KOMFOTT 10844-HU-KT

KOMFOTT Metal Twin Over Twin Bunk Bed Instruction Manual

Brand: KOMFOTT

Model: 10844-HU-KT

1. Introduction

This manual provides essential information for the assembly, safe use, and maintenance of your KOMFOTT Metal Twin Over Twin Bunk Bed. Please read these instructions thoroughly before assembly and retain them for future reference. This bunk bed is designed to optimize space in various living environments, offering a sturdy and secure sleeping solution.

Image 1.1: The KOMFOTT Metal Twin Over Twin Bunk Bed, showcasing its design and space-saving capabilities in a typical room setup with a desk and chair.

2. Safety Information

Your safety is paramount. Adhere to all safety guidelines to prevent injury and ensure the longevity of your bunk bed.

- **Guardrails:** The upper bunk is equipped with full-length guardrails with rounded corners. These must always be in place to prevent falls.
- **Mattress Clearance:** For the upper bunk, the mattress surface must be at least 5 inches (12.7 cm) below the top edge of the guardrail. This ensures adequate protection.
- **Ladder Use:** Always use the provided 4-step ramp ladder for accessing the upper bunk. Do not climb on the frame directly.
- **Weight Capacity:** The upper bunk has a weight capacity of 300 lbs (136 kg). The lower bunk has a weight capacity of 350 lbs (159 kg). Do not exceed these limits.
- **Assembly:** Ensure all components are securely fastened during assembly. Regularly check and tighten all bolts and

connections.

- **No Jumping:** Do not jump on either bunk. This can cause structural damage and lead to injury.
- **Children:** Bunk beds are not recommended for children under 6 years of age on the upper bunk.

Image 2.1: Detail illustrating the 10-inch full-length guardrails and the recommended 5-inch mattress clearance for safe sleeping on the upper bunk.

3. Product Features

The KOMFOTT Metal Twin Over Twin Bunk Bed is designed with the following key features:

- **Safety Guardrails:** 10-inch full-length guardrails with rounded corners on the upper bunk for enhanced safety.
- **Integrated Ladder:** A 4-step ramp ladder provides easy and secure access to the top bunk.
- **Space-Saving Design:** Twin-over-twin configuration maximizes vertical space, ideal for smaller rooms.
- **Robust Construction:** Constructed with a sturdy metal frame and 21 robust metal slats for each bunk, ensuring durability and high weight capacity.

- **No Box Spring Required:** Both upper and lower bunks are designed to support mattresses directly, eliminating the need for a box spring. The bottom bunk includes an integrated headboard and footboard to secure the mattress.
- **Ample Under-Bed Storage:** Features 10.5 inches of clearance beneath the lower bunk, providing convenient space for storage or easy cleaning.

Image 3.1: The bunk bed positioned in a bright room, illustrating its compact footprint and modern aesthetic.

Image 3.2: Visual representation of the bunk bed's sturdy and stable construction, highlighting the 21 closely spaced metal slats, firm bolt connections, and reliable support legs.

