WHAT'S IN THE BOX

Please check the contents of your package to ensure all items are present:

- 1 x Nimo N154 Laptop
- 1 x Type-C 65W PD Fast Charger
- 1 x User Manual
- Windows 11 Home (pre-installed)

SETUP

Initial Power On and Charging

1. Unpack your NIMO laptop and the Type-C 65W PD Fast Charger.
2. Connect the Type-C charger to the laptop's Type-C charging port and plug the adapter into a power outlet.
3. Allow the laptop to charge for at least 30 minutes before the first use, or until the battery indicator shows sufficient charge.
4. Press the power button located on the top right side of the keyboard to turn on the laptop.

Windows 11 Setup

Follow the on-screen instructions to complete the initial Windows 11 setup. This typically includes:

- Selecting your region and keyboard layout.
- Connecting to a Wi-Fi network.
- Accepting the license agreement.
- Creating or signing in with a Microsoft account.
- Setting up a PIN or password for login.
- Configuring privacy settings.

OPERATING YOUR LAPTOP

Display and Visuals

The NIMO laptop features a stunning 15.6-inch Full HD (1920x1080) display with an 85% screen-to-body ratio and razor-thin bezels, providing vibrant colors and sharp details for an immersive viewing experience.

MAINTENANCE

Cleaning

- Use a soft, lint-free cloth slightly dampened with water or a screen cleaner to wipe the display.
- For the keyboard and chassis, use a soft, dry cloth. Avoid harsh chemicals or abrasive materials.
- Use compressed air to clear dust from keyboard keys and ventilation grilles.

Battery Care

- Avoid fully discharging the battery frequently.
- Store the laptop in a cool, dry place if not used for extended periods.
- Use only the provided NIMO 65W PD fast charger.

Software Updates

- Regularly check for Windows updates to ensure your system has the latest security patches and performance improvements.
- Keep your drivers updated for optimal hardware performance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Laptop does not power on	Low battery; Power adapter issue	Ensure charger is properly connected and plugged in. Allow to charge for a few minutes before attempting to power on again.
Wi-Fi connection issues	Driver issue; Router problem; Wi-Fi disabled	Check if Wi-Fi is enabled (Fn+F5). Restart your router. Update Wi-Fi drivers via Device Manager.
Slow performance	Too many background apps; Low disk space; Malware	Close unnecessary applications. Free up disk space. Run a full system scan with antivirus software.
Keyboard backlight not working	Backlight disabled	Press Fn + F10 (or the key with the backlight icon) to toggle the backlight on/off or adjust brightness.
Fingerprint reader not responding	Sensor dirty; Driver issue; Incorrect setup	Clean the sensor with a soft cloth. Re-register your fingerprint in Windows Settings. Update fingerprint reader drivers.
