FunXplore PD-1027

FunXplore Large Catio Outdoor Cat Enclosure (Model PD-1027)

User Instruction Manual

1. INTRODUCTION

Thank you for choosing the FunXplore Large Catio Outdoor Cat Enclosure, Model PD-1027. This enclosure provides a safe and stimulating environment for your cats to enjoy the outdoors. Designed for multiple cats, it features spacious platforms, hideouts, a scratching post, and multiple access points for convenience. Please read this manual thoroughly before assembly and use to ensure proper installation and safe operation.

2. SAFETY INFORMATION

- Always ensure the enclosure is assembled on a flat, stable surface to prevent tipping.
- Regularly inspect all components for wear, damage, or loose connections. Tighten screws and replace damaged parts immediately.
- Keep small children away from the assembly area.
- Do not allow children to climb on or play inside the enclosure unsupervised.
- Ensure all doors are securely latched when cats are inside to prevent escape.
- This enclosure is designed for cats. Do not use it for other animals unless specifically approved.

- Consider anchoring the enclosure to the ground for added stability, especially in windy conditions.
-

3. PACKAGE CONTENTS

Verify that all parts are present before beginning assembly. If any parts are missing or damaged, please contact FunXplore customer support.

- Wooden frame panels and mesh sections
 - 4 spacious platforms
 - 1 scratching post
 - 2 hideouts
 - 1 climbing bridge
 - 5 access doors
 - Waterproof PVC tarp roof
 - Reinforced wooden bars for corners
 - Assembly hardware (screws, bolts, latches, etc.)
 - Instruction manual
-

4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of the FunXplore Catio requires careful attention to detail. It is highly recommended that **two people** work together for assembly to ensure stability and ease of construction. Please review all steps before starting.

1. **Unpack and Organize:** Lay out all components and hardware. Identify each part using the provided labels and diagrams.
2. **Frame Assembly:** Begin by assembling the main frame sections. Ensure all connections are secure but do not overtighten screws until the entire section is aligned.
3. **Platform and Accessory Installation:** Install the platforms, scratching post, hideouts, and climbing bridge according to the diagrams. Pay close attention to the orientation of each piece.
4. **Door Installation:** Attach the 5 access doors. Ensure hinges are properly aligned and latches function smoothly.
5. **Roof Installation:** Secure the waterproof PVC tarp roof. This provides protection from rain while allowing sunlight to filter through.
6. **Reinforcement:** Install the reinforced wooden bars on each corner for enhanced structural integrity.
7. **Window Connection (Optional):** To connect the catio directly to your home, remove the designated back panel(s) and align the opening with a window or pet flap. This creates a safe indoor-outdoor pathway for your cats.
8. **Final Check:** Once assembled, double-check all screws and connections for tightness. Ensure the enclosure is stable and all doors operate correctly.

Spacious Cat House

Enough for 2-6 cats · 2 hideaway · 1 scratching post · 5 Access Doors

Image 4.3: Options for expanding the catio with cat tunnels or window connections.

Note on Instructions: Some users have reported that assembly instructions may require careful interpretation. It is advisable to logically review the assembly process and diagrams to ensure correct component placement and sequence.

5. OPERATING INSTRUCTIONS (USAGE)

The FunXplore Catio is designed for ease of use and feline enjoyment.

- **Access Doors:** Utilize the 5 access doors for easy entry and exit for both you and your cats. The full-height 69.3" front door allows for comfortable walk-in access without bending.
- **Multi-Level Play:** Encourage your cats to explore the 4 spacious platforms, use the scratching post, and relax in the two hideouts. The climbing bridge and jumping pit provide additional enrichment.
- **Elevated Shelf Design:** The elevated shelf design accommodates taller litter boxes and feeders, making it convenient for extended periods or when you are away.
- **Indoor-Outdoor Access:** If connected to a window or pet flap, your cats can freely transition between indoor and outdoor environments.

Walk-In Catio for Fun

Bond with your feline friend through playtime

Elevated Shelf Design

Fit taller litter boxes and feeders

Image 5.2: Elevated shelves provide space for essential cat items.

