MAIJOFO YYK-Q16S AI

MAIJOFO YYK-Q16S AI Translation Earbuds User Manual

Model: YYK-Q16S AI | Brand: MAIJOFO

INTRODUCTION

The MAIJOFO YYK-Q16S AI Translation Earbuds are designed to facilitate seamless communication across language barriers and enhance your audio experience. These earbuds offer 4-in-1 functionality, including real-time translation, music playback, call connectivity, and intelligent meeting transcription. With support for over 144 languages and accents, a 0.2-second response time, and 99.9% accuracy, they are an ideal companion for travel, business, and learning.

WHAT'S IN THE BOX

- 2 x Translation Earbuds
- 1 x Charging Case
- 1 x Charging Cable
- 1 x User Manual
- 1 x Box

PRODUCT OVERVIEW

Image: The MAIJOFO YYK-Q16S AI Translation Earbuds resting in their charging case, displaying the battery level on the LED screen.

The YYK-Q16S AI Translation Earbuds feature an open-ear design for comfort and situational awareness. The compact charging case provides extended battery life and includes an LED display to show the charge status. Each earbud is equipped with advanced AI chips and high-precision microphones for optimal performance.

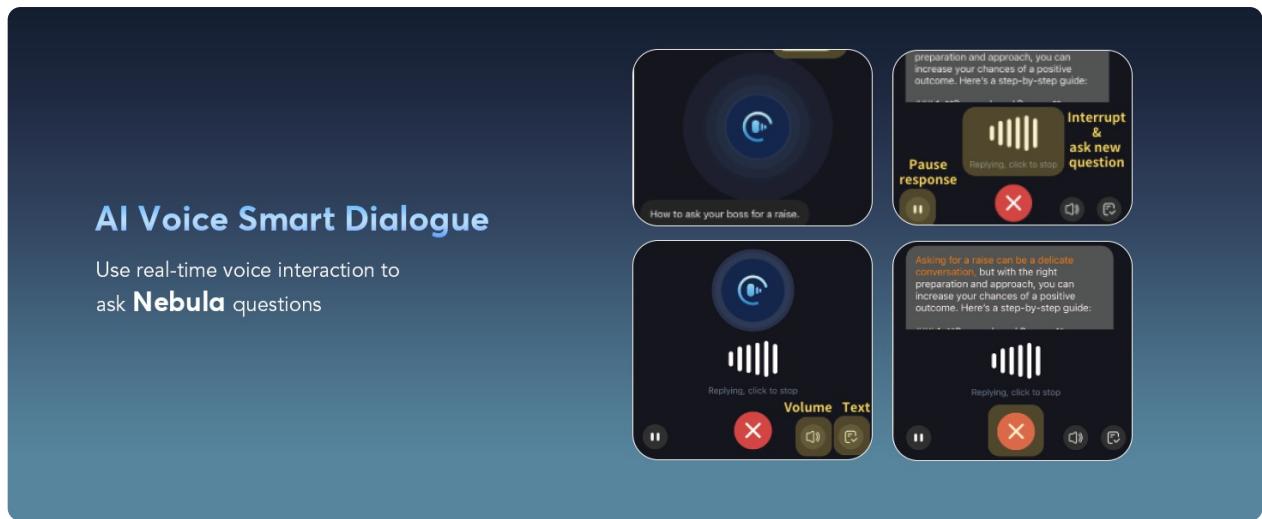

Image: A visual breakdown of the earbuds' features, including crystal-clear AAC sound, advanced air conduction technology, 80 hours total playtime, IP68 waterproof protection, safe and reliable usage, and open-ear comfort design.

SETUP

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case.

- Place the earbuds into the charging case. Ensure they are correctly seated.
- Connect the charging cable (Type-C) to the charging case and a power source.
- The LED display on the charging case will indicate the charging status. A full charge provides up to 80 hours of total playtime with the case, and 6 hours of single playtime for the earbuds.

