VOOPEAK TC35

VOOPEAK Cellular Trail Camera User Manual

Model: TC35
Brand: VOOPEAK

Introduction

This manual provides comprehensive instructions for setting up, operating, and maintaining your VOOPEAK TC35 Cellular Trail Camera. Designed for wildlife monitoring, this camera features 4G LTE connectivity, live streaming capabilities, color night vision, and a solar power system.

What's in the Box

- VOOPEAK TC35 Cellular Trail Camera
- Solar Panel (3W)
- Mounting Strap
- USB-C Charging Cable
- Mounting Bracket and Screws
- SIM Card (pre-installed)
- Instruction Manual (this document)

Setup Guide

1. Install Antenna, SIM Card, and Micro SD Card

The camera comes with a pre-installed SIM card. Insert a micro SD card (up to 128GB, not included) into the designated slot. Attach the antenna securely.

Video: Step-by-step guide demonstrating the installation of the antenna, SIM card, and micro SD card.

2. Power On and Reset

Turn the camera ON. Wait for the indicator light to turn steady blue. Use a small pin to press the reset button until you hear "System reset".

3. Connect to Smartphone App

Download the official VOOPEAK app to your smartphone. Scan the QR code located on the camera to connect the device to your phone.

4. Mounting the Camera

Use the provided strap to secure the camera to a tree or pole. The solar panel can be mounted separately using the bracket and screws to optimize sun exposure.

Operating Instructions

Live Streaming and Remote Access

Access HD live streaming and control the camera remotely via the free smartphone app. This feature allows real-time monitoring from any location with cellular coverage.

