SETUP AND ASSEMBLY

The Dancing Stand is designed for straightforward assembly. Please follow these steps carefully to ensure proper setup and functionality.

Unboxing and Component Check:

1. Carefully open the packaging and remove all components.
2. Verify that all parts listed in the included hardware and parts list are present. Refer to the diagram below for component identification.

Assembly Steps:

1. Place the base unit on a flat, stable surface. Ensure the power button is accessible.
2. Attach the first set of wavy support rods to the base unit, ensuring they are securely fastened.
3. Carefully place the first glass shelf onto the support rods. Ensure it sits flush and is stable.
4. Continue adding the remaining support rods and glass shelves in sequence, working your way upwards.
5. Once all five tiers are assembled, gently press down on each shelf to confirm secure connections.
6. Connect the power adapter to the designated port on the base unit and plug it into a standard electrical outlet.

OPERATING INSTRUCTIONS

The Dancing Stand features a simple one-button operation for its automatic rotation function.

Powering On/Off:

- Ensure the shelf is properly assembled and plugged into a power source.
- Locate the red power button on the base of the unit.
- Press the power button once to initiate the automatic 360-degree rotation. The shelves will begin to move in a dynamic, wavy pattern.
- Press the power button again to stop the rotation and power off the unit.

Placing Items on Shelves:

- Place items evenly on each shelf to maintain balance during rotation.
- Avoid placing excessively heavy items on a single shelf. Refer to the specifications for weight limits per shelf.
- Ensure items are stable and will not fall off during movement.

MAINTENANCE AND CARE

Proper maintenance will ensure the longevity and optimal performance of your Dancing Stand.

Cleaning:

- Disconnect the power before cleaning.
- Wipe the chrome frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- Clean glass shelves with a glass cleaner and a soft cloth.
- Ensure all parts are dry before reconnecting power.

Storage:

- If disassembling for storage, follow the assembly steps in reverse.
- Store components in their original packaging or a protective container to prevent damage.
- Store in a dry environment, away from extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your Dancing Stand, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Shelf does not rotate.	Not plugged in. Power button not pressed. Power adapter issue.	Ensure the power adapter is securely plugged into both the unit and a working electrical outlet. Press the red power button on the base. Try a different power outlet. If the issue persists, contact customer support.
Rotation is uneven or jerky.	Uneven weight distribution. Obstruction in the rotation mechanism.	Rearrange items on the shelves to distribute weight evenly. Inspect the base and rotating parts for any obstructions and remove them.
Noise during operation.	Loose components. Motor issue.	Check all connections and ensure they are tightened. If the noise persists and is unusual, discontinue use and contact customer support.
