF High-End Gaming PC features a dark, hexagonal-patterned background with red and white accents. At the top right is the SYSTEMTREFF logo. The main content is organized into several sections: 'MAX-PERFORMANCE' with a CPU icon, 'HIGH-SPEED' with a RAM icon, and 'ULTRA-FAST START' with a SSD icon. Each section lists key specifications. A large image of the PC case with a transparent side panel and blue/purple RGB lighting is positioned on the right. At the bottom left, there are images of the Norton 360 and Windows 11 Pro software boxes. A prominent red banner at the bottom states 'MADE IN GERMANY'.

2. Setup Guide

Follow these steps to set up your new SYSTEMTREFF Gaming PC:

1. **Unpacking:** Carefully remove the PC from its packaging. Retain all packaging materials for future transport or service.
2. **Placement:** Place the PC on a stable, flat surface with adequate ventilation around the chassis. Ensure no vents are obstructed.
3. **Connecting Peripherals:**

- Connect your monitor(s) to the graphics card's DisplayPort or HDMI outputs.
- Plug in your keyboard and mouse to the available USB ports.
- Connect any other peripherals such as speakers, headphones, or external drives.

4. **Power Connection:** Connect the power cable to the power supply unit (PSU) at the rear of the PC, then plug the other end into a grounded electrical outlet.

5. **Network Connection:** For wired internet, connect an Ethernet cable to the LAN port. For wireless internet, the integrated WLAN module will allow connection after initial setup.

