## TINHIFI T5S

# TINHIFI T5S Wired Earphones User Manual

Model: T5S

## 1. PRODUCT OVERVIEW

The TINHIFI T5S are high-fidelity wired in-ear monitors designed for audiophiles. They feature a unique 10mm Topping diaphragm dynamic driver, an aerospace-grade aluminum housing, and a detachable 0.78mm 2-pin cable for enhanced sound quality and durability.

## 2. PACKAGE CONTENTS

---

Verify that all items are present in your TINHIFI T5S package:

- TINHIFI T5S Earphones (Left and Right earpieces)
- Detachable 0.78mm 2-Pin Cable
- Various sizes of silicone ear tips
- Cleaning brush
- Tweezers
- Storage case
- User Manual (this document)

Image: All items included in the TINHIFI T5S package, including the earphones, cable, ear tips, cleaning tools, and storage case.

### 3. SETUP INSTRUCTIONS

#### 3.1 Attaching the Detachable Cable

1. Identify the left (L) and right (R) earpieces and cable connectors. The cable connectors are typically marked with 'L' and 'R', and often have a red ring for the right connector.
2. Align the 2-pin connector on the cable with the corresponding socket on the earpiece. Ensure the pins are correctly oriented.
3. Gently push the connector into the socket until it is firmly seated. Do not force the connection.
4. Repeat for the other earpiece.

### 3.2 Choosing and Installing Ear Tips

Selecting the correct ear tip size is crucial for comfort, sound quality, and noise isolation. Experiment with the included ear tips to find the best fit for your ears.

- Gently remove the pre-installed ear tips by pulling them off the nozzle.
- Select a new pair of ear tips.
- Push the new ear tip onto the earphone nozzle until it is securely attached.

### 3.3 Proper Wearing Technique

The TINHIFI T5S earphones are designed to be worn with the cable looped over the ear for a secure and comfortable fit.

1. Insert the earpiece into your ear canal.
2. Guide the cable over the top and behind your ear.
3. Adjust the earpiece and cable until you achieve a comfortable and snug fit, ensuring a good seal in your ear canal for optimal sound.

## 4. OPERATING INSTRUCTIONS

---

To use your TINHiFi T5S earphones, connect the 3.5mm jack of the cable to your audio source (e.g., smartphone, tablet, laptop, digital audio player).

- Ensure the cable is securely attached to both earpieces.
- Plug the 3.5mm audio jack into your device's headphone port.
- Adjust the volume on your audio source to a comfortable listening level before placing the earphones in your ears.

## 5. MAINTENANCE AND CARE

- **Cleaning Earphones:** Regularly wipe the earpieces with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the drivers.
- **Cleaning Ear Tips:** Remove ear tips and wash them with mild soap and water. Rinse thoroughly and allow them to dry completely before reattaching.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable. When not in use, coil the cable loosely and store it in the provided case.
- **Storage:** Store your earphones in the included protective case when not in use to prevent damage from dust, impacts, or tangling.
- **Avoid Extreme Conditions:** Do not expose the earphones to extreme temperatures, humidity, or direct sunlight for prolonged periods.

## 6. TROUBLESHOOTING

- **No Sound or Intermittent Sound:**

- Ensure the 2-pin cable connectors are fully seated in the earpieces.
- Check that the 3.5mm audio jack is fully inserted into your audio source.
- Verify the volume on your audio source is turned up and not muted.
- Test with a different audio source or cable if possible to isolate the issue.

- **Poor Sound Quality / Lack of Bass:**

- This is often due to an improper seal in the ear canal. Experiment with different ear tip sizes to find the best fit.
- Ensure the earphones are inserted correctly and securely in your ears.
- Check for any debris blocking the earphone nozzles. Clean if necessary.

- **Earphones Feel Uncomfortable:**

- Try different ear tip sizes and materials.
- Adjust the position of the earpieces and the cable over your ear until a comfortable fit is achieved.

## 7. SPECIFICATIONS

Feature	Detail
Model Name	TINHIFI T5S
Connectivity Technology	Wired
Audio Driver Type	Dynamic Driver (10mm Topping Diaphragm)
Impedance	32 Ohm
Sensitivity	103 dB
Frequency Response	Below 10 KHz - 10 KHz