1.5H Fast Charging with Type-C

2. Wearing the Earbuds

The earbuds feature an open-ear ergonomic design for comfortable and secure fit without entering the ear canal.

- Gently hook the earbud over your ear, ensuring the speaker portion is positioned near your ear canal.
- Adjust for a snug and comfortable fit. The design allows you to remain aware of your surroundings while enjoying audio.

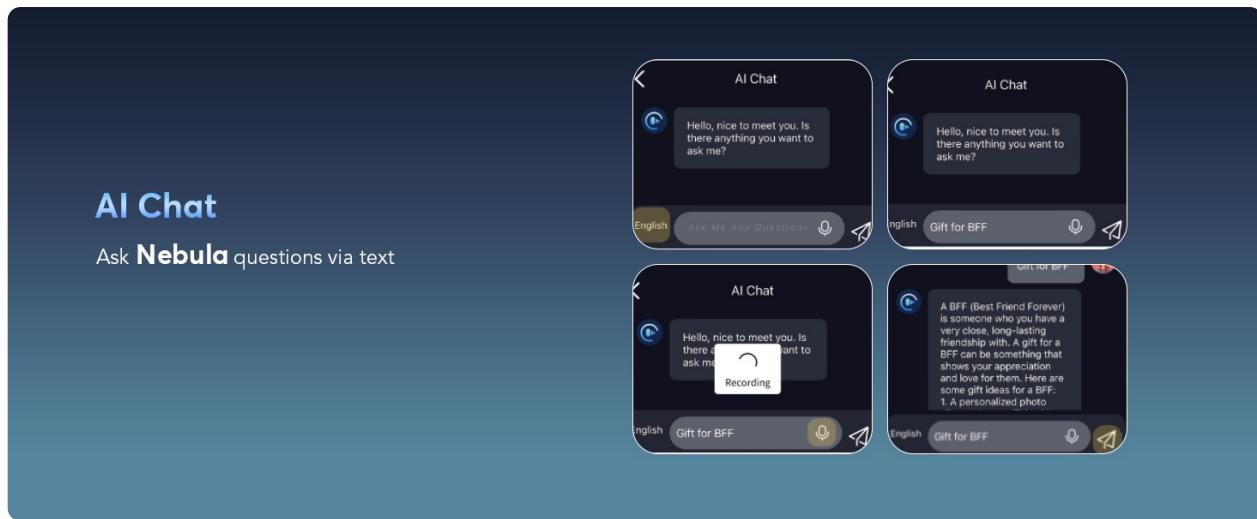

Image: A visual guide demonstrating the correct way to wear the open-ear earbuds for a secure and comfortable fit.

3. Connecting to the "NebulaBuds" App

The earbuds require connection to the dedicated "NebulaBuds" app for full translation functionality.

- Download the App:** Scan the QR code provided in the user manual or on the charging case to download the "NebulaBuds" app.
- Enable Bluetooth:** Turn on Bluetooth on your smartphone (iOS or Android).
- Open App & Grant Permissions:** Launch the "NebulaBuds" app. It will prompt you to allow access to Bluetooth and local network devices. Grant the necessary permissions.
- Connect Earbuds:** The app will automatically detect the earbuds. Select "YYK-Q16S AI" from the list and confirm to establish the connection.

