

SoundPEATS Chasers

SOUNDPEATS Chasers Open-Ear Wireless Earphones User Manual

Model: Chasers

1. INTRODUCTION AND OVERVIEW

The SOUNDPEATS Chasers open-ear wireless earphones are designed to provide a comfortable and high-quality audio experience while maintaining awareness of your surroundings. Featuring an innovative open-ear design, these earphones offer a blend of advanced audio technology and ergonomic comfort.

Key features include:

- **Revolutionary Fit:** Skin-friendly liquid silicone ear hooks for ultimate comfort and stability during extended wear.
- **Hi-Res Audio Support:** Certified with the 'Hi-Res Wireless' logo, supporting LDAC codec for high-fidelity sound transmission up to 96kHz/24bit.
- **Immersive Bass:** Equipped with an 18mm×11mm custom driver for deep, powerful bass that enhances your listening experience.
- **Extended Playback:** Up to 10 hours on a single charge, and a total of 35 hours with the charging case, including rapid charging capability.
- **Dedicated App & Multi-point Connection:** Customize sound with the 'PeatsAudio' app and seamlessly switch between two connected devices.
- **IPX5 Water Resistance:** Designed to withstand sweat and light rain, making them suitable for active use.

The package contents of the SOUNDPEATS Chasers, including the earphones, charging case, Type-C cable, and manual.

2.2. Charging the Earphones and Case

1. Place the earphones into the charging case, ensuring they are correctly seated.
2. Connect the Type-C charging cable to the charging port on the case and a USB power source.
3. The indicator light on the charging case will show the charging status. A full charge takes approximately 2 hours.

The earphones provide up to 10 hours of playback on a single charge. With the charging case, total playback time extends to 35 hours. Rapid charging allows for 1.5 hours of playback after just 10 minutes of charging.

2.3. Initial Pairing

1. Open the charging case. The earphones will automatically enter pairing mode, indicated by a flashing LED on the earphones.
2. On your device (smartphone, tablet, PC), enable Bluetooth and search for 'SOUNDPEATS Chasers' in the list of available devices.
3. Select 'SOUNDPEATS Chasers' to connect. Once connected, the LED indicator on the earphones will turn off.

For subsequent use, the earphones will automatically connect to the last paired device when removed from the case.

3. OPERATING INSTRUCTIONS

3.1. Touch Controls

The SOUNDPEATS Chasers feature intuitive touch controls on each earphone. Specific functions can be customized via the 'PeatsAudio' app.

Action	Function
Single Tap (L/R)	Play/Pause, Answer/End Call
Double Tap (L)	Volume Down
Double Tap (R)	Volume Up
Triple Tap (L)	Previous Track
Triple Tap (R)	Next Track
Long Press (L/R, 1.5s)	Activate Voice Assistant, Reject Call
Long Press (L/R, 2s)	Toggle Game Mode (via app)

3.2. PeatsAudio App

Download the dedicated 'PeatsAudio' app to unlock full customization options for your Chasers earphones. The app allows you to:

- Adjust the equalizer settings to fine-tune bass and treble.
- Enable 'Movie Mode' for an immersive, three-dimensional audio experience.
- Manage multi-point connections.
- Update firmware for optimal performance.

Screenshots of the PeatsAudio app interface, showing options for equalizer adjustments and sound customization.

3.3. Multi-point Connection

The multi-point connection feature allows you to connect your Chasers earphones to two devices simultaneously. This enables seamless switching between audio sources, such as listening to music on your tablet and taking a call on your smartphone without manually re-pairing.

To use multi-point connection, activate the function within the 'PeatsAudio' app. Note that LDAC codec cannot be used when multi-point connection is active.

An illustration showing the SOUNDPEATS Chasers connected to both a smartphone and a tablet, demonstrating its multi-point connection feature.

3.4. Usage Scenarios

The open-ear design of the Chasers allows for a highly flexible listening experience, suitable for various daily activities:

- **Relaxation & Walks:** Enjoy music while remaining aware of your surroundings, perfect for outdoor activities.
- **Housework:** Listen to audio content without isolating yourself from household sounds.
- **Commuting & Studying:** Stay safe by hearing ambient sounds like traffic or announcements while enjoying your audio.
- **Office & Meetings:** Easily engage in conversations without removing your earphones, facilitating smooth communication.

People using SOUNDPEATS Chasers during commuting and studying, demonstrating safe and convenient use in various environments.

4. MAINTENANCE

To ensure the longevity and optimal performance of your SOUNDPEATS Chasers earphones, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the earphones and charging case with a soft, dry, lint-free cloth. Avoid using abrasive materials, solvents, or harsh chemicals.
- **Water Resistance:** The earphones are IPX5 water-resistant, meaning they can withstand splashes and sweat. Do not submerge them in water or expose them to heavy rain. Ensure the charging port is dry before charging.
- **Storage:** When not in use, store the earphones in their charging case to protect them from dust and damage. Store in a cool, dry place away from extreme temperatures.
- **Charging:** Charge the earphones regularly, even if not used frequently, to maintain battery health.

5. TROUBLESHOOTING

If you encounter issues with your SOUNDPEATS Chasers, please refer to the following common solutions:

5.1. Connectivity Issues

- **Earphones not pairing:** Ensure the earphones are charged and within range of your device. Try placing them back in the case, closing it, and then reopening to re-enter pairing mode.
- **Intermittent connection/sound drops:** Move closer to your device. Avoid environments with strong electromagnetic interference. If using LDAC, consider switching to a different codec or disabling multi-point connection, as LDAC can be more sensitive to interference, especially outdoors.
- **Only one earphone working:** Place both earphones back into the charging case, close the lid, wait a few seconds, then open the lid and try connecting again.

5.2. Sound Quality Issues

- **Poor bass or thin sound:** Ensure the earphones are positioned correctly on your ears. Utilize the 'Dynamic EQ' feature in the 'PeatsAudio' app, which is designed to enhance bass and overall sound presence for open-ear designs. Adjust the equalizer settings in the app to your preference.

- **Sound leakage:** While open-ear designs naturally allow some sound to pass through, SOUNDPEATS Chasers incorporate proprietary internal structures to minimize leakage. Ensure the earphones are seated properly.

5.3. Charging Issues

- **Earphones not charging:** Ensure the charging contacts on both the earphones and the case are clean and free of debris. Verify the charging cable is securely connected and the power source is active.
- **Case not charging:** Check the Type-C cable and power adapter. Try a different cable or power source.

If problems persist, please contact customer support.

6. SPECIFICATIONS

Feature	Detail
Model Name	SOUNDPEATS Chasers
Connectivity Technology	Wireless (Bluetooth 5.4)
Frequency Response	40 KHz
Driver Size	18mm x 11mm Custom Driver