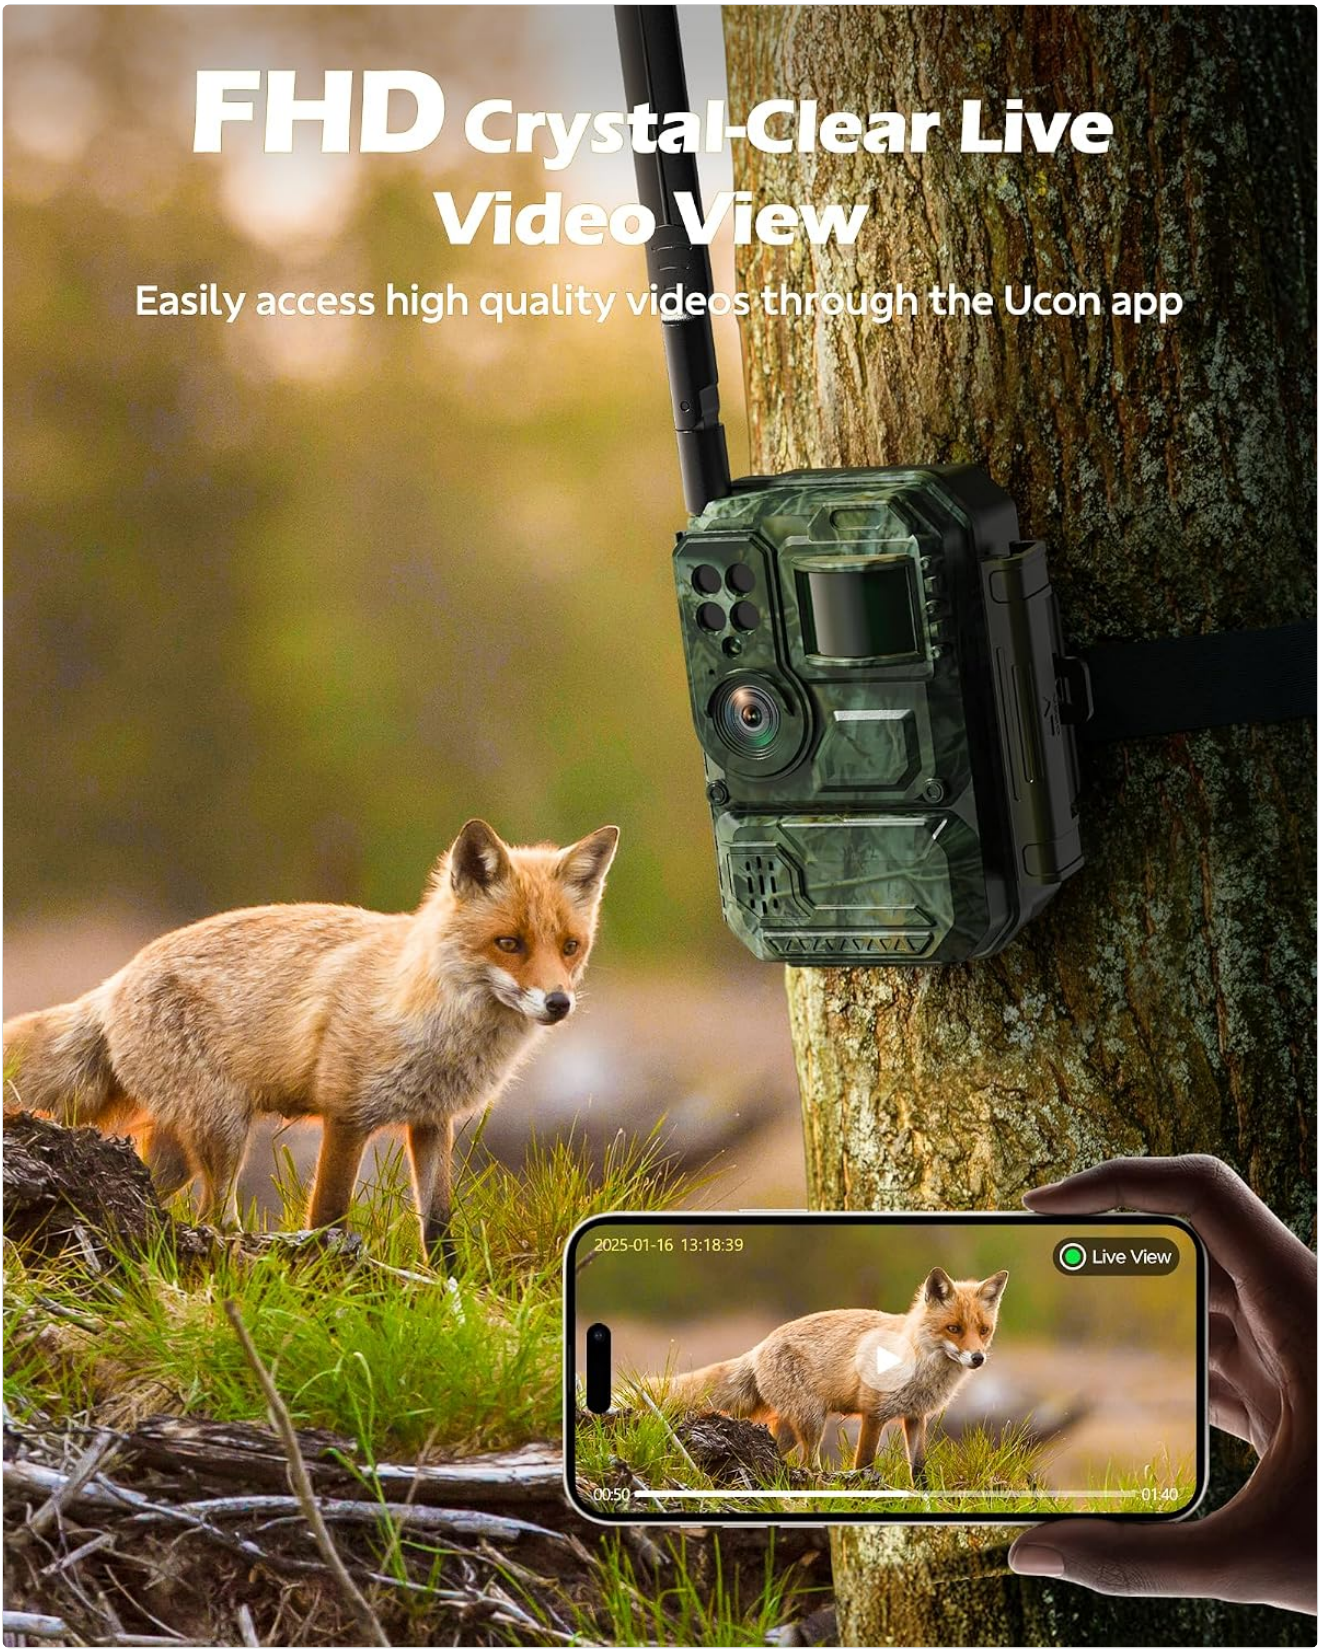

Image: Smartphone displaying a live video feed from the VOOPEAK TC35 camera.

