ZIPFORCE ZF-430P

ZIPFORCE True Wireless Earbuds User Manual

Model: ZF-430P (Luna Pro+)

INTRODUCTION

Thank you for choosing ZIPFORCE True Wireless Earbuds. These semi-in-ear headphones feature Bluetooth 5.3 for an extremely fast and stable connection, along with the latest Environmental Noise Cancellation (ENC) technology for clear calls. Designed for comfort and extended use, they offer over 40 hours of total playtime with the charging case and are compatible with both iPhone and Android devices.

The image displays the ZIPFORCE True Wireless Earbuds, white in color, resting within their charging case. The case features a digital display indicating the battery levels for both the case and individual earbuds.

SETUP

Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. Connect the provided Type-C cable to the charging port on the case and a compatible USB power source. The digital display on the case will show the charging status. A full charge for the earbuds takes approximately 1 hour, providing 4-5 hours of playtime. The charging case provides multiple additional charges, extending total playtime to over 40 hours.

Control one's heart

Precise response

Two scenes depict users enjoying the earbuds, one during the day and another in the evening, to convey the extended battery life of up to 30 hours with the charging case.

Pairing with Your Device

1. Open the charging case and remove both earbuds. They will automatically enter pairing mode.
2. On your device (smartphone, tablet, laptop), navigate to the Bluetooth settings.
3. Select "Luna Pro+" from the list of available devices.
4. Once connected, the earbuds are ready for use. They will automatically reconnect to the last paired device when removed from the case.

IPX5 level authentication Waterproof and dustproof

IPX5 level protection for easy protection against daily rain and sweat. Safe use, indoor and outdoor, no worries.

This graphic provides a clear guide to the touch controls, illustrating how to play/pause music, answer/hang up calls, reject calls, skip tracks, and activate voice assistant using simple taps and presses on the earbuds.

Call Features

Each earbud is equipped with two built-in microphones and Environmental Noise Cancellation (ENC) technology. This system effectively suppresses up to 80% of background noise, ensuring clear voice transmission during calls, even in noisy environments.

Six mics call noise reduction Every whisper is clear

Each earphone has two sensitive microphones and ENC noise reduction technology. Can dynamically transition, reduce ambient noise, effectively reduce the echo in the call. Greatly expanded voice radio, sound is clear even in noisy environments

This diagram highlights the advanced six-microphone system and Environmental Noise Cancellation (ENC) technology, which work together to reduce background noise for clearer calls. A graph compares noise levels with and without ENC.

Audio Playback

Experience immersive sound with the 13mm large speakers and composite diaphragm. The stereo dual-channel HiFi bass effect delivers rich, powerful, and clear audio, enhancing your listening experience for music, podcasts, and more.

13mm composite diaphragm moving coil Hard power hits your ears

Using TPU+PEEK double-layer composite diaphragm, the softness of TPU+ the toughness of PEEK complete The combination of beauty truly realizes high analytical power, high dynamic performance, high frequency extension, etc.Ensure that the three frequencies are clear, balanced and powerful, bringing high fidelity listening enjoyment

COMFORT AND DESIGN

The ZIPFORCE earbuds are designed for optimal comfort with a 45-degree half-in-ear fit, ensuring a secure and pressure-free experience. Each earbud weighs approximately 3.7g, making them ultra-lightweight for extended wear without discomfort.

It fits comfortably in the ear

The headset adopts 45° half-in-ear design to optimize the wearing structure. More ergonomic wear, comfortable and breathable. At the same time, ANC is equipped with active noise reduction and automatic detection of the environment. The noise,

A woman is shown wearing one of the ZIPFORCE earbuds, highlighting its ergonomic 45-degree half-in-ear design which ensures a comfortable and secure fit without pressure on the ear canal.

Comfort fit Light and free

The simulation design fits the curve of the ear canal, so that the earphone naturally fits the auricle. Single headset light about 3.7g*, light as nothing, lasting wear can also be comfortable without burden.

This image focuses on the lightweight nature of the earbuds, with a woman wearing one earbud and text indicating its ultra-light weight of approximately 3.7 grams, contributing to comfortable long-term wear. With an IPX6 waterproof rating, these earbuds are protected against sweat and light rain, making them suitable for various activities and daily use.

Full compatibility Complete in one step

Widely compatible with Android, Apple, Hongmeng, windows, game console As long as the device has Bluetooth function, it can be used continuously

The image shows the earbuds with water droplets, visually representing their IPX5 waterproof and dustproof rating, making them suitable for daily use and resistant to sweat and light rain.

MAINTENANCE

Cleaning

To maintain optimal performance and hygiene, regularly clean your earbuds and charging case. Use a soft, dry, lint-free cloth to wipe the surfaces. For stubborn dirt, slightly dampen the cloth with water. Avoid using abrasive materials or harsh chemicals.

Storage

When not in use, store the earbuds in their charging case to protect them from dust, dirt, and physical damage. Store the case in a cool, dry place away from direct sunlight and extreme temperatures.

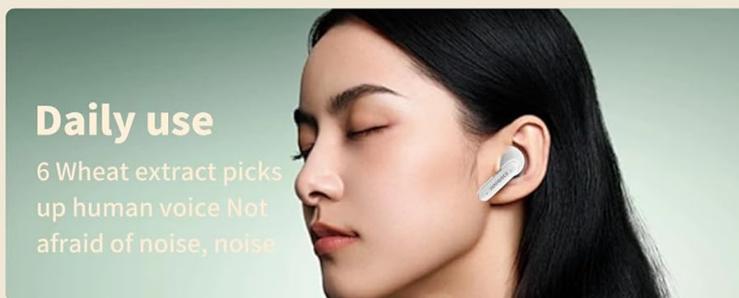

TROUBLESHOOTING

Issue	Possible Solution
-------	-------------------

Issue	Possible Solution
Earbuds not pairing	Ensure earbuds are charged. Turn off and on Bluetooth on your device. Forget "Luna Pro+" in your device's Bluetooth settings and re-pair.
No sound from one earbud	Place both earbuds back in the charging case, close the lid, wait a few seconds, then take them out again. Check device's audio output settings.
Charging case not charging	Ensure the Type-C cable is securely connected to both the case and the power source. Try a different cable or power adapter.
Poor call quality	Ensure earbuds are clean. Move closer to your connected device. Avoid environments with excessive background noise.
Earbuds frequently disconnect	Ensure your device is within the 10m transmission range. Avoid physical obstructions between earbuds and device.

Fearless of circumstances Have a wild conversation

Adaptive filtering of ambient noise, do not pick a place to talk

This visual demonstrates the adaptive noise filtering capabilities of the earbuds across different environments: outdoor use with automatic noise filtering, daily use with human voice pickup, and indoor use with intelligent noise filtering for clear conversations.
