Video: A comprehensive guide demonstrating the operation and connection process of the duskeep TikTok Scrolling Ring.

Step-by-Step Connection Instructions

1. For iOS Devices (iOS 14.8 or higher): Enable AssistiveTouch.

Go to [Settings](#) > [Accessibility](#) > [Touch](#) > Turn on [AssistiveTouch](#). Adjust the "Tracking Sensitivity" to 20% or lower for optimal performance.

Step 2: Take the ring out of the charging case. (The ring red and blue lights flashing)

Step 3: Turn on and connect to Bluetooth "R1". (The ring light will turn off once the connection is successful)

Disconnect Currently Pairing: Press 2 buttons at the same time (Disconnect currently connected device)

Image: Visual guide for enabling AssistiveTouch on iOS devices.

2. Power On the Ring:

Take the ring out of its charging case. The ring's red and blue lights will flash, indicating it's ready for pairing.

3. **Connect via Bluetooth:**

On your device, go to Bluetooth settings and select "R1" from the list of available devices. The ring light will turn off once the connection is successful.

To charge, simply place the ring back into its charging case. Ensure the Type-C cable is connected to the case and a power

source.

TROUBLESHOOTING

If you encounter any issues with your duskeep TikTok Scrolling Ring, please refer to the common solutions below.

Problem	Solution
The remote ring does not work on my iPhone or iPad.	<ol style="list-style-type: none">1. Ensure your iOS version is 14.8 or higher.2. Verify that AssistiveTouch is enabled. If not, turn it on. If it's already enabled, try turning it off and then on again.
Cannot find "R1" or connect to it via Bluetooth.	<ol style="list-style-type: none">1. When powered on, the remote automatically connects to the last paired device. Disconnect the Bluetooth connection on the previously paired device to connect to a new device.2. If you're unable to connect via Bluetooth for the first time, try turning Bluetooth off and on again or restarting your phone.
How to disconnect the current Bluetooth connection (How to restart the remote)?	Press and hold the camera button and the "OK" button simultaneously for 5 seconds until the red and blue lights flash alternately.

Note: Compatible with iOS 14.8+ and Android 8.0 or higher.

Solve IOS Device Connection Problems

● Why the remote ring does not work on my iPhone or iPad?

A1.Ensure your iOS version is 14.8 or higher.

A2.Verify that AssistiveTouch is enabled. If not, turn it on. If it's already enabled, try turning it off and then on again.

● Why can't I find "R1" or connect to it via Bluetooth?

A1.When powered on, the remote automatically connects to the last paired device. Disconnect the Bluetooth connection on the previously paired device to connect to a new device.

A2.If you're unable to connect via Bluetooth for the first time, try turning Bluetooth off and on again or restarting your phone.

● How do I disconnect the current bluetooth connection? (How do I restart the remote?)

1.Press and hold the " " button and the " " button simultaneously for 5 seconds until the red and blue lights flash alternately.

NOTE: Compatible with iOS 14.8+ and Android 8.0 or higher
