Ohniyou GLX120

Ohniyou 48" Fandelier Ceiling Fan with Light

MODEL: GLX120

1. Product Overview

The Ohniyou 48-inch Fandelier Ceiling Fan with Light (Model GLX120) combines the functionality of a ceiling fan with integrated LED lighting. Designed for both indoor and covered outdoor spaces, this unit offers versatile control and efficient air circulation.

- **Remote Control:** Manage fan speed, light color, and timer settings conveniently.
- **Indoor/Outdoor Use:** Suitable for covered patios, kitchens, living rooms, and home offices.
- **Reversible DC Motor:** Provides cooling airflow in summer and helps circulate warm air in winter.
- **Adjustable LED Lighting:** Features 3 color temperatures (3000K, 4500K, 6000K) with a memory function.
- **Quiet Operation:** Operates at noise levels below 35 dB for a peaceful environment.

The Ohniyou 48-inch Fandelier Ceiling Fan with Light, featuring a modern black design.

The ceiling fan is suitable for various rooms including bedrooms, living rooms, and home offices.

2. Setup and Installation

Before beginning installation, ensure the power supply to the installation area is turned off at the circuit breaker. Professional installation is recommended.

2.1 Unpacking and Component Check

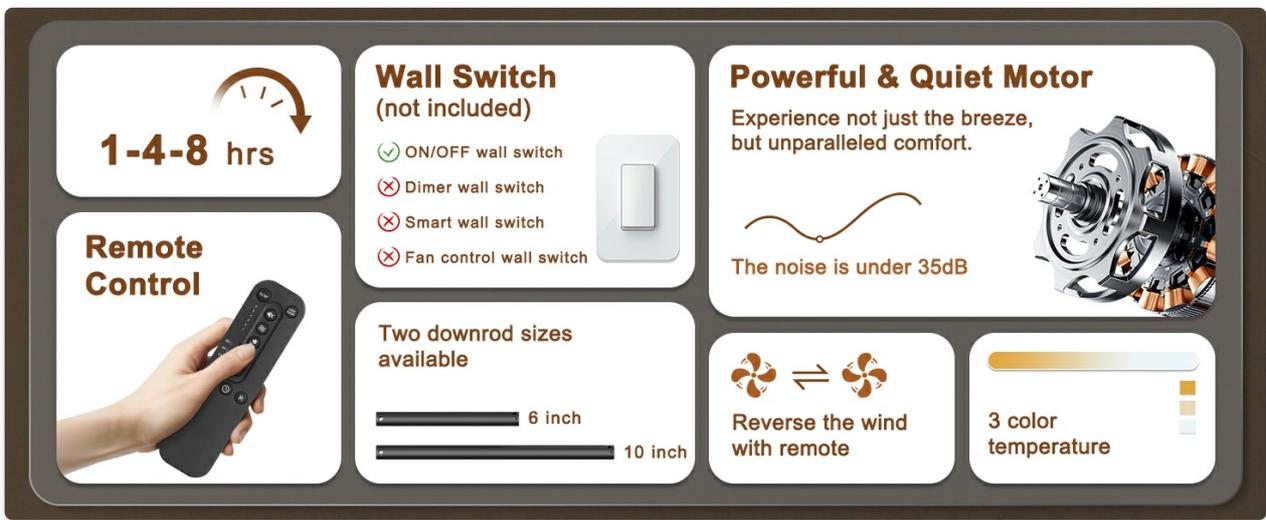

Carefully unpack all components and verify against the parts list. If any parts are missing or damaged, contact customer support immediately.

2.2 Assembly Steps

1. **Install Fan Blades:** Insert the 2-hole end of each fan blade into the motor and secure with screws.
2. **Install Light Assembly:** Remove three screw caps, tighten the screws securely, connect the LED light wire, then install the light cover retaining ring and light cover onto the motor.
3. **Prepare Downrod:** Remove the cross pin and clamp pin from the downrod. Pass the wires through the middle of the downrod.
4. **Attach Downrod to Motor:** Loosen the screws on the motor port, secure the downrod to the motor port, and install both the cross pin and the clamp pin. Tighten the screws on the motor port.
5. **Install Canopy and Coupling Cover:** Thread the canopy and coupling cover through the downrod. Thread the downrod to the ball and tighten the screws.
6. **Mounting Bracket Installation:** Secure the mounting bracket to the ceiling with screws.
7. **Wiring:** Connect the ceiling wires to the receiver wires according to color codes.
8. **Final Assembly:** Put the receiver and wires into the mounting bracket. Hang the downrod onto the mounting bracket. Finally, tighten the screws to secure the canopy.

Visual guide for the installation process, highlighting key steps.

The fan includes two downrod sizes (6-inch and 10-inch) and is compatible with sloped ceilings up to 15 degrees.

2.3 Installation Video Guide

For a detailed visual guide on installation, please refer to the official installation video:

Official installation guide for the Ohniyou 48-inch Ceiling Fan with Light.

3. Operating Instructions

The Ohniyou Fandelier Ceiling Fan is controlled via the included remote control. Ensure batteries are installed in the remote (2x AAA batteries, not included).

3.1 Remote Control Functions

The remote control allows for comprehensive management of fan and light settings.

- **ALL OFF:** Turns off both the fan and the light.
- **LIGHT ON/OFF:** Toggles the light on/off and cycles through color temperatures (3000K, 4500K, 6000K).
- **Fan ON/OFF:** Turns the fan on or off.
- **Speed Control (1-6):** Adjusts fan speed from 1 (lowest) to 6 (highest).
- **Natural Wind Mode:** Activates a random speed change feature to simulate a natural breeze.
- **Timer (1H/4H/8H):** Sets the fan to turn off automatically after 1, 4, or 8 hours.

