2. **Deck Chair Position:** Gently pull the hidden straps located at the front base of the armchair to extend the footrest section. The backrest can remain upright or be slightly reclined.
3. **Bed Position:** Continue pulling the straps to fully extend the bed section. Simultaneously, adjust the backrest to a flat, horizontal position (180°).
4. To revert to armchair mode, push the bed section back in and adjust the backrest upright.

Adjusting the Backrest

The backrest can be adjusted to three different angles to suit your comfort needs.

- **110° Position:** Ideal for sitting upright, such as playing games or engaging in conversation.
- **140° Position:** Suitable for a relaxed recline, perfect for watching TV or reading.
- **180° Position:** Fully flat, transforming the unit into a comfortable bed for sleeping or napping.

To adjust, gently push the backrest forward slightly, then recline it to your desired angle. Ensure it locks securely into place.

- **Difficulty converting the bed:** Ensure the mechanism is not obstructed. Check if the straps are pulled evenly and smoothly. The wheels should roll freely.
- **Backrest not locking into position:** Ensure the backrest is pushed slightly forward before reclining to engage the locking mechanism. Check for any obstructions.
- **Wobbly or unstable unit:** Recheck all assembly fasteners and tighten any loose screws or bolts. Ensure the armchair is on a flat, even surface.
- **Wheels not rolling smoothly:** Check for debris or hair caught in the wheels. Clean them if

necessary. Ensure the wheels are securely attached.
