This image displays the KAMABOKO LED Night Stand in a bedroom setting, showcasing its sleek black finish and vibrant blue LED illumination. The top surface features a lamp, smartphone, and other small items, highlighting the integrated charging capabilities.

SETUP AND ASSEMBLY

The KAMABOKO LED Night Stand is designed for straightforward assembly. All necessary parts are carefully labeled, and clear instructions are provided to guide you through the process. It is recommended to assemble the nightstand in the room where it will be used.

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the included parts list. Ensure no components are missing or damaged.

2. **Identify Hardware:** Separate and identify all screws, dowels, and other hardware using the provided labels.

3. **Assemble Frame:** Follow the step-by-step diagrams in the assembly guide to connect the main frame components.

4. **Install Drawers:** Assemble the drawer components and install them into the designated slots within the

nightstand frame.

5. **Connect Electrical Components:** Securely connect the LED lighting and charging station wiring as instructed. Ensure all connections are firm before plugging into a power source.

6. **Final Placement:** Position the assembled nightstand in your desired location.

For detailed visual instructions, please refer to the assembly guide included in your package.

OPERATING INSTRUCTIONS

LED Lighting System:

The nightstand features an RGB sensor light system with three lighting modes, allowing for a customized ambiance. The lights can be controlled via the integrated control panel or the included remote control.

- **Color Selection:** Use the remote control or the control panel to select from 24 available colors. Slide the button on the control panel to change the color.

- **Brightness Adjustment:** Long press the designated button on the control panel or remote to adjust the brightness of the LED lights.

- **Lighting Modes:** Cycle through the three pre-set lighting modes to suit your preference.

Figure 2: Remote control for LED lights.

This image illustrates the remote control functionality for the nightstand's LED lights, indicating a maximum range of 15 meters. A spectrum of 24 color dots is displayed, signifying the wide range of customizable lighting options available.

Figure 3: 24 LED Lights Mode and Brightness Adjustment.

This image demonstrates the nightstand's capability to display 24 different LED light colors and adjust brightness. It shows two nightstands, one with blue light and another with warm yellow light, highlighting the versatility of the lighting system.

Charging Station:

The nightstand is equipped with a versatile charging station to power your electronic devices conveniently.

- **Wireless Charging:** Place your compatible smartphone or device on the designated wireless charging pad on the top surface. Ensure the device is centered for optimal charging.

- **USB Ports:** Utilize the standard USB port for charging various devices.

- **Type-C Port:** Use the Type-C port for faster charging of compatible devices.

Figure 4: Multifunction Control Panel.

This image provides a detailed view of the nightstand's multifunction control panel located on its top surface. Icons represent features such as wireless charging, USB and Type-C ports, 24-color LED lights, a 'Body' button for human induction, a 'Light' button, and dynamic colored light settings.

Smart Human Induction:

The nightstand features a smart human induction sensor that automatically activates the LED lights when a person is detected within a certain range.

- **Activation Range:** The lights will come on when a person is approximately 2-3 meters near the bedside table.
- **Sensor Placement:** The sensor is strategically placed to detect movement in the vicinity of the nightstand.

Figure 5: Smart Human Induction Feature.

This image demonstrates the smart human induction feature, where the nightstand's lights activate when a person is within 2-3 meters. Blue waves emanate from the nightstand, symbolizing the sensor's detection range, with a remote control shown in the foreground.

STORAGE CAPACITY

The KAMABOKO LED Night Stand offers ample storage solutions to keep your bedside organized and clutter-free.

- **Open Space:** One open compartment provides easy access for frequently used items like books or decorative pieces.

- **Drawers:** Two large drawers offer concealed storage for personal items, including a dedicated space suitable for jewelry.

Figure 6: Extra Storage Space.

This image highlights the nightstand's storage capacity, showing its two large drawers partially open. The blue LED lighting inside the open compartment and drawers illuminates the interior, emphasizing the practical storage solutions for various items.

MAINTENANCE AND CARE

Proper maintenance will ensure the longevity and appearance of your KAMABOKO LED Night Stand.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Dusting:** Regularly dust the nightstand with a dry, soft cloth to prevent buildup.
- **Spills:** Immediately wipe up any spills to prevent staining or damage to the wood material.
- **Electrical Components:** Ensure the charging station and LED lights are kept dry. Do not attempt to clean electrical components with liquids.

TROUBLESHOOTING

If you encounter any issues with your KAMABOKO LED Night Stand, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
LED lights not turning on.	Not plugged in; loose connection; remote battery low; sensor obstructed.	Ensure power cord is securely plugged in. Check all internal wiring connections. Replace remote control batteries. Clear any obstructions from the sensor.
Charging station not working.	Device not compatible; device not properly aligned (wireless); cable faulty; power issue.	Verify device compatibility with wireless charging. Realign device on charging pad. Try a different USB/Type-C cable. Ensure nightstand is powered on.
Drawers are stiff or not closing smoothly.	Overloaded drawer; debris in runners; misaligned runners.	Reduce contents in the drawer. Clean drawer runners. Re-check assembly of drawer slides.

If the problem persists after attempting these solutions, please contact customer support.