- **Forward (F) / Reverse (R):** Changes the direction of fan rotation for summer (downward airflow) or winter (upward airflow).
- **Mute Button:** Turns the 'beeping' sound of the remote on/off.

3.2 Fan Speed Settings

The fan offers 6 adjustable wind speeds, from low comfortable wind to high cooling wind.

The fan features 6 speed levels, providing up to 6088 CFM airflow. Levels 1-2 offer a low, comfortable breeze, levels 3-4 provide a medium natural wind, and levels 5-6 deliver high cooling wind.

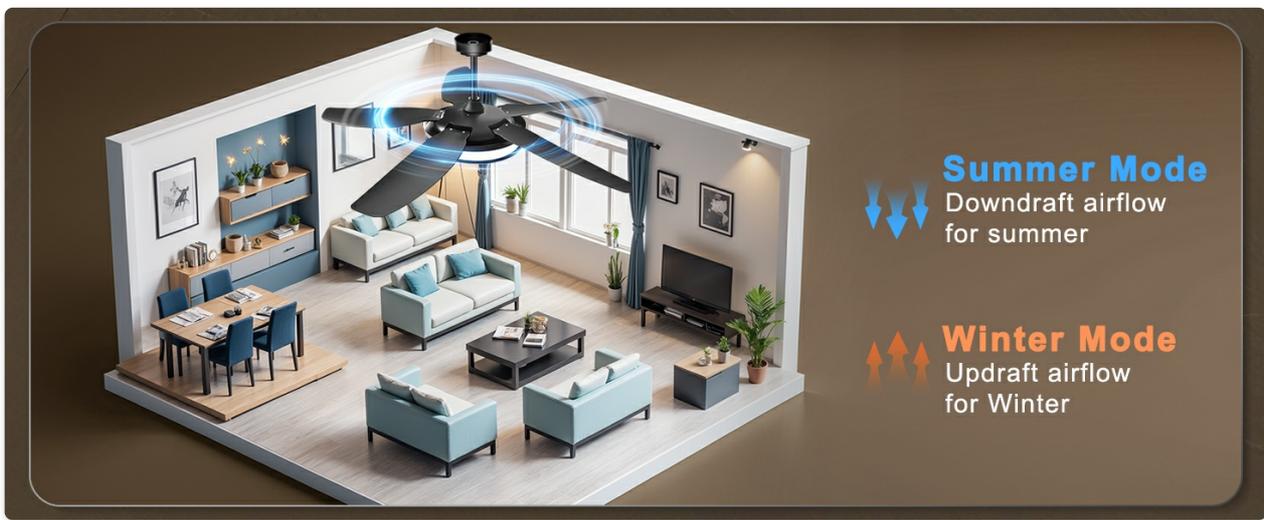

3.3 Lighting Options

The integrated LED light offers three color temperatures: Warm Light (3000K), Natural Light (4500K), and Cool Light (6000K).

The 36W LED light provides 2880 lumens and can be adjusted to three color temperatures: 3000K (Warm Light), 4500K (Natural Light), and 6000K (Cool Light). The light includes a memory function that recalls the last setting even after powering off.

3.4 Reversible Motor Function

The reversible DC motor allows for downward airflow in summer for cooling and upward airflow in winter for heat circulation.

Use the 'F' button on the remote for summer mode (forward rotation, downward airflow for cooling) and the 'R' button for winter mode (reverse rotation, upward airflow to circulate warm air).

4. Maintenance

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and light cover with a soft, damp cloth. Avoid using abrasive cleaners that may damage the finish.
- **Tighten Fasteners:** Check all screws and fasteners on the mounting bracket and fan assembly annually. Ensure they are securely tightened.
- **Blade Balance:** If the fan wobbles, check that all blades are securely attached and balanced. A blade balancing kit (not included) can be used if necessary.
- **Electrical Connections:** Ensure all electrical connections remain secure. If you are unsure, consult a qualified electrician.

5. Troubleshooting

This section addresses common issues you might encounter with your Ohniyou Fandelier Ceiling Fan.

5.1 Remote Control Not Working

- **Check Batteries:** Ensure the remote control has fresh AAA batteries and they are inserted correctly.
- **Re-pair Remote:** If the remote is unresponsive, it may need to be re-paired with the fan.

How to Re-pair the Remote Control:

1. Use the wall switch or another method to cut off power to the fan.
2. Wait for 5 seconds.
3. Reconnect the power.
4. Within three seconds of reconnecting power, long-press the 'pair' button on the remote. You will hear a "beeping beeping" sound, indicating successful pairing.

Video guide on how to re-pair the remote control if it stops working.

5.2 Fan Not Operating / Light Not Turning On

- **Power Supply:** Ensure the main power supply to the fan is on.
- **Wiring:** Check all electrical connections to ensure they are secure and correctly wired. If unsure, consult a qualified electrician.
- **Remote Pairing:** If the remote is not paired, the fan and light may not respond. Follow the re-pairing steps above.

5.3 Excessive Noise or Wobbling

- **Tighten Screws:** Ensure all screws on the motor housing, blade attachments, and mounting bracket are tight.
- **Blade Balance:** Check if fan blades are balanced. Minor wobbling can sometimes be corrected with a blade balancing kit.
- **Mounting:** Verify the mounting bracket is securely fastened to a sturdy ceiling joist or outlet box rated for fan support.