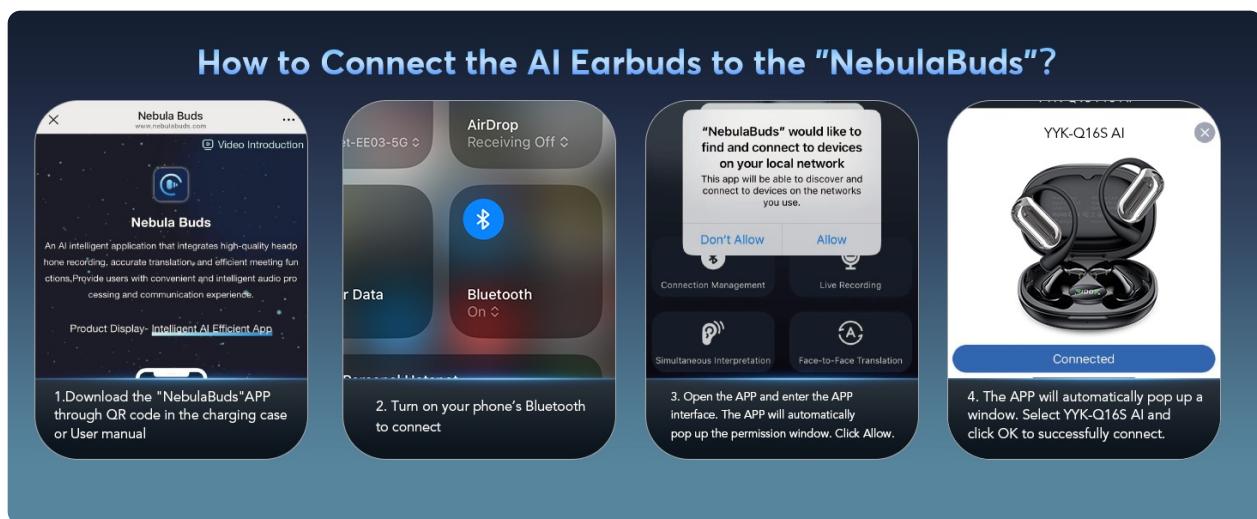

Image: A step-by-step visual guide on connecting the earbuds to the "NebulaBuds" app, including app download, Bluetooth activation, permission granting, and final connection confirmation.

OPERATING INSTRUCTIONS

1. Basic Touch Controls

The earbuds feature intuitive touch controls for managing audio and calls. Refer to the app or the included quick start guide for specific tap functions (e.g., play/pause, answer/end call, activate voice assistant).

2. Real-Time Translation Modes

The "NebulaBuds" app offers various translation modes to suit different communication scenarios.

Image-to-Image

Generates images based on a reference image and text description, with fixed image size.

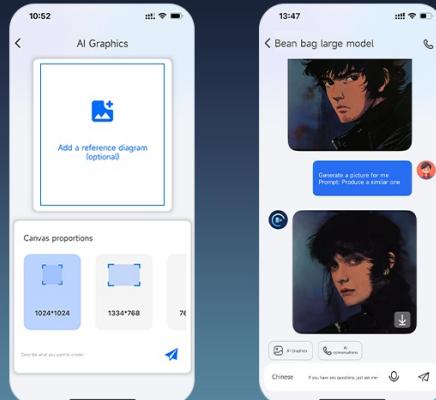

Image: A screenshot demonstrating the real-time translation feature within the app, showing spoken phrases being translated and displayed.

- **Free Talk Mode:** For continuous, natural conversation.
- **Touch Mode:** Tap an earbud to speak, release to translate.
- **Speaker Mode:** One person speaks into the phone, the other listens via earbuds.
- **Audio Transcription:** Converts spoken language into text.
- **Photo Translation:** Translates text from images.
- **Simultaneous Interpretation:** Ideal for conferences, providing real-time voice translation.

Audio and Video History

Easily view call records and support redial

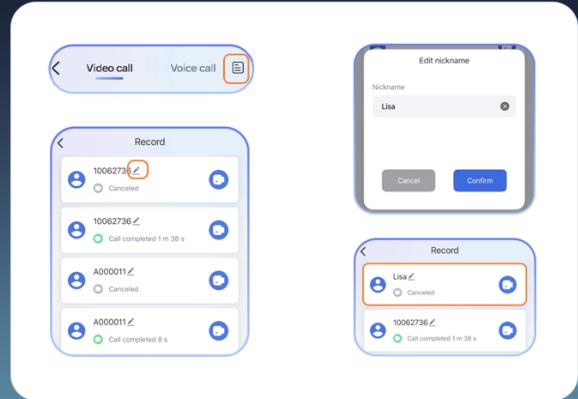

Image: Screenshots illustrating the simultaneous interpretation mode, showing real-time translation of spoken words for international conferences.

