## MisterVac 4061926910916

# MisterVac Vacuum Cleaner Bags User Manual

Model: 4061926910916

Compatible with Parkside PWS 20 D3, 452000\_2310

## 1. INTRODUCTION

Thank you for choosing MisterVac vacuum cleaner bags. This manual provides essential information for the proper use and maintenance of your new vacuum cleaner bags, ensuring optimal performance and longevity. These bags are designed for efficient dust collection and filtration in compatible vacuum cleaners.

## 2. PRODUCT OVERVIEW

The MisterVac vacuum cleaner bags are crafted from special multi-layer filter paper, providing excellent filtration performance. Each pack contains 10 bags, designed for easy installation and secure sealing within your vacuum cleaner.

Image 2.1: A single MisterVac vacuum cleaner bag, folded and ready for use. It features a sturdy cardboard collar with a circular opening for connection to the vacuum cleaner's intake.

Image 2.2: This image illustrates the approximate dimensions of the MisterVac vacuum cleaner bag. When unfolded, the bag measures approximately 61 cm in length, 21.5 cm in height, and the opening width is about 23.5 cm.

The bags feature a robust cardboard cover that facilitates easy closure of the dust bag. The integrated claws on the bag's collar ensure a tight seal and secure fit against the vacuum cleaner's suction collector, preventing dust leakage.

Image 2.3: A detailed view of the bag's cardboard collar, showing the circular opening and the small flap that can be used to seal the opening when the bag is full, preventing dust from escaping during disposal.

### 3. COMPATIBILITY

---

These MisterVac vacuum cleaner bags are specifically designed to be compatible with the following models:

- Parkside PWS 20 D3
- Parkside 452000\_2310

Ensure your vacuum cleaner model matches one of the listed compatible devices for proper fit and function.

### 4. SETUP AND INSTALLATION

---

Follow these steps to correctly install a new vacuum cleaner bag:

1. **Open the Vacuum Cleaner:** Disconnect your vacuum cleaner from the power supply. Open the vacuum cleaner housing to access the dust collection compartment.
2. **Remove Old Bag (if applicable):** If there is an old bag, carefully remove it. Use the cardboard flap to seal the opening of the full bag before disposal to prevent dust from escaping.
3. **Insert New Bag:** Take a new MisterVac bag. Align the cardboard collar of the bag with the intake port inside the vacuum cleaner's dust compartment.
4. **Secure the Bag:** Press the bag's cardboard collar firmly onto the suction collector. The integrated claws on the bag's collar will engage with the vacuum cleaner's mechanism, ensuring a secure and airtight fit.
5. **Close the Vacuum Cleaner:** Once the bag is securely in place, close the vacuum cleaner housing. Ensure it is properly latched before use.

**Staubsauger nicht im Lieferumfang**  
**Vacuum cleaner not included**

Image 4.1: This image shows a MisterVac vacuum cleaner bag correctly installed inside a compatible Parkside vacuum cleaner. The bag is unfolded and positioned to collect dust. Please note: The vacuum cleaner itself is not included with the bags.

Image 4.2: A close-up view demonstrating how the MisterVac bag's cardboard collar connects to the vacuum cleaner's intake port. The yellow cap, part of the vacuum cleaner, helps to secure the bag's opening. Please note: The vacuum cleaner is not included.

## 5. OPERATING GUIDELINES

These vacuum cleaner bags are suitable for dry vacuuming of dusts classified as L and M. This includes light to medium dusts typically found in household or general workshop environments.

