Meenova Right A3050/A3053/A3054

User Manual for OEM A3050 A3053 A3054 Right Earbud Replacement

Model: Right A3050/A3053/A3054 | Brand: Meenova

1. PRODUCT OVERVIEW

This manual provides instructions for the OEM A3050/A3053/A3054 Right Earbud Replacement for AirPods (4th Generation). This product is designed to replace a single right earbud and is compatible with the original AirPods 4 A3058 Charging Case. Please note, this earbud is not for the ANC (Active Noise Cancellation) version.

2. COMPATIBILITY

It is crucial to verify the model of your existing earbuds and charging case to ensure compatibility. This replacement earbud is specifically designed for:

- Earbud (4th Generation) models: **A3050, A3053, A3054.**
- Charging case model: **A3058.**

Important Note: This earbud is *incompatible* with the Earbuds ANC (4th Generation) models (A3055, A3056, A3057) and charging case model A3059.

For Air Pod 4
(No ANC)

Model: A3050, A3053, A3054

NOT for Air Pod 4
(ANC Version)

Model: A3055, A3056, A3057

Image: A visual guide illustrating compatibility with non-ANC AirPods 4th Generation (models A3050, A3053, A3054) and incompatibility with ANC versions (models A3055, A3056, A3057).

It is only compatible with Earbuds 4
-- Model: A3050, A3053, A3054.
It is incompatible with Earbuds 4 ANC
-- Model: A3055, A3056, A3057.

3. SETUP AND PAIRING INSTRUCTIONS

Follow these steps carefully to pair your new right earbud with your existing AirPods setup. Patience is key during the pairing process, as it may take some time.

1. Forget Your Earbuds from Bluetooth List:

- Open your device's Bluetooth settings.
- Locate your Earbuds in the list of devices.
- Select "Forget This Device" or similar option to remove them from your Bluetooth list.

2. Charge Your Earbuds:

- Plug the charging case into a power source.
- Place the new earbud into the charging case.
- Ensure the charging case is close to your iPhone/iPad during charging.
- Allow the earbud to charge for **30-60 minutes**. For older firmware versions, this might take 2-3 hours or even overnight.

3. Reset Your Earbuds:

- Unplug the charging cable from the case.
- Open the lid of the charging case.
- Press and hold the setup button on the back of the case for approximately 15 seconds. The status light on the front of the case will flash amber, then white.

4. Connect Your Earbuds:

- With the charging case lid open and both earbuds inside, place your Earbuds close to your iPhone or iPad.
- Follow the on-screen prompts on your device to connect.

If the pairing process does not succeed on the first attempt, please repeat Step 2 (charging) and allow more time before attempting Step 3 (reset) again. Ensure both the left and right earbuds (if you have both) are compatible models.

Guideline for AirPods Pairing

****Please follow this guideline to pair your earbud with the replacement!!**

● Step 1# Forget your AirPods from the Bluetooth list

- Open setting.
- Forget your AirPods from the Bluetooth list.
- Click “Forget This Device” to delete your AirPods from your iOS device.

● Step 2# Charge your AirPods

- Put both your earbuds into the charging case.
- Plug the cable into your AirPods for charging.
- Make sure your AirPods is close (side by side) to your iPhone/iPad when charging. (This is an important step!!)
- Wait for more than 30 minutes or more. It depends on what firmware version number your AirPods is. If the firmware version of your AirPods is old, it might take 2 ~ 3 hours or more for charging to sync the firmware version for the left and right sides.

● Step 3# Reset your AirPods

- Unplug the cable.
- Open the lid of the charging case.
- Press and hold the setup button on the back of the case for about 15 seconds, until the status light on the front of the case flashes amber, then white.
- Connect AirPods to your iPhone/iPad.

****Please repeat Step 2# and wait for more times in case you can't reset it in Step 3#.**

● Step 4# Connect your AirPods

- Connect your AirPods: With your AirPods in their charging case and the lid open, place your AirPods close to your iPhone or iPad. Follow the steps on your device's screen.

****Please contact us if you have any other issues via Amazon or email to: support@audiospare.com.**

Note: Please follow the manual above to pair both earbuds. Then the error message “Mismatched AirPods Pro” below will be fixed. The error message is a bug in AirPods.

Please access the manual from:
<https://audiospare.com/2025/01/09/guideline-for-airpods-pairing/>

Image: A comprehensive guide detailing the four steps for pairing your earbud, including forgetting the device, charging, resetting, and connecting.

4. CHARGING

The earbud charges when placed inside the compatible charging case (model A3058). To charge the case itself, connect it to a power source using a compatible cable. A fully charged case can provide multiple charges to the earbud, allowing for portable charging without a direct power supply.

The status light on the front of the charging case indicates the charging status:

- **Amber:** Charging or less than one full charge remaining.
- **Green:** Fully charged.

5. TROUBLESHOOTING

If you encounter issues with your replacement earbud, consider the following troubleshooting steps:

- **Earbud Not Pairing:**
 - Ensure you have followed all pairing instructions precisely, especially forgetting the device from your Bluetooth list.
 - Allow sufficient charging time (30-60 minutes, or longer for older firmware) before attempting to reset and pair.
 - Verify that the model numbers of your earbuds (A3050/A3053/A3054) and charging case (A3058) are compatible. Mismatched models will prevent pairing.
 - Try repeating the charging and reset steps multiple times.
- **No Sound or Intermittent Connection:**
 - Ensure the earbud is fully charged.
 - Check your device's Bluetooth connection and ensure the earbud is selected as the audio output.
 - Move closer to your connected device to avoid interference.

For persistent issues, please refer to the support section below.