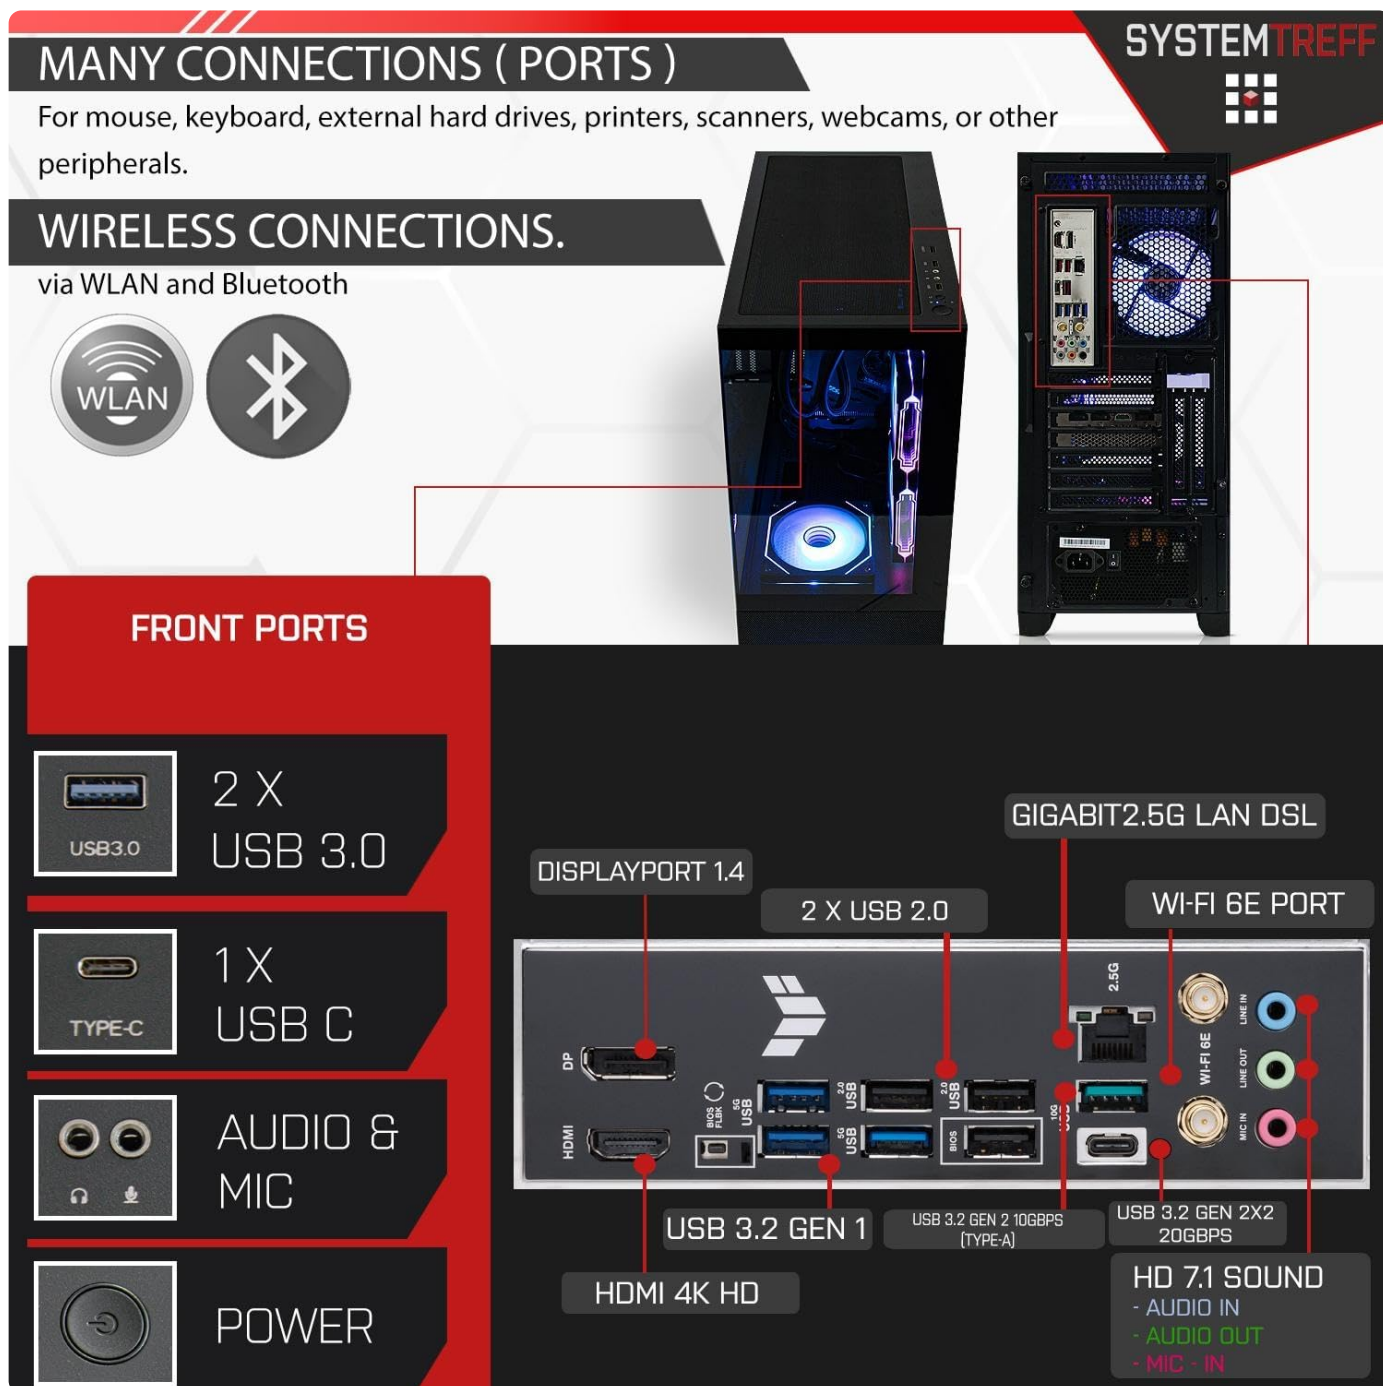

Image: A diagram illustrating the various connectivity options, including front ports (2x USB 3.0, 1x USB-C, Audio & Mic, Power button) and rear ports (DisplayPort 1.4, HDMI 4K HD, USB 3.2 Gen 1, USB 3.2 Gen 2 10Gbps, USB 3.2 Gen 2x2 20Gbps, 2x USB 2.0, Wi-Fi 6E, Gigabit 2.5G LAN, HD 7.1 Sound).

3. Operating Instructions

Your SYSTEMTREFF Gaming PC is designed for high performance and ease of use.

- **Initial Boot-up:** Press the power button located on the front of the chassis. The system will boot into Windows 11 Pro. Follow the on-screen prompts for initial Windows setup.
- **Gaming and Multimedia:** The AMD Radeon RX 9070 XT 16GB GDDR6 graphics card provides excellent performance for 4K gaming and video editing. The system supports up to three monitors simultaneously.
- **Connectivity:** Utilize the integrated WLAN and Bluetooth for wireless connections. The numerous USB 3.2 ports offer high-speed data transfer for external devices.
- **Cooling and Airflow:** The chassis features a top cooling system and optimized airflow, supporting up to 9 x 120mm fans for efficient heat dissipation. The RGB lighting can be controlled via a dedicated button on the case.

