2. WHAT'S IN THE BOX

- Crucial X10 Portable SSD (2TB, Blue)
- USB-C to C cable

3. SETUP AND CONNECTION

The Crucial X10 Portable SSD is designed for easy plug-and-play functionality. Follow these steps to connect your device:

1. Locate the USB-C port on your computer (Windows, Mac, Linux) or compatible device (iPad Pro, Chromebook, Android, PS4, PS5, Xbox).
2. Connect one end of the provided USB-C to C cable to the Crucial X10 Portable SSD.
3. Connect the other end of the USB-C to C cable to the USB-C port on your device.
4. The SSD should be automatically recognized by your operating system. If your device only has USB-A ports, a USB-C to A adapter (not included) will be required.

5. MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the SSD. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the SSD in a cool, dry place away from direct sunlight and extreme temperatures.
- **Software:** Register your product to access bonus software, including three months of Mylio Photos+ and Acronis True Image, for enhanced data management and backup solutions.
- **Safe Ejection:** Always safely eject the SSD from your device before disconnecting it to prevent data corruption.

6. TROUBLESHOOTING

- **Drive Not Recognized:**
 - Ensure the USB-C cable is securely connected to both the SSD and your device.
 - Try connecting the SSD to a different USB-C port on your device.
 - Test with a different compatible USB-C cable if available.

- Verify that your device's operating system is up to date.

- **Slow Transfer Speeds:**

- Ensure your device's USB-C port supports USB 3.2 Gen 2x2 for optimal performance. Older USB standards will result in lower speeds.
- Avoid using USB hubs, as they can sometimes reduce transfer speeds. Connect directly to the device's port.
- Close any unnecessary applications running in the background that might be consuming system resources.

- **Data Corruption:**

- Always safely eject the SSD before disconnecting it.
- Ensure the SSD is not exposed to extreme physical shock or prolonged submersion in water beyond its IP65 rating.
