

## Aigostar AU708A

# Aigostar Ionic Hair Dryer AU708A Instruction Manual

Model: AU708A

## 1. INTRODUCTION

Thank you for choosing the Aigostar Ionic Hair Dryer. This manual provides essential information for the safe and effective use of your new hair dryer. Please read it thoroughly before first use and keep it for future reference.

## 2. SAFETY INFORMATION

For your safety, please observe the following precautions:

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- The hair dryer automatically shuts off if the thermostat temperature is too high to prevent hair damage.
- Always unplug the appliance after use.

## 3. PRODUCT OVERVIEW

The Aigostar Ionic Hair Dryer is designed for efficient and gentle hair drying with advanced features.

Image 3.1: Aigostar Ionic Hair Dryer with its included concentrator and diffuser attachments.

## Components Included:

- 1 x Aigostar Ionic Hair Dryer
- 1 x Magnetic Diffuser Nozzle
- 1 x Magnetic Concentrator Nozzle
- 1 x Instruction Manual

## 4. SETUP AND ASSEMBLY

### 4.1 Unboxing and Initial Inspection

Carefully remove all components from the packaging. Inspect the hair dryer and accessories for any signs of damage. If any damage is found, do not use the product and contact customer support.

Video 4.1: An overview of the Aigostar Ionic Hair Dryer and its accessories, demonstrating the unboxing and attachment process.

## 4.2 Attaching Nozzles

The hair dryer comes with two magnetic nozzles: a concentrator and a diffuser. These attach easily to the front of the dryer.

- **Concentrator Nozzle:** For precise styling and smoothing hair. Align the concentrator with the magnetic opening on the dryer and it will snap into place.
- **Diffuser Nozzle:** For enhancing natural curls and waves. Align the diffuser with the magnetic opening on the dryer and it will snap into place.

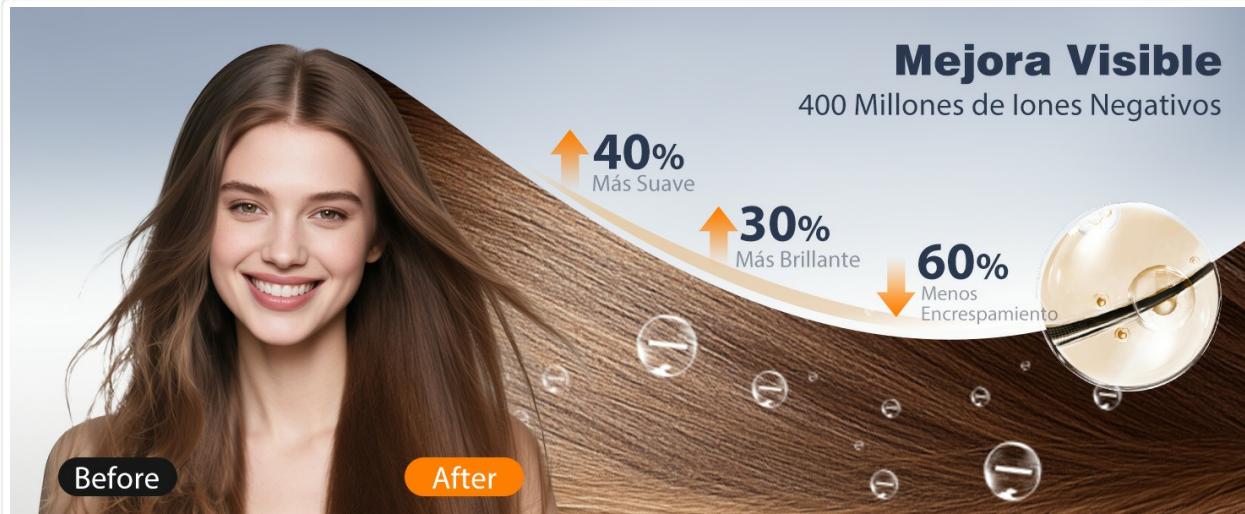

Image 4.2: Illustration of the magnetic nozzles easily attaching to the hair dryer.

## 4.3 Power Connection

Plug the power cord into a suitable electrical outlet (220V-240V, 50Hz-60Hz). Ensure the power cord is not twisted or tangled.

# 5. OPERATING INSTRUCTIONS

The Aigostar Ionic Hair Dryer features intuitive controls for speed and temperature, along with advanced ionic technology.

## 5.1 Power On/Off and Speed Settings

The hair dryer has two speed settings:

- Use the speed control button to toggle between low and high speed.
- Press the power button to turn the dryer on or off.

Image 5.1: The hair dryer's handle showing the speed and temperature control buttons and the LED display.

## 5.2 Temperature Settings and LED Display

The hair dryer offers four temperature modes, indicated by a multi-color LED ring and a digital display:

- **Cool Air (Green LED):** For setting your style with a cool blast.
- **Warm Air (Blue LED, 55°C):** For gentle drying and everyday use.
- **Hot Air (Red LED, 95°C):** For fast drying and styling.
- **Cool/Hot Cycle (Orange LED):** Alternates between cool and hot air for optimal styling and hair health.

The clear LED screen displays the current temperature setting, ensuring precise control. The 'previous setting' function saves your preferences for quicker styling.

## 5.3 Ionic Technology

This hair dryer releases 400 million negative ions during drying. This technology helps to:

- Increase hair smoothness.
- Enhance hair shine.
- Reduce frizz.
- Seal in moisture for healthier hair.

