ZEALFEEL ZF16-A

ZEALFEEL 11x8ft Golf Enclosure Net with HD Impact Screen & Side Barriers

MODEL: ZF16-A

INTRODUCTION

Thank you for choosing the ZEALFEEL 11x8ft Golf Enclosure Net. This product is designed to provide a realistic and safe environment for golf practice and simulation at home. Please read this manual carefully before assembly and use to ensure proper setup and operation. Keep these instructions for future reference.

SAFETY INFORMATION

- Ensure adequate space around the enclosure for safe swinging and ball impact. Recommended 9ft ceiling clearance for full swing safety.
- Always check all connections and components for stability before each use.
- Use only appropriate golf balls (real or foam) designed for simulator use.
- Keep children and pets away from the enclosure during use.
- Do not hang or climb on the frame.
- If using outdoors, secure the net with ground stakes and sandbags to prevent movement in windy conditions.

PACKAGE CONTENTS

Verify that all components listed below are included in your package:

- 1 x Golf Sim Enclosure (Frame components)
- 1 x HD Blank Sim Screen (118" x 88")
- 2 x Side Barrier Nets
- 4 x Long Sandbags (for overall frame stability)
- 22 x Bungee Cords (for screen attachment)
- 4 x Ground Stakes (for additional anchoring)
- 1 x Instruction Manual

PACKAGE INCLUDES

1 X GOLF SIM ENCLOSURE + 2X SHANK NETS

1 X BLANK SIM SCREEN (118" x 88")

4 X LONG SANDBAGS
FOR OVERALL FRAME STABILITY

22 X BUNGEE CORDS

2 X SANDBAGS FOR SECURING SIDE NETS

4 X GROUND STAKES
FOR ADDITIONAL ANCHORING

SETUP INSTRUCTIONS

Follow these steps to assemble your golf enclosure net. It is recommended to have two people for easier assembly.

1. **Assemble the Base Frame:** Lay out all the numbered steel poles on a clean, flat surface. Connect the poles according to the diagrams provided in the included instruction manual, ensuring the spring-loaded buttons snap securely into place. The foam-padded poles are typically for the top and side sections.
2. **Erect the Frame:** Once the base is assembled, carefully lift the side and top poles to form the full enclosure structure. Ensure all connections are firm.
3. **Attach the Blackout Curtains:** Drape the high-density blackout curtains over the frame. Secure them using the integrated straps and buckles, ensuring they cover the top and sides of the enclosure. The Velcro side should face the front where the impact screen will be.
4. **Install the HD Impact Screen:** Carefully hang the 118" x 88" HD impact screen inside the enclosure. Use the provided bungee cords to attach the screen to the frame grommets. Ensure the screen is taut and evenly

stretched to provide a smooth projection surface.

5. **Attach Side Barrier Nets:** Connect the side barrier nets to the outer frame using the designated hooks or straps. These nets are designed to catch stray shots and enhance safety.
6. **Secure the Enclosure:** If using outdoors, fill the sandbags with sand and place them at the base of the frame for stability. Use the ground stakes to anchor the frame firmly into the ground.

OPERATING INSTRUCTIONS

The ZEALFEEL Golf Enclosure Net is designed for use with golf simulators and projectors (not included). To operate:

1. **Position Your Projector:** Place your golf projector at an appropriate distance and angle to fill the 118" x 88" impact screen. The screen supports a 4:3 aspect ratio.
2. **Connect Your Simulator:** Ensure your golf launch monitor and simulator software are properly set up and connected to the projector.
3. **Prepare Your Hitting Mat:** Place your golf hitting mat (not included) in front of the screen at a comfortable and safe distance.
4. **Begin Play:** Start your golf simulation software and begin practicing your swings. The dual-layer impact screen

is designed to absorb ball impact, reduce noise, and return balls to you via the sloped bottom design.

FULL COVERAGE PROTECTION

DESIGNED WITH SIDE NETS, TOP COVER, AND GROUND SHIELD TO CATCH EVERY SHOT

Image: A golfer inside the enclosure, with arrows demonstrating how the side nets, top cover, and ground shield provide full coverage protection against stray shots.

MAINTENANCE

- **Cleaning:** Wipe down the frame and fabric components with a damp cloth as needed. Avoid harsh chemicals.
- **Screen Care:** The impact screen can be gently cleaned with a soft, damp cloth. Do not scrub vigorously.
- **Storage:** When not in use for extended periods, disassemble the enclosure and store all components in the provided carry bag in a dry, cool place to prolong product life.
- **Inspection:** Regularly inspect the nets, screen, and frame for any signs of wear, tear, or damage. Replace damaged parts immediately.

TROUBLESHOOTING

- **Loose Connections:** If the frame feels unstable, recheck all pole connections to ensure the spring-loaded buttons are fully engaged.
- **Screen Sagging:** Adjust the bungee cords to ensure the impact screen is taut. Evenly distribute tension across

all attachment points.

- **Missing Parts:** If any components are missing or damaged upon arrival, please refer to the Warranty & Support section for assistance.
- **Ball Rebound Issues:** Ensure the bottom net is correctly installed and sloped to facilitate automatic ball return.

SPECIFICATIONS

- **Size:** 11x8ft
- **Material:** Powder-coated Steel Frame, Anti-tear Netting, Noise-Reducing Target Cloth
- **Color:** Black
- **Sport:** Golf
- **Model Number:** ZF16-A
- **GTIN/UPC:** 199284062320
