## MARLALL NOS 08W

# MARLALL Swimming Bone Conduction Headphones User Manual

Model: NOS 08W

## PRODUCT OVERVIEW

---

The MARLALL Swimming Bone Conduction Headphones are engineered for an immersive audio experience both in and out of water. Featuring IP68 waterproofing, these headphones are suitable for swimming and other water sports. The bone conduction technology delivers sound through your cheekbones, leaving your ears open to ambient sounds, enhancing safety during outdoor activities. With Bluetooth 5.4 and an integrated MP3 player, you can enjoy your music wirelessly or directly from the device's internal storage.

This image is a placeholder indicating that a product image is not available. The actual product is a pair of bone conduction headphones, typically with a band that wraps around the back of the head and transducers that rest on the cheekbones.

## WHAT'S IN THE BOX

---

- MARLALL Swimming Bone Conduction Headphones
- Blu-ray (as listed in product components, typically refers to a data disc for software/drivers or content, though unusual for headphones)
- USB Charging Cable (assumed, standard for electronic devices)
- User Manual (this document)

## SETUP

---

### 1. Charging the Headphones

1. Connect the USB charging cable to the charging port on the headphones.
2. Plug the other end of the cable into a USB power adapter (5V/1A recommended) or a computer's USB port.
3. The LED indicator will illuminate during charging and turn off or change color when fully charged. A full charge typically takes approximately 1.5-2 hours.

## 2. Pairing with a Bluetooth Device

1. Ensure the headphones are powered off.
2. Press and hold the Power/Multi-function button for approximately 3-5 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your Bluetooth-enabled device (smartphone, tablet, etc.), go to the Bluetooth settings and turn Bluetooth on.
4. Search for available devices. Select "MARLALL NOS 08W" (or similar name) from the list.
5. Once connected, the LED indicator will flash blue slowly or turn solid blue, and you may hear a confirmation tone.

## OPERATING INSTRUCTIONS

---

### Power On/Off

- **Power On:** Press and hold the Power/Multi-function button for 2 seconds.
- **Power Off:** Press and hold the Power/Multi-function button for 3 seconds.

### Mode Switching (Bluetooth / MP3)

- Press the Mode button (if available, or a specific combination of buttons) to switch between Bluetooth mode and MP3 player mode.
- In MP3 mode, the headphones will play audio files stored on their internal memory.

### Music Playback Control

- **Play/Pause:** Short press the Power/Multi-function button.
- **Next Track:** Short press the Volume + button.
- **Previous Track:** Short press the Volume - button.

### Volume Control

- **Volume Up:** Long press the Volume + button.
- **Volume Down:** Long press the Volume - button.

### Call Management

- **Answer/End Call:** Short press the Power/Multi-function button during an incoming call.
- **Reject Call:** Long press the Power/Multi-function button during an incoming call.

## MAINTENANCE

---

- **Cleaning:** After use, especially after swimming, rinse the headphones with clean fresh water. Wipe them dry with a soft, clean cloth. Do not use harsh chemicals or abrasive cleaners.

- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the headphones frequently. Charge them regularly, even if not in use for extended periods.
- **Water Exposure:** While IP68 rated, ensure the charging port cover is securely closed before exposing the headphones to water.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Headphones do not power on.	Low battery.	Charge the headphones fully.
Cannot pair with device.	Headphones not in pairing mode; device Bluetooth off; too far from device.	Ensure headphones are in pairing mode (flashing red/blue). Turn on Bluetooth on your device. Move headphones closer to your device.
No sound or low volume.	Volume too low; not connected; incorrect mode.	Increase volume on both headphones and connected device. Ensure headphones are properly connected. Check if headphones are in the correct mode (Bluetooth or MP3).
Sound quality is poor.	Interference; weak Bluetooth signal.	Move closer to the connected device. Avoid environments with strong electromagnetic interference.
MP3 mode not working.	No music files loaded; incorrect file format.	Ensure music files are loaded onto the internal memory and are in a supported format (e.g., MP3, WAV).
