# Jzones Wireless CarPlay and Android Auto Adapter User Manual

## 1. PRODUCT OVERVIEW

---

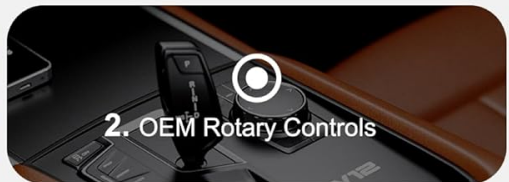

The Jzones Wireless CarPlay and Android Auto Adapter transforms your car's wired CarPlay system into a wireless experience. This compact device enables seamless connectivity for both Apple CarPlay and Android Auto, supporting 4K HD video playback and popular streaming applications. It features a robust design with efficient heat dissipation and broad compatibility with various vehicles and smartphones.

## 2. PACKAGE CONTENTS

- Jzones Wireless CarPlay and Android Auto Adapter Unit
- USB-A to USB-C Cable
- USB-C to USB-C Cable
- User Manual (this document)

## 3. SETUP INSTRUCTIONS

### 3.1 Initial Connection (Plug and Play)

The Plug and Play design ensures a straightforward setup process without complex installation steps.

1. Locate an available USB port (USB-A or USB-C) in your vehicle that supports wired CarPlay.
2. Connect the Jzones adapter to your car's USB port using the appropriate cable.

3. On your smartphone, enable both Bluetooth and Wi-Fi.
4. Follow the on-screen instructions on your car's infotainment system to pair your smartphone with the Jzones adapter via Bluetooth.
5. Once paired, the system will automatically establish the wireless CarPlay or Android Auto connection.

### 3.2 Automatic Reconnection

After the initial successful connection, the Jzones adapter will automatically remember your settings. Each time you start your vehicle, the adapter will automatically connect to your smartphone, providing a seamless experience without requiring repeated manual intervention. The device maintains a stable connection range of up to 10 meters.

# One-Time Setup for Enduring Connectivity

Automatically Reconnects at Every Start, 10M Stable Range

## 10M Connection Range

## 4. OPERATING THE ADAPTER

### 4.1 Wireless Connectivity

The adapter utilizes Bluetooth 5.0 for initial pairing and dual-band Wi-Fi (2.4 GHz and 5 GHz, including Wi-Fi 6 support) for high-speed data transfer. This ensures a stable, low-latency connection for all your CarPlay and Android Auto functions.

### 4.2 Multimedia Features

Enjoy enhanced in-car entertainment with support for 4K HD video playback. The adapter allows access to popular streaming applications such as YouTube and Netflix directly on your car's display. Additionally, it supports external storage via USB drives and TF cards (up to 128 GB) for offline media playback.

## 4.3 Control Methods

The adapter integrates with your vehicle's existing control systems, allowing you to manage functions via:

- **Touch Screen Control:** Directly interact with the car's display.
- **OEM Rotary Controls:** Utilize your car's original equipment manufacturer rotary knobs.
- **Steering Wheel Controls:** Access functions conveniently from your steering wheel.
- **Voice Control:** Use voice commands (e.g., Siri) for hands-free operation.

# Immersive Audio-Visual Experience

Access the Full Spectrum of CarPlay Apps on a High-Definition Screen

## 4.4 System and Performance

The adapter runs on an Android 12 system, equipped with 4GB RAM and 32GB ROM, ensuring smooth operation for multimedia and navigation applications. Its compact design features a metal frame for excellent heat dissipation, maintaining device stability during extended use.

## 5. COMPATIBILITY

The Jzones Wireless CarPlay and Android Auto Adapter offers broad compatibility:

- **Vehicles:** Compatible with all vehicle models from 2015 onwards that support factory-installed wired CarPlay.
- **Apple Devices:** iPhone 7 and newer models running iOS 10.0 or higher.
- **Android Devices:** Smartphones running Android 11.0 or higher.

## 6. MAINTENANCE

To ensure optimal performance and longevity of your Jzones adapter, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the adapter with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials.
- **Temperature:** Do not expose the device to extreme temperatures (hot or cold) or direct sunlight for prolonged periods.
- **Storage:** When not in use for an extended period, store the adapter in a cool, dry place.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts.

## 7. TROUBLESHOOTING

---

### 7.1 Connection Issues

- **Adapter not connecting:** Ensure the adapter is securely plugged into the car's USB port. Verify that your car supports wired CarPlay. Restart your car's infotainment system and your smartphone.
- **Unstable connection/Frequent disconnections:** Ensure your smartphone's Bluetooth and Wi-Fi are enabled and functioning correctly. Move your phone closer to the adapter if possible. Check for any obstructions that might interfere with the wireless signal.
- **First-time connection failure:** Double-check that your smartphone meets the compatibility requirements (iOS 10+ for iPhone 7+, Android 11+). Ensure your car's wired CarPlay is active.

### 7.2 Performance Issues (Lag, Freezing, Overheating)

- **Lag or slow response:** Close unnecessary applications on your smartphone. Ensure your car's infotainment system is up to date. The adapter's performance can be affected by the car's system.
- **Device freezing:** Disconnect and reconnect the adapter from the USB port. If the issue persists, perform a factory reset (if available, refer to online support for instructions).
- **Overheating:** While the adapter has a metal frame for heat dissipation, prolonged use in extreme heat can cause it to warm up. Ensure it is not covered or placed in an enclosed space. If it becomes excessively hot, disconnect it and allow it to cool down.

### 7.3 Online Updates

The Jzones adapter supports online firmware updates to improve performance and add new features. To update, connect the adapter to a Wi-Fi network (e.g., your phone's hotspot) and navigate to the update section within the adapter's interface on your car's screen. Follow the on-screen prompts to download and install any available updates.

## 8. SPECIFICATIONS

---

Feature	Specification
Brand	Jzones
Model Number	B0F2YN9BW1
Compatible Devices	Mobile Phones (iPhone 7+/iOS 10+, Android 11+)
Specific Product Uses	Car Audio and Video
Connector Type	USB Type A, USB Type C

Color	Black
Number of Ports	4 (Implied by USB-A and USB-C, plus internal connections)
Power Plug Type	No Plug (USB Powered)
Operating System	Android 12
RAM	4 GB
ROM	32 GB
Wi-Fi	Dual-band (2.4 GHz & 5 GHz), Wi-Fi 6
Bluetooth	Bluetooth 5.0
External Storage Support	TF Card & USB 2.0 (up to 128 GB)

## 9. WARRANTY AND SUPPORT

---

Jzones offers a **12-month limited warranty** for this Wireless CarPlay and Android Auto Adapter. Additionally, long-term technical support is provided to assist with any issues or questions you may encounter.

For technical assistance or warranty claims, please contact Jzones customer support through the retailer's platform or the contact information provided with your purchase. Please have your product model number (B0F2YN9BW1) and purchase date ready when contacting support.