- **Face-to-Face Translation (Earphones + Mobile Phone):** Use one earbud and the mobile phone for two-way translation.

Text-to-Image

Generates images based on provided text descriptions.

You can choose the size and save the image.

Summary&Speaker Identification

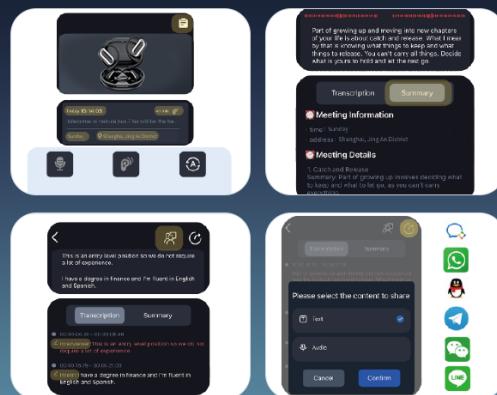

Image: A diagram illustrating the dual-ear mode for face-to-face translation, where two individuals each wear an earbud to communicate simultaneously.

3. Audio Playback and Calls

The earbuds function as standard Bluetooth headphones for music and calls.

- **Music Playback:** Stream audio from your connected device.
- **Phone Calls:** Answer, end, or reject calls using the touch controls. The advanced microphone system ensures clear voice pickup.

4. AI Features and Smart Functions

The "NebulaBuds" app integrates various AI-powered features:

- **Live Recording & Transcription:** Record conversations and meetings, then convert them into text for easy review and summary.

Audio and Video Call

Online calls with real-time translation.
No app needed for the other party, chat effortlessly.

Image: Screenshots demonstrating the live recording feature, showing how recordings are converted to text for meeting notes and can be summarized.

- **AI Voice Smart Dialogue:** Interact with the AI using real-time voice for various queries.

Real Time Translation

The headset provides a variety of innovative translation modes, including Free Talk Mode, Touch mode, Speaker Mode, Audio Transcription and Photo Translation.

Image: Screenshots illustrating the AI Voice Smart Dialogue feature, where users can interact with the AI using voice commands.

- **AI Chat:** Engage in text-based conversations with the AI for information or assistance.

Live Recording

Convert recording to text for meeting notes

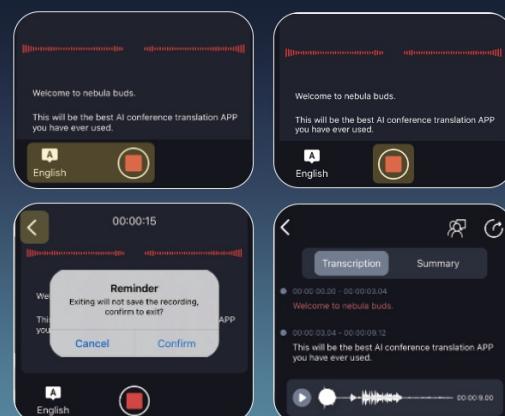

Image: Screenshots showing the AI Chat interface, allowing users to ask questions via text.

- **AI Assistant:** Access over 200 AI small applications for various tasks, such as one-click writing or

generating presentation outlines.