Motion Detection and Alerts

The camera features an ultra-sensitive motion detection system. Instant real-time alerts are pushed to your mobile phone upon detecting activity. Sensitivity can be adjusted via the app.

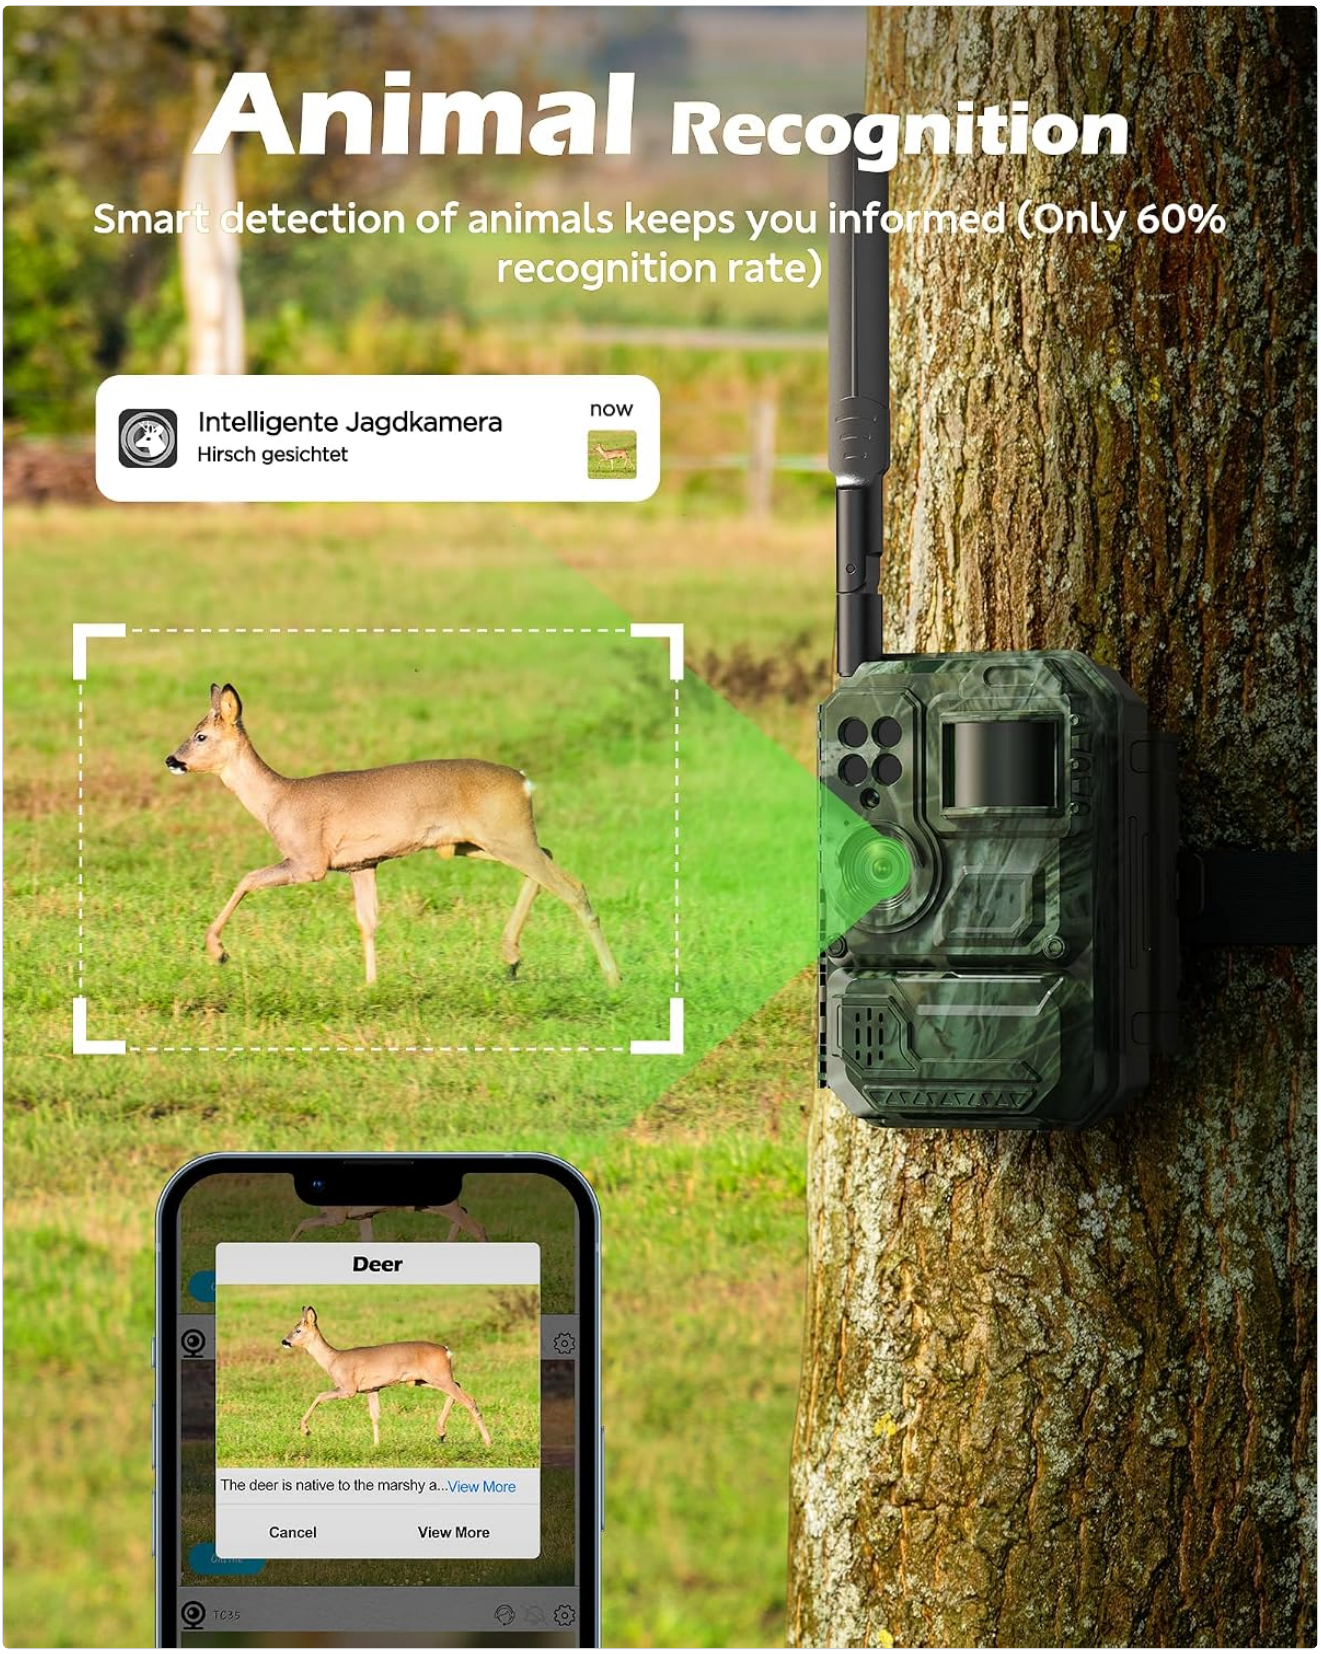

Image: Comparison of 0.1s fast trigger time versus slower trigger times for motion detection.

Two-Way Audio

Utilize the two-way intercom function through the mobile app to communicate with the area around the camera. This allows for remote interaction, such as deterring wildlife.