SYSTEMTREFF

High-End Gaming IN 3D/4K

AMD Radeon RX 9070 XT 16GB GDDR6

With the built-in gamer graphics card Radeon RX 9070 XT 16GB your PC has enough power to run the latest games in Full-HD / 4K. The system supports using 3 monitors simultaneously.

SETTINGS 1080P

PERFECT FOR

PROFESSIONAL APPLICATIONS

Adobe Illustrator, InDesign, After Effects, Photoshop, video editing, CAD software, music editing with Cubase, and more

MULTIMEDIA + OFFICE PROFIS

Stream movies and series in 4K, play edit music and audiobooks, audio and videos. Word, Excel, Outlook, PowerPoint, Teams, Zoom CRM-Software, AutoCAD.

Image: An illustration showing the PC's capability for high-end gaming in 3D/4K, with examples of games like Elden Ring and Metro Exodus. It also highlights suitability for professional applications (Adobe Illustrator, InDesign, Photoshop, video editing, CAD software) and multimedia/office use (4K streaming, audiobooks, Word, Excel, Teams, AutoCAD).

4. Maintenance

Regular maintenance ensures the longevity and optimal performance of your PC:

- **Cleaning:** Regularly clean the exterior of the PC with a soft, dry cloth. Use compressed air to clear dust from vents and fan grilles. Ensure the PC is powered off and unplugged before cleaning.
- **Software Updates:** Keep your Windows operating system and all drivers updated. Windows Update will handle OS updates, and graphics card drivers can be updated via AMD's official website.
- **Antivirus Protection:** Your system includes Norton 360 Security with Game Optimizer for 1 year. Ensure it is active and performing regular scans to protect against malware.
- **Cable Management:** While the internal cable management is intuitive, ensure external cables are tidy and not obstructing airflow or ports.

Image: An internal view of the PC case, emphasizing the top cooling system, intuitive cable management, dual chamber design, and the power button with USB 3.0, USB-C, and mic/headset ports. It also shows the lower part made of mesh for improved airflow.

5. Troubleshooting

If you encounter issues, try these basic troubleshooting steps:

- **No Power:**
 - Check if the power cable is securely connected to both the PC and the wall outlet.
 - Ensure the power switch on the PSU (at the back of the PC) is in the 'ON' position.
 - Try a different power outlet.
- **No Display:**
 - Verify that the monitor is powered on and the video cable is securely connected to the graphics card (not the motherboard's video outputs).
 - Try a different video cable or monitor if available.
- **System Slowdown:**
 - Check Task Manager (Ctrl+Shift+Esc) for high CPU, RAM, or disk usage by specific applications.
 - Ensure all drivers and Windows are up to date.
 - Run a full system scan with your antivirus software.
- **Peripheral Not Working:**
 - Try connecting the peripheral to a different USB port.
 - Reinstall or update the peripheral's drivers.

If these steps do not resolve the issue, please refer to the support section.

6. Specifications

Detailed technical specifications for your SYSTEMTREFF Gaming PC:

Component	Specification
Processor	AMD Ryzen 7 9800X3D (8 Cores, 4.7 GHz base, up to 5.2 GHz Turbo)
CPU Cooler	Corsair Nautilus 240 RS ARGB 240mm (Black)
Motherboard	ASUS TUF GAMING B650-E WIFI - AM5
RAM	32GB DDR5-6000 CL30 Kingston FURY Beast (2x16GB), expandable up to 192GB (4 slots total, 2 free)
Graphics Card	AMD Radeon RX 9070 XT 16GB GDDR6 (4K, DX12, FSR 3, PCIe 5.0)
Storage	1000GB M.2 SSD NVMe (5000 MB/s read, 4200 MB/s write)
Operating System	Windows 11 Pro (pre-installed with drivers)
Antivirus	Norton 360 Security with Game Optimizer (1 year protection for 3 devices)
Network	Realtek 2.5 Gigabit LAN Controller (2500Mbit/s), Integrated WLAN
Audio	7.1-Channel High Definition Audio with Audio Boost
Chassis	Systemtreff Gaming Mid Tower AirForce GT1 Black (44.8cm x 21.5cm x 48.8cm), tempered glass window, RGB lighting
Power Supply	850W MSI MAG A850GL PCIE5, 120mm fan, 80 PLUS GOLD (90% efficiency)
Weight	12 Kilograms