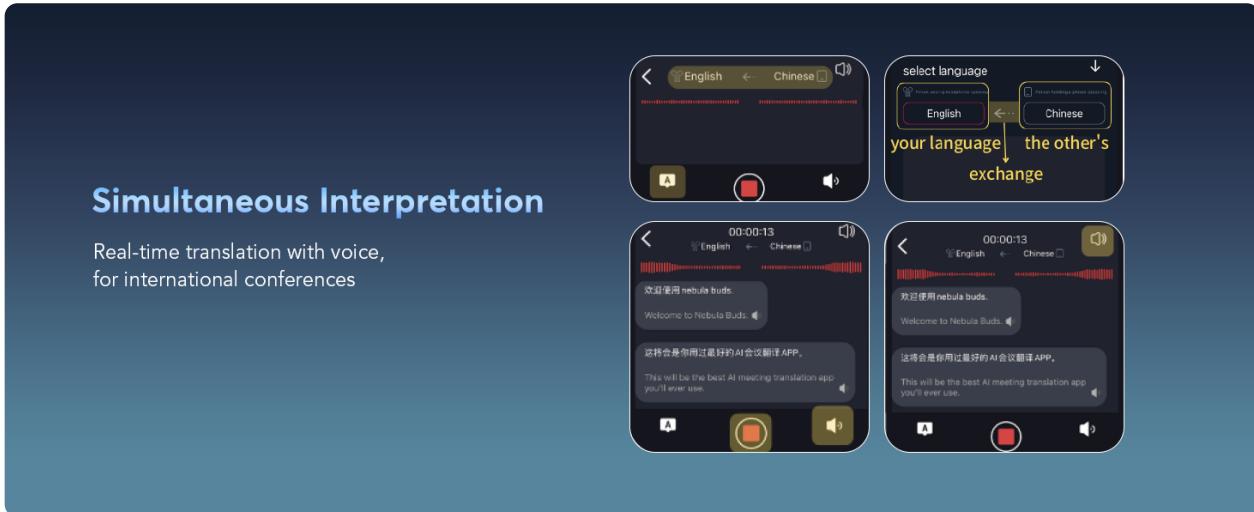

Image: Screenshots displaying the AI Assistant feature, highlighting various AI applications like one-click writing and PPT courseware outline generation.

- **Text-to-Image:** Generate images based on provided text descriptions.

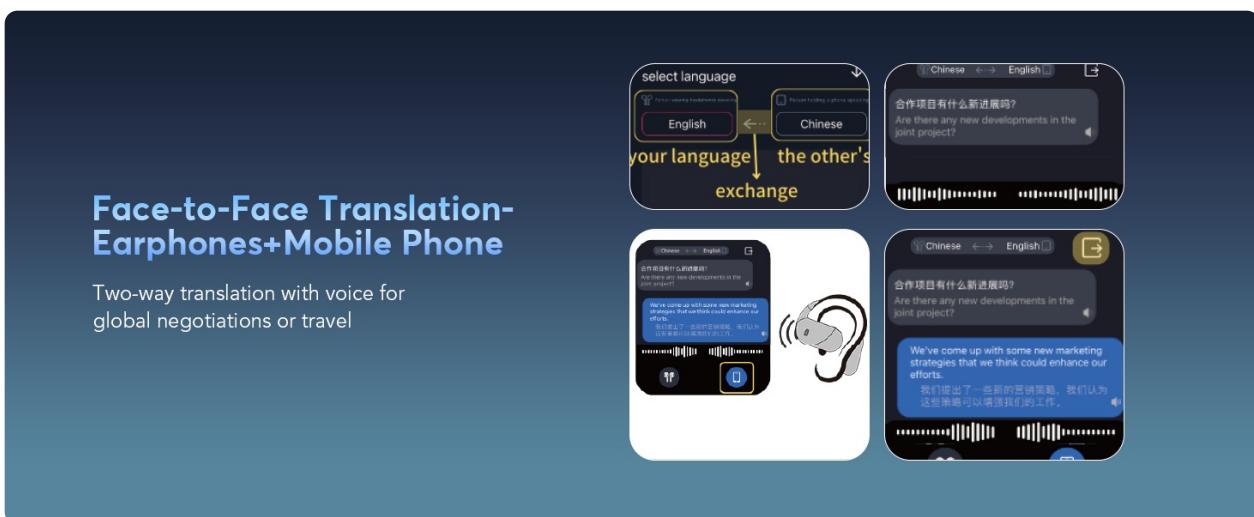

Image: Screenshots demonstrating the Text-to-Image feature, where users can generate images from text descriptions and save them.

