

Unikito DKY-87.1

Unikito 50 Inch Closet System with Drawers Instruction Manual

Model: DKY-87.1 | Brand: Unikito

INTRODUCTION

This instruction manual provides essential information for the safe and efficient assembly, operation, and maintenance of your Unikito 50 Inch Closet System with Drawers. Please read this manual thoroughly before beginning assembly or use, and retain it for future reference.

The Unikito 50 Inch Closet System is designed as a versatile storage solution, featuring two freestanding closet towers that can be combined to form a 50-inch unit or used separately. It includes drawers, shelving, and a mirror design, suitable for organizing clothing, accessories, and other items in various rooms.

SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or product damage.

- Always assemble and use the closet system on a stable, level surface.
- Use the tipping restraint hardware included to prevent tip-over. This is crucial for safety, especially in households with children.
- Be cautious of sharp edges during assembly and use.
- Do not exceed the maximum weight capacity of 1000 pounds for the combined system. Distribute weight evenly across shelves and drawers.
- Keep all small parts and packaging materials away from children to prevent choking hazards.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.

PACKAGE CONTENTS

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact Unikito customer support.

- 2 x 25 inch Closet Towers (main units)
- All necessary hardware for assembly (screws, cam locks, dowels, etc.)
- Tipping restraint hardware
- Assembly instructions manual

SETUP AND ASSEMBLY

The Unikito 50 Inch Closet System is designed for easy assembly. It is recommended to have two people for assembly. Estimated assembly time is approximately 30 minutes.

Required Tools (Not Included):

- Phillips head screwdriver
- Hammer (optional, for dowels)

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches.
2. **Identify Parts:** Refer to the included parts list and diagrams to identify each component.
3. **Assemble Individual Towers:** Follow the step-by-step instructions provided in the separate assembly guide to construct each of the two 25-inch closet towers. This typically involves attaching side panels to shelves and back panels.
4. **Install Drawers:** Assemble the drawers according to the instructions and install them into their designated slots within the towers. Ensure drawers glide smoothly.
5. **Combine Towers (Optional):** If creating a 50-inch system, align the two assembled towers side-by-side. Use the provided connecting hardware to secure them together, ensuring stability.
6. **Attach Tipping Restraint:** Securely attach the anti-tipping hardware to the top rear of the closet system and to a wall stud, following the specific instructions provided. This step is critical for safety.

Image: Key features of the closet system. This image highlights the anti-tipping mechanism for safety, the spacious interior for storage, the integrated mirror, and the smooth operation of the drawers.

OPERATION AND USAGE

Your Unikito 50 Inch Closet System is designed for organizing various items. Here are guidelines for optimal use:

- **Drawer Usage:** The smooth-gliding drawers are ideal for storing folded clothes, lingerie, underwear, socks, jewelry, and other accessories. Avoid overloading drawers to ensure smooth operation and prevent damage.
- **Shelf Usage:** Utilize the open shelves for items such as bags, hats, shoes, decorative items, or folded garments. Adjustable shelves (if applicable) can be repositioned to accommodate different item heights.
- **Mirror Design:** The integrated mirror provides a convenient spot for outfit checks and makeup application. Keep the mirror clean with a soft, lint-free cloth and glass cleaner.
- **Weight Distribution:** Distribute weight evenly across all shelves and drawers. Avoid placing heavy items exclusively on one side or at the very top of the unit to maintain stability.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your closet system.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, which can damage the finish. For the mirror, use a standard glass cleaner.
- **Dusting:** Dust regularly with a dry, soft cloth.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten as needed to maintain structural integrity.
- **Drawer Glides:** If drawers become stiff, a small amount of silicone-based lubricant can be applied to the glides.
- **Avoid Moisture:** Protect the unit from excessive moisture and direct sunlight to prevent warping or discoloration.

TROUBLESHOOTING

If you encounter issues with your Unikito Closet System, refer to the common problems and solutions below:

Problem	Possible Cause	Solution
Unit feels wobbly or unstable.	Loose fasteners; uneven floor; tipping restraint not installed or improperly secured.	Ensure all screws and cam locks are tightened. Move the unit to a level surface or use shims if necessary. Verify the tipping restraint is correctly installed and anchored to a wall stud.
Drawers do not slide smoothly.	Overloaded drawer; misaligned glides; debris in glides.	Reduce the weight in the drawer. Check that the drawer glides are properly aligned and free of obstructions. Apply a silicone-based lubricant if needed.
Parts are missing or damaged upon arrival.	Manufacturing defect or shipping damage.	Do not proceed with assembly. Contact Unikito customer support immediately for replacement parts.

SPECIFICATIONS

Feature	Detail
Brand	Unikito
Model Number	DKY-87.1
Color	White
Material	Engineered Wood
