SETUP

1. Placement

Place the projector on a stable, flat surface. The adjustable stand allows for projection onto walls or ceilings. Ensure adequate ventilation around the device.

2. Power Connection

Connect the power cord to the projector and then to a power outlet. The projector will power on or enter standby mode.

3. Initial Boot-up

Upon first use, the projector may guide you through an initial setup process, including language selection and network connection.

OPERATING INSTRUCTIONS

Basic Operation

- **Power On/Off:** Press the power button on the projector or remote control.
- **Navigation:** Use the directional buttons on the remote to navigate menus.
- **Source Selection:** Select the desired input source (e.g., HDMI, USB, Apps) from the main menu.

Connectivity

Wi-Fi Connection (WiFi6 & 5G+2.4G Dual Band)

The projector supports dual-band WiFi6 for fast and stable wireless connections. Navigate to the network settings, select your Wi-Fi network, and enter the password.

Bluetooth 5.4 Connection

Connect external Bluetooth speakers or headphones for an enhanced audio experience. Go to Bluetooth settings, enable Bluetooth, and pair with your desired device.

HDMI, USB, and Audio Jack Connections

The projector features HDMI, USB, and audio jack ports for wired connections. Connect devices such as laptops, gaming consoles, or USB drives. The USB port also supports reading WPS files.

Image Adjustment

Automatic Keystone Correction

The projector features automatic vertical keystone correction, adjusting the image shape within 2 seconds to ensure a rectangular display, even when projected at an angle. Manual 4-point correction is also available for fine-tuning.

Digital Zoom (50%-100%)

Adjust the projection size digitally from 50% to 100% without moving the projector. This function is accessible through the projector's settings menu.

Obstacle Avoidance and Screen Alignment

The projector can detect obstacles and automatically align the image to your screen, preventing spillover onto wall decor or edges.

MAINTENANCE

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Do not use abrasive cleaners.
- **Cleaning the Exterior:** Wipe the projector's exterior with a soft, dry cloth.
- **Ventilation:** Ensure the ventilation openings are clear of dust and obstructions to prevent overheating.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, protected from dust.

TROUBLESHOOTING

No Image / Poor Image Quality

- **Check Power:** Ensure the projector is powered on and connected correctly.
- **Input Source:** Verify the correct input source (HDMI, USB, etc.) is selected.
- **Focus/Keystone:** Adjust focus manually if needed. Automatic keystone correction should handle

image shape.

- **Lighting:** For optimal image quality, use the projector in a dark environment.

No Sound / Poor Sound Quality

- **Volume:** Check the projector's volume settings and the volume of the connected source device.
- **Bluetooth:** If using Bluetooth speakers, ensure they are properly paired and charged.
- **Cables:** For wired connections, ensure audio cables are securely connected.

Wi-Fi Connection Issues

- **Network Selection:** Confirm you have selected the correct Wi-Fi network and entered the password accurately.
- **Router Proximity:** Ensure the projector is within range of your Wi-Fi router.
- **Restart:** Try restarting both the projector and your Wi-Fi router.
