JanFir Wireless CarPlay Adapter User Manual

Model: af0d59cd-30fa-448b-8419-4a65d1f89896

1. PRODUCT OVERVIEW

The JanFir Wireless CarPlay Adapter is an advanced in-car entertainment and connectivity solution designed to seamlessly integrate your smartphone with your vehicle's display. This device transforms your wired CarPlay or Android Auto system into a wireless experience, offering high-speed data transmission and access to popular streaming services like Netflix and YouTube directly on your car's screen. It supports both Apple CarPlay (iOS 10+) and Android Auto (Android 11+), providing a versatile upgrade for compatible vehicles.

2. KEY FEATURES

- **High-Speed Wireless Connectivity:** Equipped with a 5.8GHz dual-band WiFi chip and Bluetooth 5.3 for ultra-fast, stable, and lag-free data transmission, ensuring a truly wireless experience for CarPlay and Android Auto.
- **Integrated Entertainment System:** Pre-installed with Netflix and YouTube for direct streaming via hotspot. Supports TF card expansion for local video playback, allowing offline entertainment during long drives.
- **Wide Compatibility:** Compatible with most vehicles featuring factory-installed wired CarPlay or Android Auto (not

compatible with BMW or Tesla). Supports iPhone 6 and newer (iOS 10+) and Android devices running Android 11 or above.

- **Robust Performance:** Features an intelligent IC chip and an efficient heat dissipation system, ensuring stable operation in temperatures ranging from -20°C to 70°C without lag or crashes.
- **Easy Installation & Updates:** Plug-and-play setup requires no vehicle disassembly or system flashing. Supports OTA (Over-The-Air) online updates for continuous compatibility and performance improvements.

3. SETUP INSTRUCTIONS

1. **Verify Car Compatibility:** Ensure your vehicle has factory-installed wired CarPlay or Android Auto. This adapter is not

compatible with BMW or Tesla vehicles.

2. **Connect the Adapter:** Plug the JanFir Wireless CarPlay Adapter into your car's USB port that supports wired CarPlay/Android Auto. Use the provided USB cable.
3. **Power On and Initialize:** The adapter will power on automatically. Wait for the device to boot up and display its interface on your car's screen. This typically takes a few seconds.
4. **Enable Bluetooth on Your Phone:** On your iPhone (iOS 10+) or Android device (Android 11+), go to your phone's Bluetooth settings and turn Bluetooth on.
5. **Pair with the Adapter:** Search for the adapter's Bluetooth name (e.g., "SmartBox-XXXX") in your phone's Bluetooth device list and select it to pair. Confirm any pairing requests on both your phone and the car screen.
6. **Initiate CarPlay/Android Auto:** Once paired, the adapter will prompt you to use CarPlay or Android Auto. Confirm the connection. Your phone's interface should now appear wirelessly on your car's display.
7. **Automatic Reconnection:** After the first successful pairing, the adapter will automatically recognize and connect to your phone each time you start your vehicle, providing a seamless experience.

Work with Original Car Control

Totally enjoy all the original operation without cable

4. OPERATING INSTRUCTIONS

4.1 Using Wireless CarPlay / Android Auto

Once connected, your car's display will mirror your phone's CarPlay or Android Auto interface. You can navigate through

apps, make calls, send messages, and use navigation services directly from your car's touchscreen, OEM knob controls, voice assistant (Siri/Google Assistant), or steering wheel controls.

Image: Depicts the various ways to control the system, including touch screen interaction, using the car's original equipment manufacturer (OEM) knob, voice commands, and steering wheel buttons.

4.2 Streaming Netflix and YouTube

The adapter comes with pre-installed Netflix and YouTube applications. To use these:

1. **Connect to a Hotspot:** Ensure your adapter is connected to a mobile hotspot (from your phone or another device) to access the internet for streaming.
2. **Launch Apps:** From the adapter's main interface on your car screen, select the Netflix or YouTube icon to launch the application.
3. **Log In and Stream:** Log in with your respective account credentials and begin streaming content.

The Best Choice

Differences	Ours	Others
Supports YouTube / Netflix	✓	✗
Supports SD expansion	✓	✗
Whether it supports Android Auto	✓	✗
Efficient real - time transmission	✓	✗
Ultra - long - time stable connection	✓	✗
Low power consumption (no damage to the car)	✓	✗
Intelligent chip	✓	✗
Optimal working temperature -20 — 70° C	✓	✗
Elegant gray color enhances the interior grade	✓	✗

4.3 TF Card Offline Playback

For offline entertainment, the adapter supports TF card expansion:

- Insert a TF card (not included) containing your desired video or audio files into the designated slot on the adapter.
- Access the media player application on the adapter's interface to browse and play content directly from the TF card.

5. MAINTENANCE

The JanFir Wireless CarPlay Adapter is designed for robust and stable operation. It features an intelligent IC chip and an advanced heat dissipation system to maintain optimal performance across a wide temperature range (-20°C to 70°C). No specific user maintenance is required beyond ensuring the device is kept clean and free from obstructions around its ventilation areas. Avoid exposing the device to extreme moisture or physical impact.

6. TROUBLESHOOTING

- **Connection Issues:** If the adapter fails to connect, ensure your car supports wired CarPlay/Android Auto. Restart your phone and the car's infotainment system. Re-pair the Bluetooth connection.
- **Lag or Performance Problems:** Ensure the adapter is not overheating. Check for any obstructions around the device. If issues persist, try updating the adapter's firmware via OTA updates.
- **No Sound:** Verify that your car's audio input is set correctly to CarPlay/Android Auto. Check volume levels on both your phone and car.
- **Netflix/YouTube Not Working:** Confirm the adapter is connected to a stable internet hotspot. Check your subscription status for streaming services.
- **OTA Update Issues:** Ensure a stable internet connection during updates. Do not disconnect power during the update process.

For persistent issues or advanced troubleshooting, please refer to the support section or contact JanFir customer service.