- **Image-to-Image:** Generate new images based on a reference image and text description.

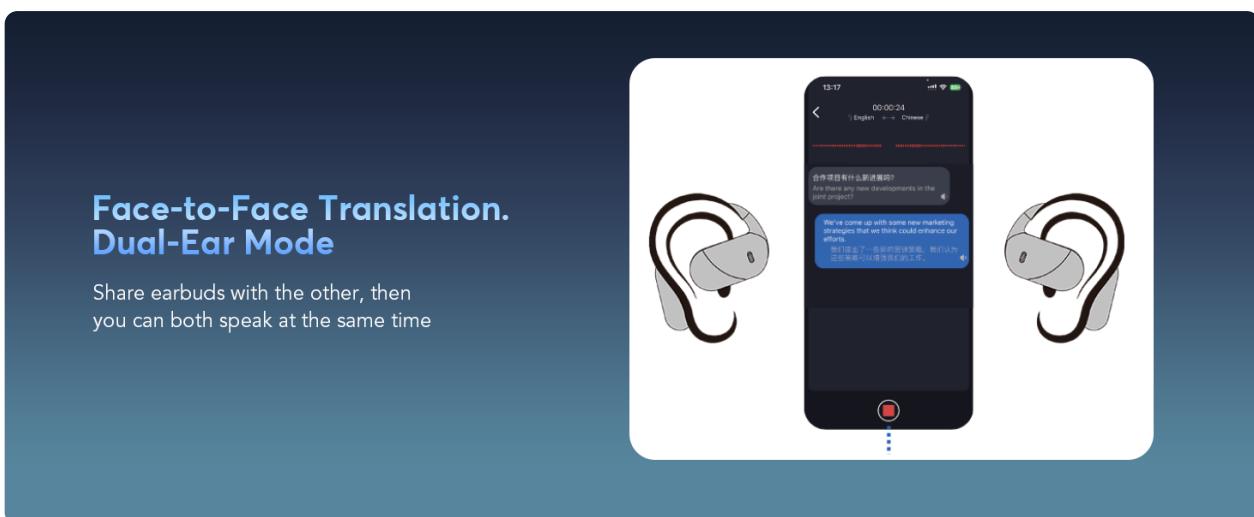

Image: Screenshots showing the Image-to-Image feature, allowing users to generate new images from a reference image and text description.

- **Audio and Video Call with Real-Time Translation:** Conduct online calls with integrated real-time translation, without requiring the other party to have the app.

Image: A screenshot of the app's audio and video call interface, demonstrating real-time translation during a call.

- **Audio and Video History:** Easily view call records and support redial functionality.

Image: Screenshots showing the audio and video call history within the app, allowing users to review past calls and redial.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the earbuds and charging case. Avoid using liquids or abrasive cleaners.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and ensure they remain charged. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** The earbuds are IP68 rated for water protection. While they can withstand splashes and sweat, avoid submerging them in water for extended periods.

TROUBLESHOOTING

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
Earbuds not connecting to phone/app	Bluetooth off, earbuds not charged, app permissions denied, incorrect pairing.	Ensure Bluetooth is on. Check earbud and case battery levels. Verify app permissions. Forget device in phone's Bluetooth settings and re-pair.
Translation not working or inaccurate	No internet connection, incorrect language settings, background noise, speaking too fast/unclearly.	Ensure stable internet connection. Verify source and target languages in the app. Speak clearly and at a moderate pace. Reduce background noise.
No audio from earbuds	Earbuds not connected, low battery, volume too low, audio source issue.	Check Bluetooth connection. Charge earbuds. Increase volume on both earbuds and connected device. Test with a different audio source.
Earbuds falling out	Improper fit.	Adjust the earbuds according to the wearing instructions to ensure a secure fit over the ear.