Image 5.3: Visual explanation of how negative ions contribute to smoother, shinier hair with less frizz.

## 5.4 Using the Concentrator Nozzle

Attach the concentrator nozzle for targeted airflow. This is ideal for:

- Straightening hair with a brush.
- Creating smooth, sleek styles.
- Drying specific sections of hair quickly.

## 5.5 Using the Diffuser Nozzle

Attach the diffuser nozzle for gentle, even airflow. This is recommended for:

- Enhancing natural curls and waves.
- Adding volume to hair.
- Minimizing frizz on curly hair.

## 6. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your hair dryer.

### 6.1 Cleaning the Magnetic Filter

The hair dryer features a detachable magnetic filter for easy cleaning. Regularly clean the filter to prevent dust and hair buildup, which can affect performance and lifespan.

1. Ensure the hair dryer is unplugged and cool.
2. Gently twist and pull the magnetic filter cover at the bottom of the handle to remove it.
3. Clean any accumulated dust or hair from the filter using a soft brush or cloth.
4. Reattach the filter cover by aligning it and pushing it back into place until it clicks securely.

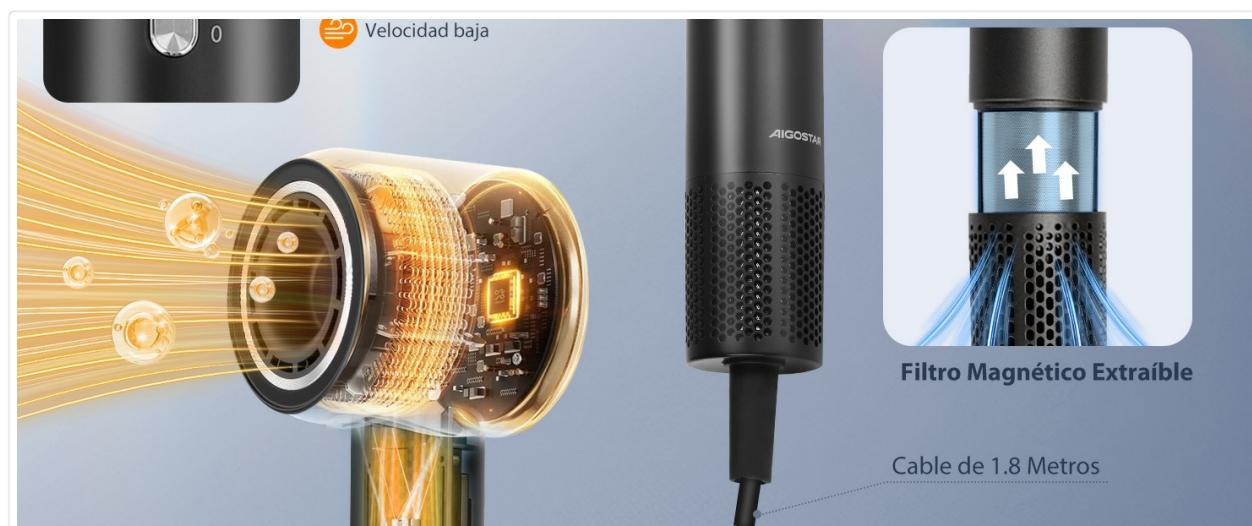

Image 6.1: Illustration of the removable magnetic filter for easy cleaning.

### 6.2 General Cleaning

- Wipe the exterior of the hair dryer with a soft, damp cloth.
- Do not use abrasive cleaners or solvents.
- Ensure the appliance is completely dry before storing or using again.

## 7. TROUBLESHOOTING

If you encounter any issues with your Aigostar Ionic Hair Dryer, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Hair dryer does not turn on.	No power supply; power cord not properly plugged in; internal fault.	Check power outlet; ensure cord is securely plugged in. If problem persists, contact customer support.
Airflow is weak or inconsistent.	Blocked air inlet filter; motor issue.	Clean the magnetic air inlet filter (refer to Section 6.1).
Hair dryer overheats and shuts off.	Blocked air inlet/outlet; prolonged use at high temperature.	Unplug and allow to cool down. Clean air inlet filter. Ensure proper ventilation during use.

Problem	Possible Cause	Solution
Unusual noise during operation.	Foreign object in air inlet; motor issue.	Unplug and check air inlet for obstructions. If problem persists, contact customer support.

## 8. SPECIFICATIONS

Detailed technical specifications for the Aigostar Ionic Hair Dryer AU708A:

Feature	Specification
Brand	Aigostar
Model Number	AU708A
Color	Black
Power	1600 Watts
Voltage	240 Volts
Motor Speed	110,000 RPM
Air Speed	21 m/s
Noise Level	57 dB
Negative Ions	400 Million
Number of Speeds	2
Number of Temperature Settings	4 (Cool, Warm, Hot, Cool/Hot Cycle)
Maximum Temperature	95 Degrees Celsius
Cord Length	1.8 meters
Product Weight	390g (dryer only) / 1.37 kg (packaged)
Dimensions (packaged)	34.4 x 23.5 x 9.4 cm
Special Features	HD Display, Fast Drying, Anti-Frizz Ions, Detachable Magnetic Diffuser & Nozzle, Low Noise, Lightweight

## 9. WARRANTY AND SUPPORT
