Passky KFM52PLY5B03R1-2

Passky 52 Inch Flush Mount Ceiling Fan with Lights and Remote Control User Manual

Model: KFM52PLY5B03R1-2

Important Safety Information

Please read all instructions carefully before beginning installation and retain this manual for future reference. Always ensure the power is turned off at the circuit breaker before installation or maintenance. This fan is designed for 120V (US area) voltage only. It will not function with 220V. The motor is a DC motor, meaning the light and fan cannot be wired separately. Do not connect this fan to dimmer switches or fan gear switches; it is designed for traditional ON/OFF switches only. Ensure the ceiling junction box is standard and securely mounted to support the fan's weight. Do not expose the fan directly to rain if installed in outdoor covered areas.

Product Overview and Features

The Passky 52-inch flush mount ceiling fan combines efficient air circulation with customizable lighting, designed for various indoor spaces and covered outdoor areas.

Key Features:

- **Energy Efficient:** A energy efficiency rating, reducing electricity loss.
- **Remote Control:** Full control over fan speed, light on/off, timer (1/2/4 hours), and forward/reverse rotation.
- **APP Control:** Bluetooth APP control for fan and light functions, including speed, timer, and rotation.
- **Quiet Operation:** Operates at a low noise level of 35dB, suitable for bedrooms and quiet environments.
- **Reversible DC Motor:** Six adjustable wind speeds and dual-direction rotation for year-round comfort (cooling in summer, air circulation in winter).
- **Customizable Light:** Dimmable LED light (10%-100%) with three color temperatures (3000K Warm, 4500K Natural, 6000K Cold).
- **Memory Function:** Retains previous light and fan settings when turned off and on via a wall switch.
- **Double-sided Blades:** Fan blades feature white on one side and yellow wood grain on the other, allowing for customization.

Setup and Installation

This ceiling fan is designed for easy installation, especially for standard ceiling junction boxes, requiring no extra drilling.

Installation Steps:

1. **Prepare for Installation:** Ensure power is disconnected at the circuit breaker. Gather all components and tools as listed in the included guide.
2. **Mounting Bracket:** Secure the mounting bracket to a standard ceiling junction box.
3. **Wiring:** Connect the fan's wires to the household wiring according to the provided diagram. Ensure the green wire is connected to the ground. Note that the fan and light are powered by a single controller and DC motor, so separate wiring for light and fan is not possible. If you have multiple live wires, connect one and insulate the other.
4. **Attach Fan Body:** Carefully lift and attach the fan motor assembly to the mounting bracket.
5. **Install Blades:** Secure the fan blades to the motor housing. The blades are double-sided (white and yellow wood

grain); choose your preferred side.

6. **Install Light Kit:** Connect and secure the light kit to the fan assembly.
7. **Restore Power:** Once all connections are secure and the fan is fully assembled, restore power at the circuit breaker.

Operating Instructions

Remote Control Operation:

The included remote control provides comprehensive control over your ceiling fan.

- **Fan On/Off:** Press the power button to turn the fan on or off.

- **Fan Speed:** Select from 6 wind speeds (1-6) to adjust airflow.
- **Light On/Off:** Toggle the light on or off independently from the fan.
- **Light Dimmer:** Use the dimmer buttons to adjust light brightness from 10% to 100%.
- **Color Temperature:** Cycle through 3 color temperatures: 3000K (Warm), 4500K (Natural), and 6000K (Cold).
- **Timer:** Set the fan to turn off automatically after 1, 2, or 4 hours.
- **Forward/Reverse Rotation:** Change the blade direction to optimize air circulation for summer cooling or winter warmth.
- **Natural Wind Mode:** Activates a mode that simulates natural wind patterns.

Bluetooth APP Control:

Control your fan conveniently from your smartphone using the dedicated Bluetooth APP.

1. **Download APP:** Scan the QR code provided in the manual or on the product packaging to download the "Smart Home" APP. A relevant link is also http://www.jasonghost.com/appliancesmart/.

2. **Pairing:**
    a. Go to the control page within the APP.
    b. Turn the fan power on.
    c. Click the Bluetooth button in the APP to pair within 5 seconds. The light will blink once to confirm successful pairing.
3. **Functions:** The APP allows you to turn the fan and light on/off, adjust wind speeds, set the timer, and switch forward/reverse rotation.

Maintenance

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Dust the fan blades and motor housing periodically with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the finish.
- **Blade Inspection:** Check fan blades for any signs of damage or warping. Ensure all blade screws are tight.
- **Light Fixture:** Clean the light cover gently with a soft cloth. Ensure the light is off and cool before cleaning.
- **Motor Lubrication:** The DC motor is permanently lubricated and does not require additional oiling.
- **Tighten Fasteners:** Periodically check all screws and fasteners on the fan and mounting hardware to ensure they are secure.

Troubleshooting

If you encounter issues with your fan, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Fan does not start	No power, loose wiring, remote control battery dead, incorrect voltage.	Check circuit breaker. Ensure all wiring connections are secure. Replace remote control batteries. Confirm voltage is 120V.
Light does not work	Loose wiring, LED driver issue, remote control battery dead.	Check light kit wiring. Ensure remote battery is functional. Contact customer support if LED driver is suspected.
Fan wobbles	Loose blades, unbalanced blades, loose mounting bracket.	Ensure all blade screws are tight. Check if blades are balanced (balancing kit may be needed). Verify mounting bracket is securely fastened to the ceiling junction box.
Remote control not responding	Dead batteries, remote not paired, interference.	Replace remote batteries. Re-pair the remote control with the fan (refer to operating instructions). Ensure no obstructions between remote and fan receiver.
APP control not working	Bluetooth not enabled, fan not paired, APP issue.	Ensure Bluetooth is enabled on your device. Re-pair the fan with the APP (refer to operating instructions). Try restarting the APP or your device.

If the problem persists after attempting these solutions, please contact Passky customer support for assistance.

Specifications

Feature	Detail
Brand	Passky
Model Number	KFM52PLY5B03R1-2
Product Dimensions	52"D x 52"W x 16"H
Color	White
Electric Fan Design	Ceiling Fan
Power Source	Corded Electric

Feature	Detail
Style	Modern
Room Type	Bedroom, Dining Room, Living Room
Special Features	6 speeds, Customizable Light, Quiet Operation, Remote Controlled, Reversible
Mounting Type	Ceiling Mount (Flush Mount)
Controller Type	Remote Control, Bluetooth APP
Number of Speeds	6
Noise Level	35 Decibels
Wattage	64 watts
Number of Blades	5
Air Flow Capacity	4454 Cubic Feet Per Minute
Voltage	120 Volts
Indoor Outdoor Usage	Indoor, Outdoor (covered areas only)
Motor Type	DC
Material	Engineered Wood, Metal
Included Components	Light Kit, Remote
Certification	ETL

Warranty and Support

Passky is committed to customer satisfaction and provides comprehensive support for your product.

- **Worry-free Service:** The product is backed by a 24-month worry-free service.
- **Warranty:**
  - 10 Years Warranty for Motor
  - 2 Years Warranty for Other Parts
- **Technical Support:**
  - Email response 24/7
  - Phone customer service hours are Monday through Friday.
- **Logistics Damage:** If part of the damage is caused by logistics factors, contact customer service for compensation or a satisfactory solution.

Image: Graphic detailing Passky's warranty policy, including 10 years for the motor and 2 years for other parts, along with customer service availability.

For any problems using or installing your fan, please feel free to contact Passky customer service.
