Jugeman P99

Jugeman Smart Watch P99 User Manual

Model: P99 | Brand: Jugeman

1. PRODUCT OVERVIEW

The Jugeman Smart Watch P99 is a versatile fitness activity tracker designed for daily use, featuring a 1.96-inch HD display. It offers comprehensive health monitoring, Bluetooth calling capabilities, and message notifications, all within an IP68 waterproof design.

Image 1.1: Jugeman Smart Watch P99 with its display showing various functions including time, date, weather, activity tracking, and call features. The watch features a black rectangular face and a black silicone strap.

2. WHAT'S IN THE BOX

Upon unboxing your Jugeman Smart Watch P99, please verify that all the following items are present:

- Jugeman Smart Watch P99 (with strap)
- Charging Cable
- User Manual (this document)

3. SETUP GUIDE

3.1. Charging the Smart Watch

Before initial use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a compatible power adapter (5V/1A recommended) or a computer's USB port.

- A full charge typically takes approximately 2 hours.
- The battery icon on the watch display will indicate charging status.

3.2. App Installation and Pairing

To unlock the full functionality of your smartwatch, download and install the companion application on your smartphone. The app name is typically found in the quick start guide or on the watch's packaging. Search for it on the App Store (iOS) or Google Play Store (Android).

1. Download and install the designated app on your smartphone.
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the app and follow the on-screen instructions to create an account or log in.
4. In the app, navigate to "Device" or "Add Device" and select your Jugeman Smart Watch P99 from the list of available devices.
5. Confirm the pairing request on both your smartphone and the smartwatch.
6. Once paired, the watch will synchronize time and data with your phone.

Note: For Bluetooth calling features, you may need to pair the watch separately as an audio device in your phone's Bluetooth settings after the initial app pairing.

3.3. Initial Configuration

After successful pairing, configure your personal information within the app (e.g., height, weight, age, gender) to ensure accurate health and fitness tracking data.

4. OPERATING THE SMARTWATCH

4.1. Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and functions. Tap to select.
- **Side Button:** Typically used to wake the screen, return to the home screen, or access the app list. Refer to the watch's on-screen prompts for specific button functions.

4.2. Bluetooth Call Functions

Once connected via Bluetooth, your smartwatch allows you to manage calls directly from your wrist.

- **Answering Calls:** When an incoming call is received, tap the green phone icon on the watch screen to answer.
- **Making Calls:** Access the "Dialpad" or "Contacts" function on the watch to dial a number or select a contact.
- **Call History:** View recent calls directly on the watch.

Image 4.2: The smartwatch display illustrating the call management interface, including options to access contacts, review call history, use a dialpad, and respond to incoming calls.

4.3. Message Notifications

Receive notifications for calls, SMS, and social media messages (e.g., Facebook, WhatsApp, Instagram, Twitter) directly on your watch. Ensure notification permissions are enabled in both your phone's settings and the companion app.

- The watch will vibrate to alert you of new messages.
- Swipe down from the top of the watch face to view your notification history.

4.4. Health Monitoring

The Jugeman Smart Watch P99 is equipped with advanced sensors for continuous health tracking.

- **Heart Rate Monitoring:** The watch monitors your heart rate throughout the day. View real-time data on the watch or detailed historical data in the app.
- **Sleep Tracking:** Automatically tracks your sleep patterns, including light sleep, deep sleep, and awake times. Access sleep analysis in the app to help improve sleep quality.
- **Pedometer:** Counts your daily steps, distance traveled, and calories burned. This data is displayed on the watch face and synchronized with the app.

4.5. Fitness Tracking

Utilize the watch's various sports modes to track specific activities. The watch records data such as duration, calories burned, and heart rate during workouts.

- Select the desired sport mode from the watch's menu before starting your activity.
- Review workout summaries on the watch or detailed reports in the companion app.

5. MAINTENANCE

5.1. Cleaning Your Smart Watch

Regular cleaning helps maintain the watch's appearance and functionality.

- Wipe the watch screen and body with a soft, lint-free cloth.
- For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- Clean the charging contacts periodically to ensure proper charging.

5.2. Water Resistance (IP68)

The Jugeman Smart Watch P99 is IP68 waterproof, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. This makes it suitable for daily use, hand washing, and light rain.

- Do not use the watch in hot water, saunas, or steam rooms.
- Avoid prolonged immersion or high-pressure water jets.
- After contact with water, especially saltwater, dry the watch thoroughly before charging.

5.3. Battery Care

- Avoid fully discharging the battery frequently.
- Store the watch in a cool, dry place if not used for extended periods, with the battery charged to about 50%.
- Use only the provided charging cable.

6. TROUBLESHOOTING

6.1. Common Issues and Solutions

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes.
- **Cannot pair with phone:**
 - Ensure Bluetooth is enabled on your phone and the watch.
 - Make sure the watch is within range of your phone.
 - Restart both the watch and your phone.
 - Clear Bluetooth cache on your phone (Android) or forget the device and re-pair.
- **Notifications not received:**
 - Check notification permissions in your phone's settings for the companion app.
 - Ensure the app is running in the background.
 - Verify that "Do Not Disturb" mode is not active on either the watch or phone.
- **Inaccurate health data:**
 - Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone.
 - Update your personal information (height, weight, etc.) in the app.

6.2. Resetting the Device

If you encounter persistent issues, a factory reset may resolve them. This will erase all data on the watch and restore it to its original settings.

- Navigate to "Settings" on your smartwatch.
- Look for "System," "Reset," or "Factory Reset" option.
- Confirm the reset when prompted.
- After resetting, you will need to re-pair the watch with your phone.

7. SPECIFICATIONS