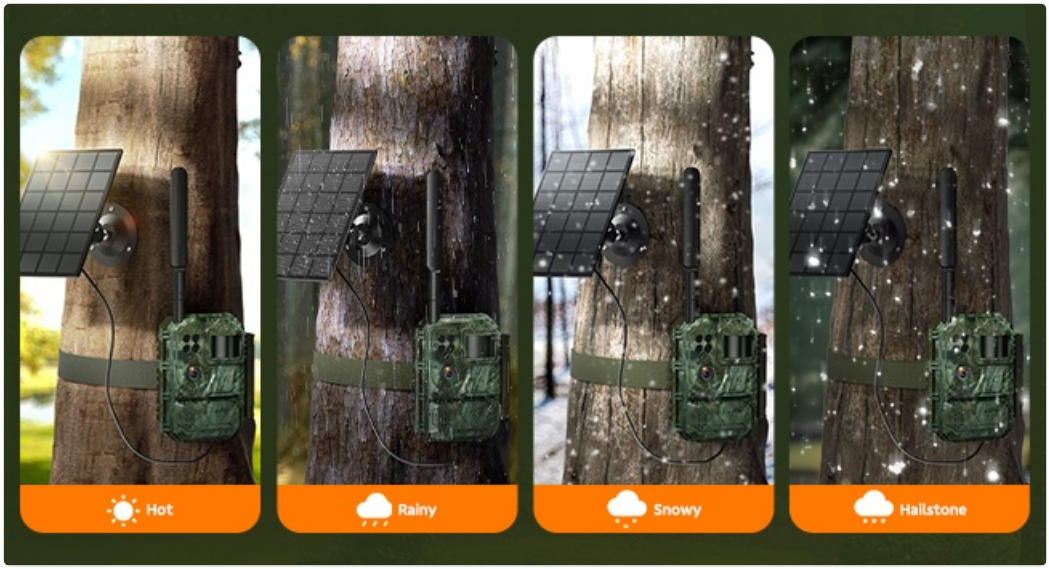

Image: A person using the two-way audio feature of the TC35 camera to communicate remotely.

Color Night Vision

The camera offers color night vision when ambient brightness is above 0.5 lux, providing lifelike color images in low-light conditions. In complete darkness, it switches to infrared night vision.

