## EWEADN S9 Pro

# EWEADN S9 Pro Wireless Gaming Mouse Instruction Manual

MODEL: S9 PRO

## 1. Product Overview

The EWEADN S9 Pro is a high-performance wireless gaming mouse designed for precision and comfort. Featuring a lightweight 59g ergonomic design, triple connectivity modes (2.4G wireless, Bluetooth 5.0, USB-C wired), and an advanced PAW3395 optical sensor with up to 26,000 DPI, it offers a superior gaming and work experience. The mouse is equipped with durable Kailh micro switches and a long-lasting 500mAh battery.

## 3. Setup

### 3.1 Connectivity Modes

The EWEADN S9 Pro supports three connection modes: 2.4G Wireless, Bluetooth 5.0, and USB-C Wired. You can switch between these modes using the switch located on the bottom of the mouse.

- **2.4G Wireless Mode:** For blazing-fast speed and minimal latency, ideal for gaming. Insert the wireless USB receiver into your computer's USB port.
- **Bluetooth 5.0 Mode:** For convenience and compatibility with laptops and tablets. Pair the mouse via your device's Bluetooth settings.
- **USB-C Wired Mode:** For zero delay and charging simultaneously. Connect the provided USB-C cable from the mouse to your computer.

## 3.2 DPI Adjustment

The mouse features 6 customizable DPI settings, ranging from 800 to 26,000 DPI. You can adjust the DPI using the dedicated DPI switch on the bottom of the mouse to match your preference for different tasks or games.

# 6 Customizable DPI

Setting: 800-1600-2400-3200-6400-26000

Image: The EWEADN S9 Pro mouse highlighting its 6 customizable DPI settings: 800-1600-2400-3200-6400-26000.

### 3.3 Programmable Buttons

The EWEADN S9 Pro includes programmable buttons. You can configure these buttons, DPI/IPS settings, lift distance, and powerful macro settings using the dedicated software. Refer to the official EWEADN website for software downloads and detailed instructions.

# Influencer Loved Pick

## 3.4 Initial Connection

To connect the mouse for the first time:

1. Turn on the mouse using the switch on the bottom.
2. Select your desired connection mode (2.4G, BT, or OFF for wired).
3. For 2.4G, insert the USB receiver. For Bluetooth, initiate pairing on your device and select 'EWEADN S9 Pro'. For wired, connect the USB-C cable.
4. The mouse should be recognized by your system.

## 4. Operating the Mouse

### 4.1 Ergonomics and Lightweight Design

The EWEADN S9 Pro is designed for users with right-handed medium and large hands, weighing only 59g. Its ergonomic shape significantly reduces fatigue and tension in the palms, wrists, and arms during prolonged use. The mouse features a sweat-proof nano ice skin coating for a comfortable matte feel, ensuring easy cleaning and a secure grip.

## 5. Maintenance

Proper maintenance ensures the longevity and optimal performance of your EWEADN S9 Pro mouse.

- **Cleaning:** The nano ice skin coating is sweat-proof and easy to clean. Use a soft, dry cloth to wipe the mouse regularly. Avoid harsh chemicals or abrasive materials.
- **Replacing Grip Tapes/Feet:** If the anti-slip protection stickers or Teflon feet wear out, you can replace them with the provided extras. Carefully peel off the old ones and apply the new ones, ensuring a smooth surface for optimal glide.
- **Cable Care:** The upgraded nylon braided paracord cable is designed for durability. Avoid sharp bends or excessive pulling to prevent damage.

## 6. Troubleshooting

If you encounter any issues with your EWEADN S9 Pro mouse, please refer to the following common troubleshooting steps:

- **Connectivity Issues:** Ensure the mouse is charged and the correct mode (2.4G, BT, or wired) is selected. For 2.4G, try re-inserting the USB receiver. For Bluetooth, ensure your device's Bluetooth is on and the mouse is paired correctly.
- **DPI Not Changing:** Press the DPI button on the bottom of the mouse to cycle through settings. If using custom software, ensure it's running and settings are applied.
- **Battery Not Charging:** Ensure the USB-C cable is securely connected to both the mouse and a power source. Try a different USB port or cable if necessary.
- **Unresponsive Buttons:** Check for any physical obstructions. If the issue persists, try resetting the mouse (refer to the full manual for specific reset procedures).

For further assistance, please contact EWEADN customer support.
