### 4.2 Wiring Connections

Follow the wiring diagram provided in the full installation guide to connect the fan's electrical wires to your household wiring. This fan uses a power rectifier box for DC conversion, which must be properly seated within the base.

### 4.3 Attaching Blades and Light Kit

Securely attach the five fan blades to the motor housing. The blades are reversible, offering a black finish on one side and a wood-grain finish on the other. Install the integrated LED light kit according to the instructions.
