

SUNVIVI ZIC004

SUNVIVI 1800W Triple Burner Portable Electric Ceramic Stove

Model: ZIC004

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using this appliance to ensure safe operation and to prevent injury or damage. Keep this manual for future reference.

- Always place the stove on a stable, heat-resistant, and level surface.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to 'off', then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- This appliance has a 120V plug. Ensure your outlet matches this requirement.

2. PRODUCT OVERVIEW

The SUNVIVI Triple Burner Electric Ceramic Stove features three heating elements, individual knob controls, and indicator lights for convenient and efficient cooking.

Image 2.1: Overview of the SUNVIVI Triple Burner Electric Ceramic Stove, highlighting the 650W, 500W, and 650W burners, along with control knobs, indicator lights, non-slip feet, and easy-to-clean ceramic glass surface.

Components:

- **Ceramic Glass Cooktop:** Durable, scratch-resistant surface with three heating zones.
- **Control Knobs:** Three independent knobs for precise temperature adjustment of each burner.
- **Indicator Lights:** Illuminates when a burner is active or hot.
- **Stainless Steel Housing:** Provides durability and a sleek design.
- **Non-slip Feet:** Ensures stability during use.
- **Power Cord:** Standard 120V plug.

3. SETUP AND INSTALLATION

Follow these steps to set up your electric ceramic stove for first use.

1. **Unpacking:** Carefully remove the stove from its packaging. Retain packaging for future transport or storage.

2. **Placement:** Place the stove on a flat, stable, and heat-resistant countertop or surface. Ensure there is adequate ventilation around the unit.
3. **Power Connection:** Plug the 120V power cord into a grounded electrical outlet. Ensure the outlet meets the appliance's power requirements (1800W total).
4. **First Use Burn-off:** Before cooking, turn each burner to its highest setting for approximately 5 minutes without cookware. This will burn off any manufacturing residues and odors. A slight smoke or odor is normal during this initial process. Ensure the area is well-ventilated.

Image 3.1: The SUNVIVI Triple Burner Electric Ceramic Stove connected to a 120V power outlet, illustrating its portable nature and key features like knob operation and overheat protection.

Built-in Design Option:

This stove can also be integrated into a countertop for a seamless look. Ensure proper ventilation and clearance are maintained according to local building codes and safety standards if choosing this installation method. The load limit for the stove is 44 lbs.

SEAMLESS BUILT-IN DESIGN

Easily integrates into your countertop for a sleek, space-saving kitchen setup.

4. OPERATING INSTRUCTIONS

Operating your SUNVIVI ceramic stove is straightforward with its knob controls.

1. **Place Cookware:** Place your desired cookware on the center of the burner you intend to use.
2. **Turn On:** Rotate the corresponding control knob clockwise to the desired heat setting. The indicator light for that burner will illuminate, signaling that the burner is active and heating.
3. **Adjust Heat:** Adjust the knob to increase or decrease the heat intensity as needed for your cooking. The stove offers precise temperature control.
4. **Turn Off:** After cooking, turn the control knob counter-clockwise back to the 'OFF' position. The indicator light will turn off.
5. **Cool Down:** Allow the burners to cool completely before cleaning or storing the appliance. The indicator light may remain on for a short period after turning off, indicating residual heat.

Cookware Compatibility:

The microcrystalline glass cooktop is compatible with all types of cookware, including:

- Iron

- Stainless Steel
- Stovetop Teapots
- Aluminum
- Glass
- Copper
- Barbecue Grills
- Ceramics

5. CLEANING AND MAINTENANCE

Proper cleaning and maintenance will extend the life of your appliance.

- Always Unplug:** Before cleaning, ensure the stove is unplugged from the power outlet and has completely cooled down.
- Clean Cooktop:** Wipe the ceramic glass surface with a clean, damp cloth. For stubborn stains, use a mild non-abrasive cleaner specifically designed for ceramic cooktops. Avoid harsh chemicals or abrasive pads that can scratch the surface.
- Clean Housing:** Wipe the stainless steel housing with a soft, damp cloth. Dry thoroughly.
- Do Not Immerse:** Never immerse the stove in water or any other liquid.
- Storage:** When not in use, store the stove in a dry place.

6. TROUBLESHOOTING

If you encounter issues with your stove, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Stove does not turn on.	Not plugged in; power outage; faulty outlet.	Ensure the power cord is securely plugged into a working 120V outlet. Check your circuit breaker.
Burner not heating.	Knob not turned to a heat setting; internal fault.	Ensure the control knob is turned to the desired heat level. If still not heating, contact customer support.
Stove automatically shuts off.	Overheat protection activated.	This is a safety feature. Unplug the stove and allow it to cool down completely. Ensure proper ventilation and that no objects are blocking airflow.
Smoke or odor during first use.	Manufacturing residues burning off.	This is normal for initial use. Ensure good ventilation. It should dissipate after a few minutes.
Uneven heating.	Cookware not flat or too small/large for burner.	Use flat-bottomed cookware that matches the size of the burner for optimal heat distribution.

7. SPECIFICATIONS

Detailed technical specifications for the SUNVIVI Triple Burner Electric Ceramic Stove.

Feature	Specification
Model Number	ZIC004
Brand	SUNVIVI
Wattage	1800 watts (Total)
Heating Elements	3 (Two 650W, One 500W)
