8. MAINTENANCE

- **Cleaning:** Regularly clean the watch screen and strap with a soft, dry cloth. If necessary, use a slightly damp cloth and mild soap, then dry thoroughly.
- **Charging:** Ensure the charging contacts on the watch and charger are clean and dry before charging to prevent corrosion.
- **Storage:** Store the watch in a cool, dry place when not in use. Avoid extreme temperatures.

- **Avoid Chemicals:** Do not expose the watch to strong chemicals, detergents, or solvents, as these can damage the materials.

9. TROUBLESHOOTING

If you encounter issues with your Mikego Smart Watch IDW25, consider the following common solutions:

- **Device Not Turning On:** Ensure the watch is fully charged. Connect it to the charger for at least 10-15 minutes.
- **Connection Issues:** Verify Bluetooth is enabled on your phone and the watch. Ensure the VeryFit app is running and has all necessary permissions. Try restarting both the watch and your phone.
- **Inaccurate Health Data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch.
- **Notifications Not Appearing:** Check app permissions for VeryFit on your phone. Ensure notifications are enabled within the VeryFit app settings for specific applications.
- **Call Function Not Working:** Confirm that the call function is enabled in the VeryFit app and that all required phone permissions (e.g., contacts, microphone) are granted.
- **Screen Unresponsive:** Try restarting the watch by pressing and holding the side button. If unresponsive, allow the battery to drain completely and then recharge.

For persistent issues, please refer to the support information in Section 10.
