### Walfront WALFRONT76zxpvg1oq

# Walfront Wireless WiFi Video Doorbell Camera Instruction Manual

Model: WALFRONT76zxpvg1oq

## 1. INTRODUCTION

---

This manual provides detailed instructions for the installation, operation, and maintenance of your Walfront Wireless WiFi Video Doorbell Camera. This device is designed to enhance home security by providing real-time video monitoring and remote communication capabilities for your front door.

## 2. PACKAGE CONTENTS

---

Verify that all items listed below are present in your package:

- 1 x Doorbell Unit
- 1 x Chime Unit
- 1 x Data Cable (for charging)
- 1 x User Manual
- 1 x Sticker
- 1 x Accessory Pack (mounting screws, anchors)

Image 2.1: Walfront Wireless WiFi Video Doorbell and Chime Unit. The doorbell unit features a camera lens and a call button, while the chime unit has a speaker grille.

### 3. PRODUCT FEATURES

- **HD Visibility:** The doorbell camera is equipped with a high-definition camera that provides clear video of the area outside your door.
- **Remote Control:** Monitor your entrance in real-time and engage in two-way intercom communication via a mobile phone application.
- **Intelligent Reminding:** Supports mobile phone application message push notifications, alerting you to doorbell presses or motion detection events.
- **Durable Construction:** Constructed from ABS material for durability and extended service life.
- **Wide Application:** Suitable for various environments including homes, apartments, villas, studios, and offices.

# IR Night Vision

24-hour security guard

## Two way Audio

You can sign for a delivery when you're not home

Image 3.2: Depiction of the two-way audio function, showing a delivery person communicating with a homeowner remotely.

## 4. SETUP AND INSTALLATION

### 4.1 Charging the Doorbell Unit

Before initial use, fully charge the doorbell unit using the provided data cable. Connect the cable to the doorbell's charging port and a standard USB power adapter (not included).

### 4.2 Mobile Application Setup

1. Download the designated mobile application (e.g., TUYA Smart) from your device's app store.
2. Register an account and log in.
3. Follow the in-app instructions to add the doorbell device. This typically involves powering on the doorbell and connecting it to your home's WiFi network.

Image 4.1: The doorbell installed near a door, with a separate image showing the mobile application interface displaying a live feed.

### 4.3 Physical Installation

1. Select a suitable mounting location near your front door, ensuring clear visibility and strong WiFi signal.
2. Use the provided accessory pack (screws and anchors) to securely mount the doorbell unit.
3. Place the chime unit indoors within range of the doorbell unit.

Image 4.2: Diagram illustrating the wireless connection between the doorbell, home WiFi router, and mobile device.

## 5. OPERATING INSTRUCTIONS

### 5.1 Receiving Notifications

When a visitor presses the doorbell button or motion is detected, the chime unit will sound, and a notification will be sent to your linked mobile application.

**Intelligent Reminding**  
Supports for TUYA mobile phone APP message push function to receive doorbell notification in time and guard your family's safety.

Image 5.1: Illustration of the mobile application's message push function, showing notifications received on various mobile devices.

## 5.2 Two-Way Audio Communication

Upon receiving a notification, open the mobile application to view the live video feed. You can then use the microphone and speaker icons within the app to communicate with the visitor at your door.

Image 5.2: The doorbell unit next to a smartphone displaying a live view of a delivery person, demonstrating remote interaction.

### 5.3 Night Vision

The doorbell camera automatically switches to infrared (IR) night vision mode in low-light conditions, providing visibility even in darkness.

## 6. MAINTENANCE

- **Cleaning:** Gently wipe the camera lens and doorbell surface with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- **Battery Life:** Monitor the battery level via the mobile application and recharge the doorbell unit as needed.
- **Firmware Updates:** Regularly check the mobile application for available firmware updates to ensure optimal performance and security.

## 7. TROUBLESHOOTING

- **No Power:** Ensure the doorbell unit is fully charged. Check the charging cable and power source.
- **No WiFi Connection:** Verify that your home WiFi network is active and the doorbell is within range. Restart your router and the doorbell unit. Re-attempt the WiFi setup process in the app.

- **No Notifications:** Check your mobile application's notification settings and ensure they are enabled. Verify that the app has necessary permissions on your smartphone.
- **Poor Video Quality:** Ensure the camera lens is clean and free from obstructions. Check your WiFi signal strength; a weak signal can affect video streaming quality.
- **Chime Not Ringing:** Ensure the chime unit is powered on and properly paired with the doorbell unit. Refer to the app for pairing instructions if necessary.