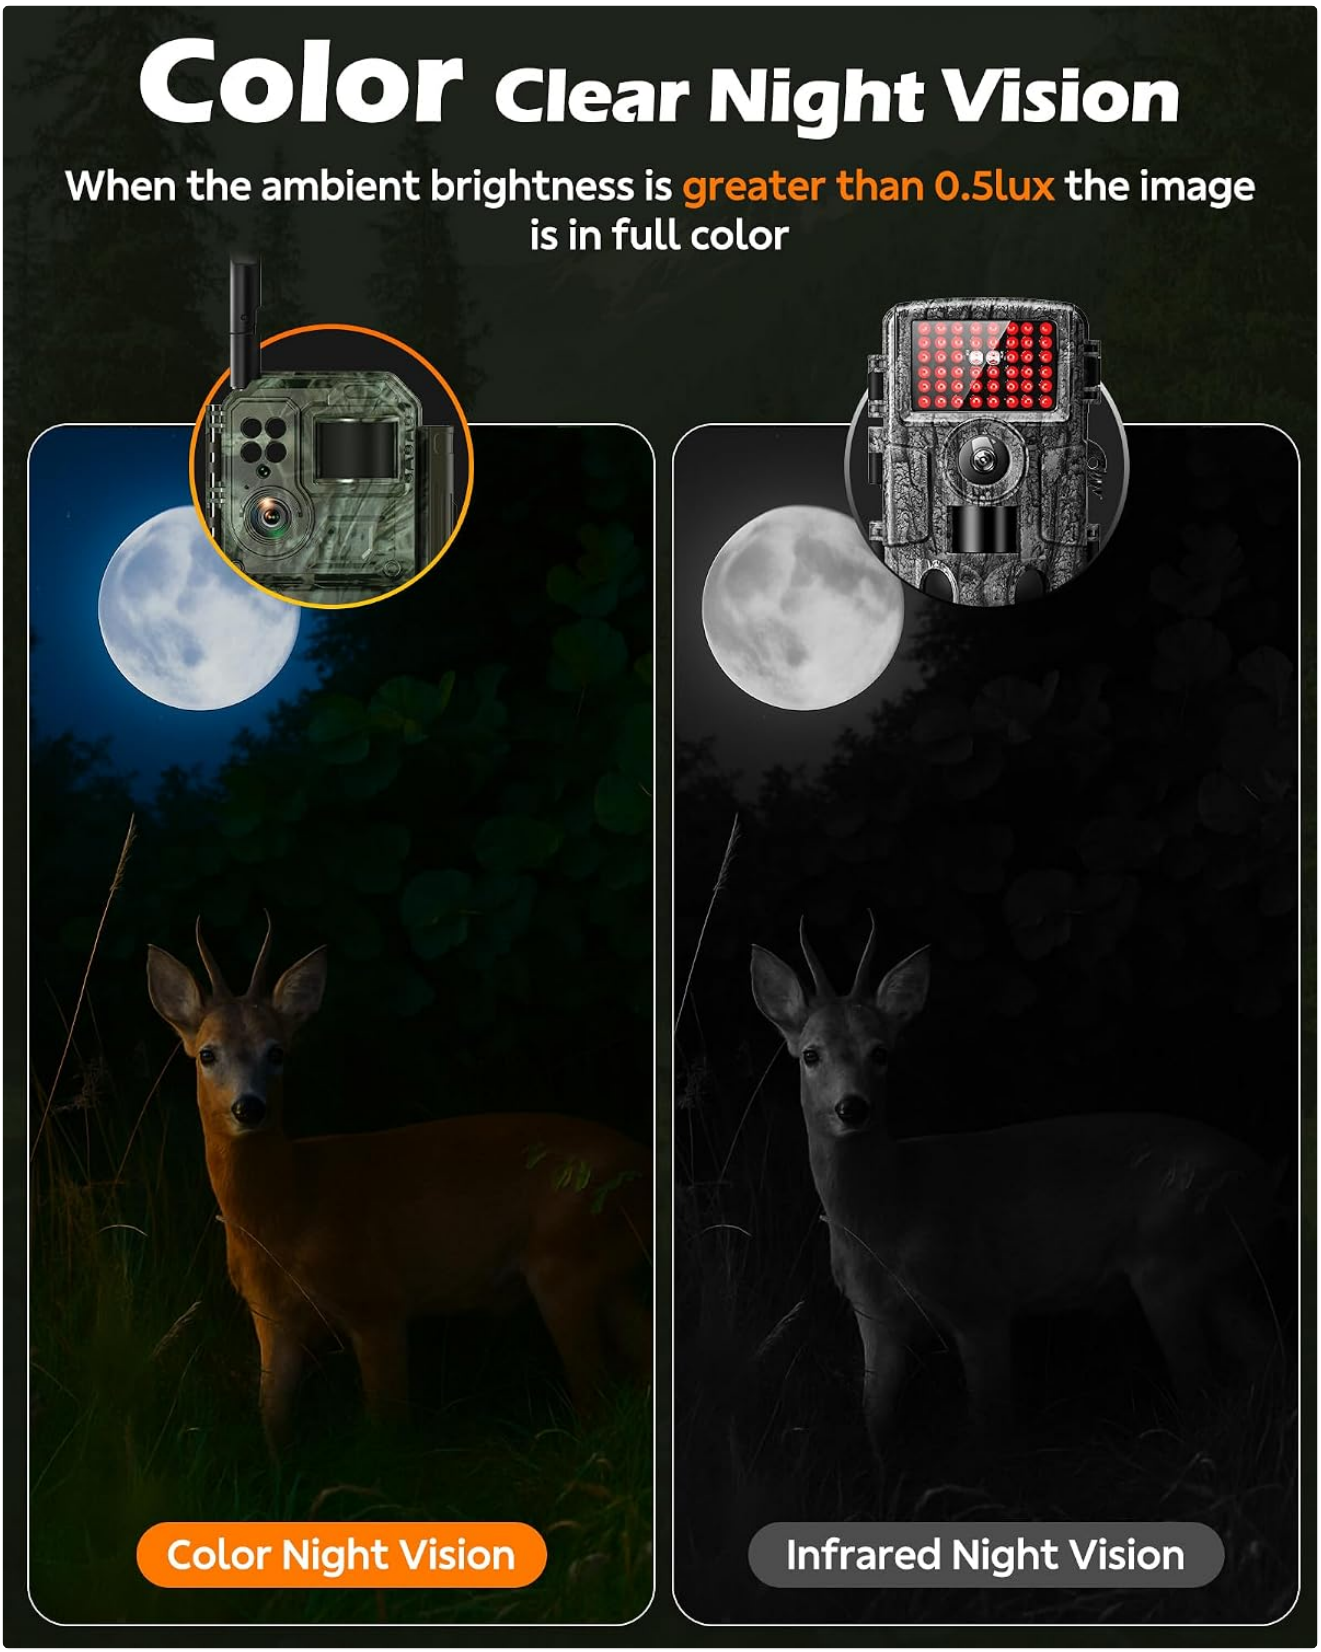

Image: Comparison of color night vision and infrared night vision capabilities.