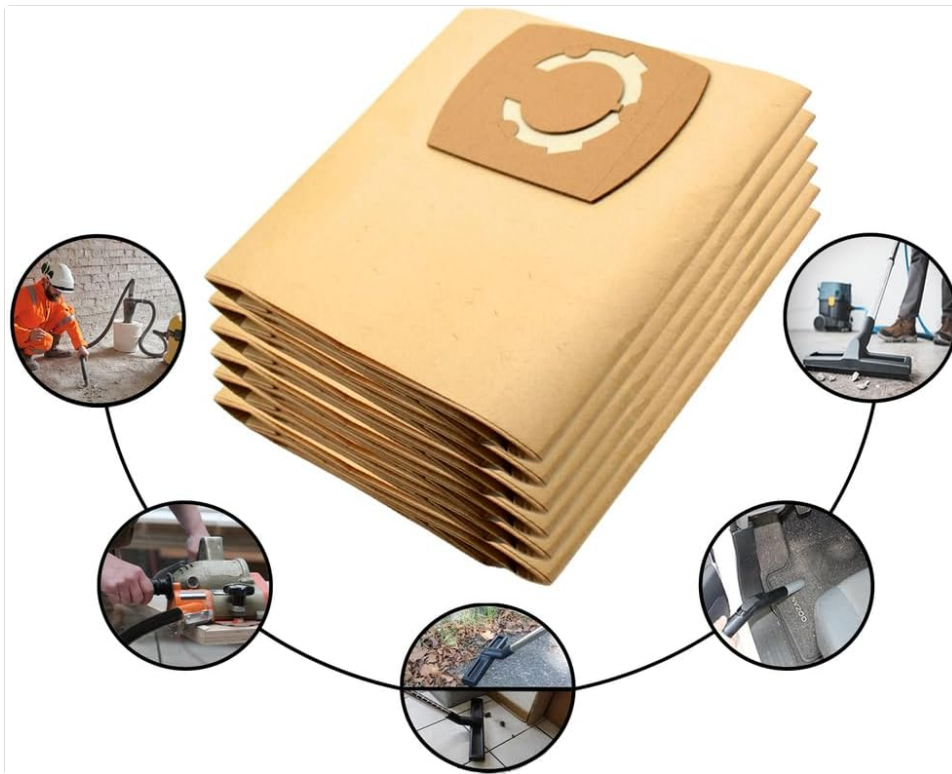

Image 5.1: A stack of MisterVac vacuum cleaner bags surrounded by illustrations of typical usage scenarios, including general household cleaning, workshop dust collection, car interior cleaning, and outdoor debris vacuuming.

### Important Considerations:

- **Avoid Certain Dust Types:** These bags are **not suitable** for vacuuming cement veils, construction dusts (such as concrete, drilling, sanding, or sawing dust). These types of dusts can quickly clog the bag's pores and may cause the bag to burst due to excessive pressure.
- **Automatic Filter Cleaning:** If your vacuum cleaner has an automatic filter cleaning function, ensure it is switched off when using these paper filter bags. This function can damage the paper bag.
- **Bag Replacement:** Replace the bag when it is full or when you notice a significant decrease in suction power. Do not overfill the bag, as this can reduce efficiency and potentially damage the vacuum cleaner.

## 6. MAINTENANCE

As these are disposable vacuum cleaner bags, maintenance primarily involves proper disposal. Once a bag is full, carefully remove it from the vacuum cleaner, seal the opening using the integrated cardboard flap, and dispose of it according to local waste disposal regulations. Do not attempt to empty and reuse the bags, as this can compromise filtration efficiency and hygiene.

## 7. TROUBLESHOOTING

If you encounter issues while using the MisterVac vacuum cleaner bags, consider the following:

- **Reduced Suction Power:** If suction power decreases, the bag may be full or partially clogged. Replace the bag with a new one. Ensure the bag is correctly installed and sealed.
- **Bag Bursting:** If a bag bursts, it is likely due to vacuuming unsuitable materials, such as fine construction dusts (cement, concrete, etc.). These dusts can rapidly clog the bag and cause excessive pressure. For professional applications involving such dusts, we recommend using MisterVac 'S' or 'SCM' variants, which are designed for more demanding conditions.

- **Dust Leakage:** Ensure the bag's cardboard collar is securely seated and sealed against the vacuum cleaner's intake port. Check for any tears or damage to the bag before installation.

## 8. SPECIFICATIONS

Feature	Detail
Brand	MisterVac
Model Number	4061926910916
Compatible Devices	Parkside PWS 20 D3, 452000_2310
Quantity per Pack	10 bags
Material	Multi-layer special filter paper
Package Dimensions	32.5 x 22.5 x 4.8 cm
Package Weight	800 grams

## 9. WARRANTY AND SUPPORT

MisterVac provides a warranty that is valid in all member states of the European Union. This warranty does not limit your legal rights regarding material defects.

**Warranty Coverage:** The warranty covers all repair and shipping costs for defects that occur during the warranty period, provided they are reported to MisterVac by the end-user and are not a result of normal consumption, wear and tear, improper handling, or misuse.

**Claiming Warranty:** In the event of a warranty claim, please contact the warranty provider immediately. After submitting proof of purchase and the defective goods, the item will be repaired free of charge or replaced with an equivalent product.

For further support or inquiries, please refer to the contact information provided with your purchase or visit the official MisterVac website.
