Roxicosly CR1029

Roxicosly Digital Calendar Day Clock User Manual

Model: CR1029

INTRODUCTION

This manual provides detailed instructions for the Roxicosly Digital Calendar Day Clock (Model CR1029). This device is designed to clearly display time, date, and day of the week with a large, high-definition screen, making it suitable for various users, including seniors and those with vision impairment. It offers extensive alarm and reminder functionalities, customizable display options, and a photo playback feature.

IMPORTANT SAFETY INFORMATION

- Always use the provided power adapter. The clock requires AC power for operation.
- 2 AA batteries (not included) are for backup memory function only, preserving settings during a power outage. They do not power the clock for continuous display.
- Keep the device away from water and high humidity.
- Do not attempt to disassemble or repair the device yourself. Contact customer support for assistance.
- Ensure proper ventilation around the device.

PACKAGE CONTENTS

Verify that all items are present in the package:

- Roxicosly Digital Calendar Day Clock (Model CR1029)
- Power Adapter (AC 100-240V, DC 5V/2A)
- USB to Type-C Cable (1.4m/55inch)
- User Manual

SETUP

1. Powering On

1. Connect the USB to Type-C cable to the clock's power input.
2. Plug the power adapter into a standard AC outlet.
3. The clock will automatically power on and display the current time and date.
4. For memory backup during power outages, insert 2 AA batteries (not included) into the designated battery compartment.

2. Initial Settings (Date & Time)

The clock typically sets itself automatically. If manual adjustment is needed:

- Access the 'Settings' menu using the control buttons on the back or side of the clock.
- Navigate to 'Date & Time' to adjust year, month, day, hour, and minute.
- Select your preferred 12-hour or 24-hour time format.
- Adjust Daylight Saving Time (DST) manually if applicable using the dedicated DST button.

OPERATING INSTRUCTIONS

1. Display Features

- **HD Screen & Large Font:** The 7-inch (1024x600P) LCD screen provides a clear display of time, date, and day of the week in large, easy-to-read fonts.
- **Time Periods:** The day is divided into six distinct periods: Morning, Noon, Afternoon, Evening, Night, and Midnight, each accompanied by sun or moon icons for visual clarity.

Image: The clock display illustrating different time periods (Morning, Noon, Afternoon, Evening, Night, Pre-Dawn) with corresponding sun and moon icons.

2. Alarms and Reminders

The clock supports up to 20 standard alarms and 20 customizable reminders.

- **Standard Alarms:** Set alarms for specific times, daily, weekdays, weekends, or specific dates.
- **Custom Reminders:** Create personalized reminders for tasks such as taking medication, drinking water, appointments, or other daily activities. Clear icons and text accompany triggered alarms.

Image: A visual representation of the clock's 20 separate alarms and 20 reminders, including medication reminders.

3. Sleep Mode & Brightness

- **One-Touch Sleep Mode:** Press the top button to instantly turn off the display for an undisturbed sleep environment.
- **Adjustable Brightness:** Choose from 10 brightness levels (10% to 100%) to suit day or night viewing, reducing eye strain.

6. Pictures Playback Function

The clock can function as an HD electronic photo frame.

- Insert an SD card or USB Flash Drive (not included, max 64GB) into the slot on the back of the clock.
- The clock will automatically play photos from the inserted drive.

MAINTENANCE

- Clean the screen and exterior with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- Ensure the power adapter and cable are free from damage.
- If storing the clock for an extended period, remove the backup batteries.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Clock not turning on	No power supply; faulty adapter/cable	Ensure power adapter is securely plugged in. Check cable for damage. Try a different outlet.
Display is dim or too bright	Brightness settings incorrect	Adjust brightness levels in the 'Brightness' menu.
Alarms not sounding	Alarm not set; volume too low	Verify alarm settings in the 'Alarms' menu. Increase alarm volume.
Time/Date incorrect after power outage	No backup batteries or batteries depleted	Install fresh AA batteries for backup. Manually reset time/date if necessary.
Photos not displaying	SD card/USB drive not inserted correctly; unsupported format; corrupted files	Ensure drive is fully inserted. Check file format (FAT/FAT32/exFAT32/NTFS). Try different photos or drive.
