ZAPUVO H77

ZAPUVO H77 Wireless Bluetooth Cell Phone Stand Speaker User Manual

Your comprehensive guide to setup, operation, and maintenance.

1. PRODUCT OVERVIEW

The ZAPUVO H77 is an innovative 2-in-1 device that combines a versatile cell phone stand with a powerful Bluetooth speaker. It is designed to enhance your media consumption experience by providing stable phone support and high-quality audio, suitable for both indoor and outdoor environments. Its compact and portable design ensures convenience and ease of use.

This image shows the ZAPUVO Wireless Bluetooth Cell Phone Stand Speaker in black, with a smartphone securely mounted on its adjustable stand. The speaker base features a blue LED light ring and control buttons. A wrist strap is attached to the side of the speaker. The phone screen displays a happy couple, and purple musical notes float above the speaker, symbolizing its audio capabilities.

2. PACKAGE CONTENTS

Please check the package for the following items:

- ZAPUVO H77 Wireless Bluetooth Cell Phone Stand Speaker

- USB Charging Cable
- User Manual

3. SETUP

3.1 Charging the Device

1. Connect the provided USB charging cable to the charging port on the speaker.
2. Connect the other end of the USB cable to a compatible USB power adapter (e.g., 5V/1A) or a computer's USB port.
3. The LED indicator will illuminate during charging and turn off or change color when fully charged.
4. Allow approximately 2-3 hours for a full charge before first use.

3.2 Assembling the Phone Stand

1. Unfold the phone stand arm from the speaker base.
2. Adjust the angle and height of the stand to your desired viewing position. The stand is designed for adjustable height and angle viewing.
3. Place your smartphone securely onto the silicone-padded holder. The anti-skid silicone ensures maximum protection against scratches and sliding.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

- To power on, press and hold the Power button (usually marked with a power symbol) for 2-3 seconds until you hear an audible prompt or see the LED indicator light up.
- To power off, press and hold the Power button again for 2-3 seconds until the device shuts down.

4.2 Bluetooth Pairing

1. Ensure the speaker is powered on and in pairing mode (LED indicator will typically flash rapidly).
2. On your smartphone or Bluetooth-enabled device, go to the Bluetooth settings.
3. Search for available devices and select "ZAPUVO H77" (or similar name) from the list.
4. Once connected, the LED indicator will stop flashing and remain solid, and you will hear a confirmation sound.
5. The speaker will automatically reconnect to the last paired device when powered on, if within range.

4.3 Audio Playback

- After successful Bluetooth pairing, you can play audio from your connected device.
- Use the volume buttons on the speaker (usually marked '+' and '-') to adjust the volume.
- Use the playback control buttons (e.g., Play/Pause, Next Track, Previous Track) on the speaker or your connected device to manage your music.

4.4 Phone Stand Functionality

- The integrated stand allows for hands-free viewing of videos, video calls, or browsing.
- Adjust the stand's angle and height to optimize your viewing experience.
- The anti-skid silicone pads on the stand ensure your device remains stable and protected.

5. Maintenance

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the speaker. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

6. Troubleshooting

Problem	Possible Cause	Solution
Device does not power on.	Low battery.	Charge the device fully.
Cannot pair via Bluetooth.	Speaker not in pairing mode; Device too far; Bluetooth disabled on source device.	Ensure speaker is in pairing mode; Move devices closer; Enable Bluetooth on your device.
No sound or low volume.	Volume too low on speaker or source device; Device not properly connected.	Increase volume on both speaker and source device; Re-pair the device.
Phone stand is unstable.	Phone not centered or stand not fully extended.	Ensure phone is centered on the pads; Fully extend and lock the stand arm.