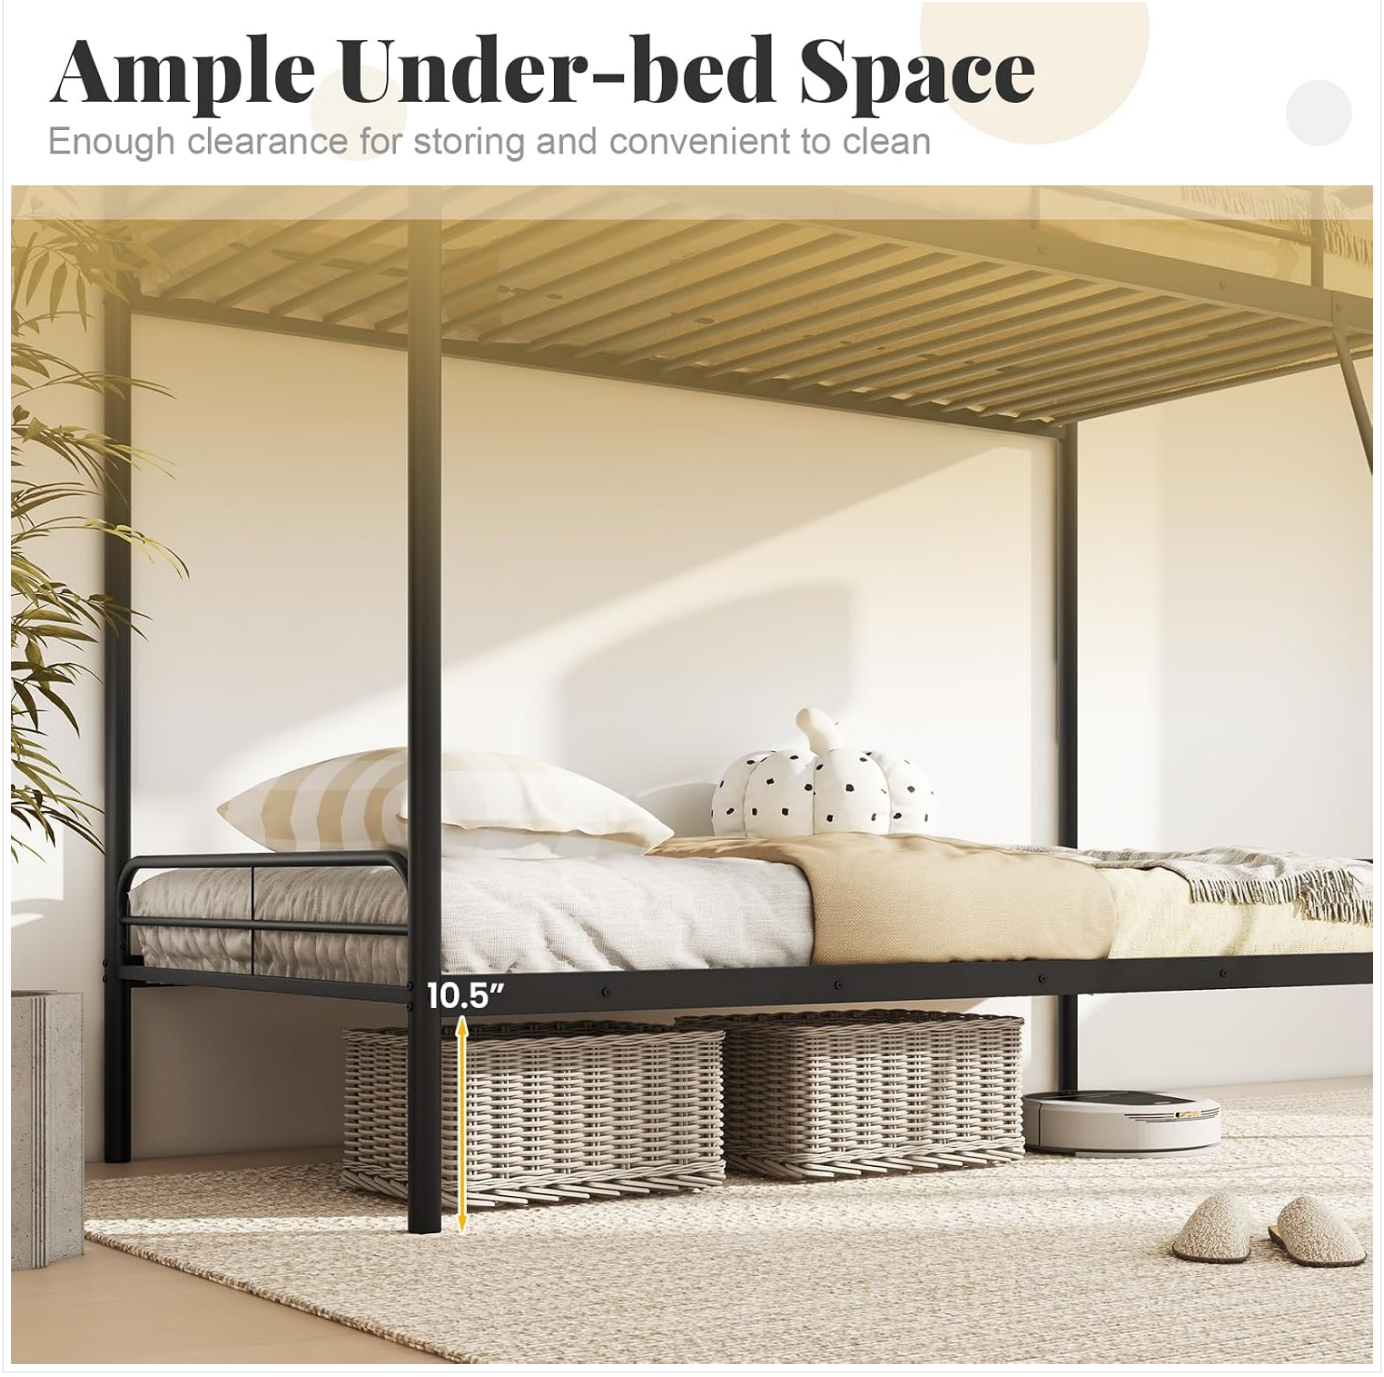

Image 3.3: The ample 10.5-inch under-bed space, demonstrating its utility for storage and ease of cleaning.

4. Setup & Assembly

Assembly of the KOMFOTT Metal Twin Over Twin Bunk Bed is required. Please follow the included instruction manual carefully. It is recommended that two adults assemble the bed to ensure safety and efficiency.

4.1 Before You Begin

- Unpack all components and verify against the parts list in the separate instruction manual.
- Ensure you have all necessary tools (typically an Allen wrench, often included).
- Clear a spacious area for assembly to avoid damage to the product or your surroundings.

4.2 Assembly Tips

- Do not fully tighten bolts until all components are loosely assembled. This allows for easier alignment.
- Once all parts are in place, gradually tighten all bolts securely.

- Regularly check for stability during and after assembly.

4.3 Mattress Requirements

- No box spring is needed for either the upper or lower bunk.
- Recommended mattress thickness for the upper bed: 3"-4" (Not Included).
- Recommended mattress thickness for the lower bed: 3"-5" (Not Included).

5. Operation

Using your KOMFOTT Metal Twin Over Twin Bunk Bed is straightforward, but adherence to safety guidelines is crucial.

5.1 General Use

- Ensure mattresses are properly placed and do not extend beyond the frame.
- The ladder should be used for all access to the upper bunk.
- Avoid hanging items on the guardrails or frame that could obstruct movement or cause instability.

5.2 Maximizing Space

The 10.5-inch clearance under the lower bunk can be utilized for storage. Consider using storage bins or drawers to keep the area tidy and organized.

6. Maintenance

Proper maintenance will extend the life and ensure the safety of your bunk bed.