Maintenance

Power Management

The camera is equipped with a 7800mAh rechargeable built-in battery, supplemented by a 3W solar panel for

continuous power. Ensure the solar panel is positioned to receive adequate sunlight for optimal charging.

Storage

Video and image data can be stored on a micro SD card (up to 128GB) or uploaded to a cloud service. Cloud backup provides data security even if the camera is damaged or stolen.

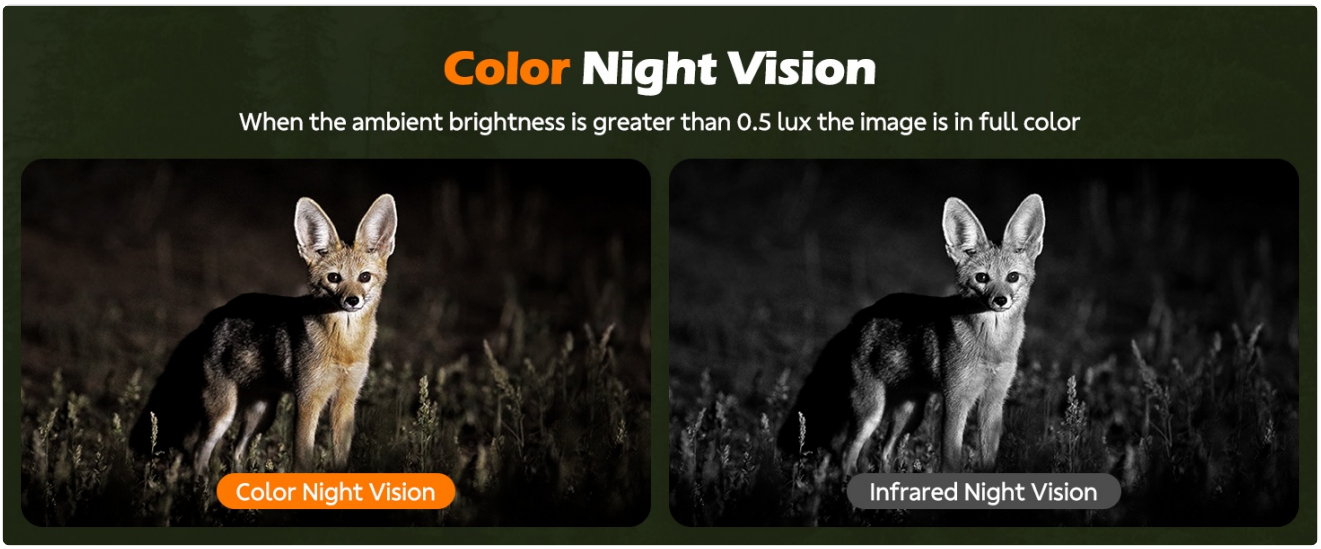

Image: Diagram illustrating local micro SD card storage and cloud storage options.

Weather Resistance

The camera has an IP66 waterproof rating, designed to withstand various weather conditions including rain, extreme heat, and cold.

Troubleshooting

Offline Device / Poor Signal

If the device is offline or has a weak signal, adjust the installation position to improve cellular reception. If the issue persists, contact customer service.

Video: Demonstrates the app connection process, which can be helpful for diagnosing signal issues.

Data Plan Expired

If your 4G cellular data plan has run out or expired, you will need to purchase a new data plan and activate your device. You can manually restart the device or wait for 1 hour for it to automatically restart.

Specifications

Feature	Detail
Indoor/Outdoor Usage	Outdoor
Compatible Devices	Smartphone
Power Source	Battery Powered
Connectivity Protocol	Cellular
Controller Type	APP Control
Mounting Type	Tree Mount
Video Capture Resolution	1080p
Color	green
