## OPERATION

### Blending Ingredients Order

For optimal blending results and to ensure a smooth consistency, add ingredients to your Easy-Fill Blending Vessel in the following order:

1. **Liquids:** Approximately 1/3 of your ingredients should be liquid for a smooth blend.
2. **Powders/Nut Butters:** Add these after liquids to prevent them from sticking to the bottom.
3. **Leafy Greens:** If using leafy greens, add them after powders.
4. **Produce:** Fresh or frozen. Ensure produce is cut into smaller pieces to ensure a smooth blend.
5. **Ice Cubes:** Add ice as necessary. Use sparingly if using frozen produce to avoid overfilling.

## Blending Modes

- **Power On:** After securing the Motor Base to the Blending Vessel, press and hold the Power Switch for 2 seconds to turn ON. The indicator light will turn white when ready.
- **Pulse:** Press the Power Switch for less than 1 second to pulse.
- **Continuous Blend:** Press and hold the Power Switch for more than 1 second to initiate a 30-second blending cycle. The blender will automatically shut off after 30 seconds.
- **Turn Off:** The machine will turn OFF after 90 seconds of inactivity. To turn OFF manually, press the Power Switch once.

## Strong Blades, Safe Storage

### LIDS AND ACCESSORIES

The BEAST GO is designed with versatility in mind, offering multiple lid options for different uses:

- **Storage Lid:** Use this lid to seal your blending vessel for storage in the refrigerator or when transporting.
- **Drinking Lid & Straw System:** The innovative Straw Cap System allows you to blend, sip, and go directly from the same Blending Vessel, eliminating the need to transfer drinks.
- **Carry Cap:** Provides a convenient handle for easy portability.

## Spill-Proof Lids

Pack your GO with peace of mind

## CLEANING AND MAINTENANCE

---

Proper cleaning ensures the longevity and hygiene of your BEAST GO blender:

- **Vessels, Lids, Caps, and Straws:** All these components are top-rack dishwasher safe.
- **Motor Base + Blade:** Do not wash the Motor Base in the dishwasher. To clean, cover the charging port and rinse under running water. Use the provided Blade Cleaning Brush to thoroughly clean the blade with soap and water. **Do not submerge the Motor Base in water.**

## TROUBLESHOOTING

---

<b>Problem</b>	<b>Possible Cause</b>	<b>Solution</b>
Blender does not turn on.	Low battery, vessel not properly attached, or travel lock engaged.	Charge the battery. Ensure the blending vessel is securely twisted onto the motor base. Press and hold the power button for 2 seconds to disengage the travel lock.
Ingredients are not blending smoothly.	Too many ingredients, insufficient liquid, or large pieces of produce/ice.	Reduce ingredient quantity. Add more liquid. Cut produce into smaller pieces. Use pulse function to break down larger items before continuous blending.
Blender stops during operation.	Overheating or low battery.	Allow the blender to cool down. Recharge the battery. Ensure ingredients are not packed too tightly.

## SPECIFICATIONS

- **Brand:** BEAST
- **Model:** GO
- **Color:** Sand
- **Special Feature:** Portable
- **Capacity:** 670 Milliliters
- **Product Dimensions:** 3.4"D x 3.4"W x 9.8"H
- **Item Weight:** 2 Pounds
- **Power Source:** AC/DC (Rechargeable USB-C Battery)
- **Wattage:** 22.5 watts
- **Voltage:** 11.1 Volts
- **Number of Speeds:** 2 (Blend, Pulse)
- **Controls Type:** Push Button
- **Material:** Plastic (BPA/BPS-free Tritan Blending Vessels), Stainless Steel (Blades)
- **Dishwasher Safe:** Vessels, Lids, Caps, Straws (top-rack only). Motor Base is NOT dishwasher safe.