Multi-Level Outdoor Cat Enclosure

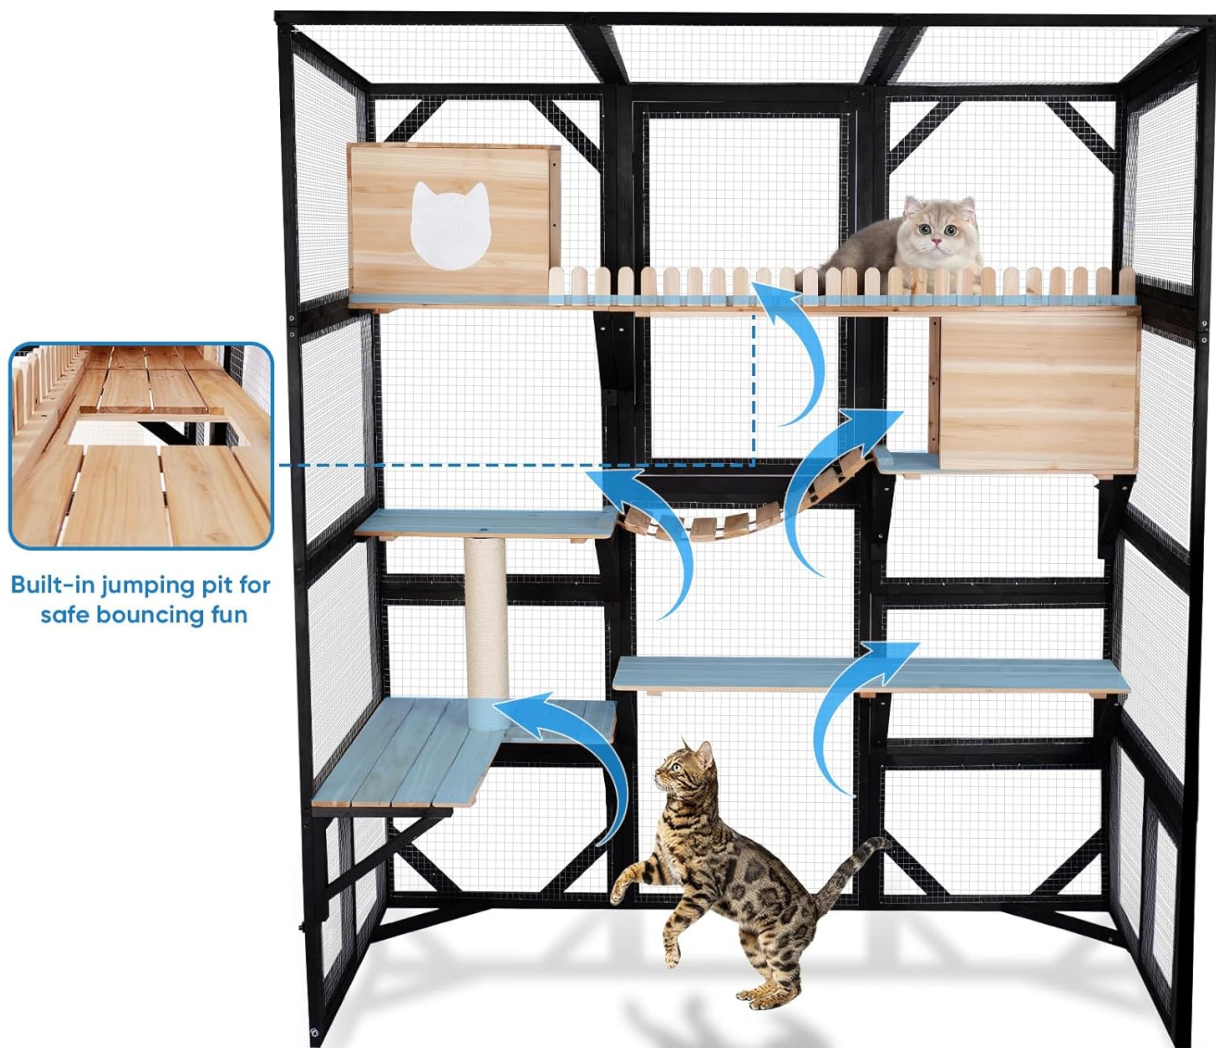

Image 5.3: The multi-level design and jumping pit offer varied activity spaces.

6. MAINTENANCE

Regular maintenance will extend the life of your catio and ensure a safe environment for your pets.

- **Cleaning:** Clean the platforms and interior surfaces regularly with pet-safe cleaning solutions. The mesh can be wiped down or hosed off.
- **Structural Inspection:** Periodically check all wooden frames, mesh, and hardware for signs of wear, rust, or damage. Tighten any loose screws.
- **Wood Protection:** While the catio features a waterproof roof, the wooden frame may benefit from additional weather sealing or treatment, especially if exposed to harsh outdoor elements, to prevent paint rubbing off or wood deterioration over time.
- **Roof Care:** Ensure the PVC tarp roof remains securely attached and free of tears to maintain its waterproof properties.
- **Scratching Post:** Replace the scratching post material if it becomes excessively worn.

7. TROUBLESHOOTING

- **Difficulty during Assembly:** If parts do not align or pilot holes are missing, carefully re-examine the diagrams. Some wood pieces may require gentle force or pre-drilling if pilot holes are absent. Avoid excessive force to prevent cracking.
- **Flimsy Frame:** Ensure all reinforced bars are correctly installed and all screws are tightened. The design incorporates sturdy wooden bars on each corner for stability.
- **Cats Not Using Features:** If cats are hesitant to use the climbing bridge or other features, try placing treats or familiar blankets on them to encourage exploration.
- **Weather Resistance Concerns:** The product includes a waterproof PVC tarp roof. For enhanced longevity of the wooden frame, especially in areas with significant rainfall or humidity, consider applying an additional weather-resistant sealant to the wood.

8. SPECIFICATIONS

Brand	FunXplore
Model Name	PD-1027
ASIN	B0F3HV22F4
Product Dimensions (LxWxH)	62.6"L x 32.9"W x 73"H