- **Cleaning:** Wipe the metal frame with a dry cloth to remove dust and debris. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Regular Checks:** Periodically inspect all bolts, screws, and connections to ensure they are tight. Re-tighten as necessary.
- **Structural Integrity:** Check for any signs of wear, damage, or bending in the metal frame or slats. If any damage is found, discontinue use and contact customer support.

7. Troubleshooting

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose bolts or uneven assembly.	Ensure all bolts are fully tightened. Check that the bed is on a level surface. Re-assemble if necessary, ensuring all parts are correctly aligned before tightening.
Squeaking noises.	Loose connections or friction between metal parts.	Tighten all bolts. Apply a small amount of lubricant (e.g., silicone spray) to connection points if squeaking persists.
Mattress slides on the bunk.	Mattress not properly secured or incorrect size.	Ensure the mattress fits snugly within the frame. For the lower bunk, the integrated headboard and footboard should prevent sliding. Consider using a non-slip mat under the mattress if needed.

Problem	Possible Cause	Solution
Difficulty climbing the ladder.	Improper ladder placement or user discomfort.	Ensure the ladder is securely attached and positioned correctly. Practice climbing slowly.

8. Product Specifications

Attribute	Detail
Model Number	10844-HU-KT
Color	Black
Material	Metal
Overall Dimensions (L x W x H)	78" x 41.5" x 64.5"
Height between Bunk Beds	38.5"
Height of Upper Guardrails	10"
Clearance from Ground to Bed	10.5"
Recommended Mattress Thickness (Upper Bed)	3"-4" (Not Included)
Recommended Mattress Thickness (Lower Bed)	3"-5" (Not Included)
Weight Capacity (Upper Bed)	300 lbs
Weight Capacity (Lower Bed)	350 lbs
Net Weight	79 lbs
Assembly Required	Yes
Product Care Instructions	Wipe with Dry Cloth
Included Components	1 x Metal Bunk Bed, 1 x Instruction Manual
