Milky 10,800 FCC

Milky Lactose Intolerance Pills (10,800 FCC) User Manual

PRODUCT OVERVIEW

Milky Lactose Intolerance Pills are designed to provide relief from symptoms associated with lactose intolerance. Each tablet contains 10,800 FCC units of lactase enzyme, formulated to assist in the digestion of dairy products.

The product is provided in convenient, credit-card sized sleeves for portability, allowing for discreet use when consuming dairy away from home.

These tablets are formulated with all-natural ingredients, including lactase enzyme, dicalcium phosphate dihydrate, microcrystalline cellulose, croscarmellose sodium, magnesium stearate, stearic acid, and silicon dioxide. They are intended to help alleviate digestive discomforts such as bloating, gas, and cramps that can arise from lactose consumption.

Milky Lactose Intolerance Pills are packaged in a portable credit card-sized sleeve, designed for convenience and discretion.

Pocket-Sized Power

24 Powerful Lactase Enzyme
in size of a credit card

The compact design of the Milky sleeve allows it to fit easily into a pocket or wallet, ensuring it is readily available.

USAGE INSTRUCTIONS

How to Use Milky Lactase Enzyme Tablets

1. **Initial Dose:** Take one Milky tablet with your first bite of dairy.
2. **Subsequent Doses:** If you continue eating dairy for an extended period, take another tablet every 30-45 minutes. Do not exceed two tablets total per dairy consumption occasion.

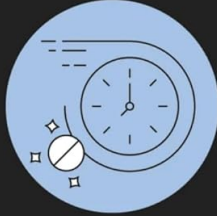

For most individuals, one tablet is sufficient. However, a second tablet may be taken if needed based on the amount of dairy consumed and individual sensitivity.

Take one tablet with your first bite of dairy to aid in digestion.

How to navigate the Milky Way

Take a Milky tablet with your first bite of dairy *

Take another tablet every 30-45 minutes if you continue eating dairy

* For the majority of people, 1 tablet is sufficient, but you can take 2 if needed.
