> KUNFINE 10.25-inch Android Car Stereo with CarPlay and Android Auto for Audi A3 (2014-2020) - User Manual

## KUNFINE Octa Core 4G+32G

# KUNFINE 10.25-inch Android Car Stereo User Manual

For Audi A3 (2014-2020) - Model: Octa Core 4G+32G

## 1. PRODUCT OVERVIEW

---

This KUNFINE 10.25-inch Android Car Stereo is designed to upgrade the in-car entertainment and navigation system for Audi A3 models manufactured between 2014 and 2020. It features an Octa Core processor, 4GB RAM, and 32GB ROM, providing a responsive and feature-rich experience. Key functionalities include integrated CarPlay and Android Auto, GPS navigation, Bluetooth connectivity, Wi-Fi, and support for various multimedia formats.

The unit is equipped with an IPS touchscreen display, offering clear visuals and intuitive control. It is designed to integrate with existing vehicle systems, including steering wheel controls.

## 3. INSTALLATION GUIDE

Professional installation is recommended for this car stereo system. Ensure the vehicle's power is disconnected before beginning installation. The provided power cable is designed for plug-and-play compatibility with your Audi A3 (2014-2020).

1. Carefully remove the original car stereo unit and trim panels. Refer to your vehicle's service manual for specific instructions on panel removal.
2. Connect the new KUNFINE head unit to the vehicle's wiring harness using the provided plug-and-play power cable.
3. Connect the GPS antenna and any other peripheral cables (USB, RCA, reverse camera) as required.
4. Test the unit's basic functions (power on, audio, touchscreen response) before fully reassembling the dashboard.
5. Secure the new head unit in place and reattach all trim panels. Use the included install kit for assistance.

## 4. INITIAL SETUP

### 4.1 Power On and Basic Configuration

After installation, turn on your vehicle's ignition. The head unit should power on automatically. Follow the on-screen prompts for initial language selection and time zone settings.

### 4.2 Wi-Fi and Bluetooth Connectivity

- **Wi-Fi:** Navigate to the 'Settings' menu, select 'Network & Internet', then 'Wi-Fi'. Choose your desired network and enter the password to connect.
- **Bluetooth:** Go to 'Settings', then 'Connected devices', and select 'Pair new device'. On your mobile phone, search for the head unit's Bluetooth name (e.g., "KUNFINE Car Stereo") and pair.

## 4.3 CarPlay and Android Auto Setup

The unit supports both wireless and wired CarPlay/Android Auto.

- **Wireless CarPlay:**

1. Ensure Bluetooth is connected between the car stereo and your iPhone.
2. Open the "Zlink5" app on the car stereo.
3. Enjoy wireless Apple CarPlay.

- **Wireless Android Auto:**

1. Download the Android Auto app on your Android phone.
2. Ensure Bluetooth is connected between the car stereo and your Android phone.
3. Open the "Zlink5" app on the car stereo.
4. Enjoy wireless Android Auto (Note: May not be supported by all Samsung phones).

# Wireless Carplay & Android Auto

**CarPlay**

**Wireless & wired connections**

1. Bluetooth connection between car stereo and smart phone
2. Turn on App "zlink5" on car stereo
3. Enjoy Wireless Apple Carplay

**Android Auto**

**Wireless & wired connections**

1. Download Android Auto app on your phone
2. Bluetooth connection between car stereo and smart phone
3. Turn on App "Zlink5" on car stereo
4. Enjoy Wireless Android Auto (Not supported samsung phones)

## 5. OPERATING INSTRUCTIONS

### 5.1 Navigation

The unit supports various navigation applications. Once connected to Wi-Fi, you can download and use your preferred navigation apps from the app store. The integrated GPS antenna ensures accurate positioning.

Image 5.1: The car stereo screen showing various navigation applications and demonstrating voice command interaction for navigation and music playback.

### 5.2 Multimedia Playback

The system supports various audio and video formats. You can play media from USB drives, Bluetooth-connected devices, or streaming apps via Wi-Fi.

### 5.3 Steering Wheel Control (SWC)

The head unit supports the original vehicle's steering wheel controls, allowing you to manage audio, calls, and other

functions without taking your hands off the wheel. Configuration may be required in the system settings.

# Resolution comparison

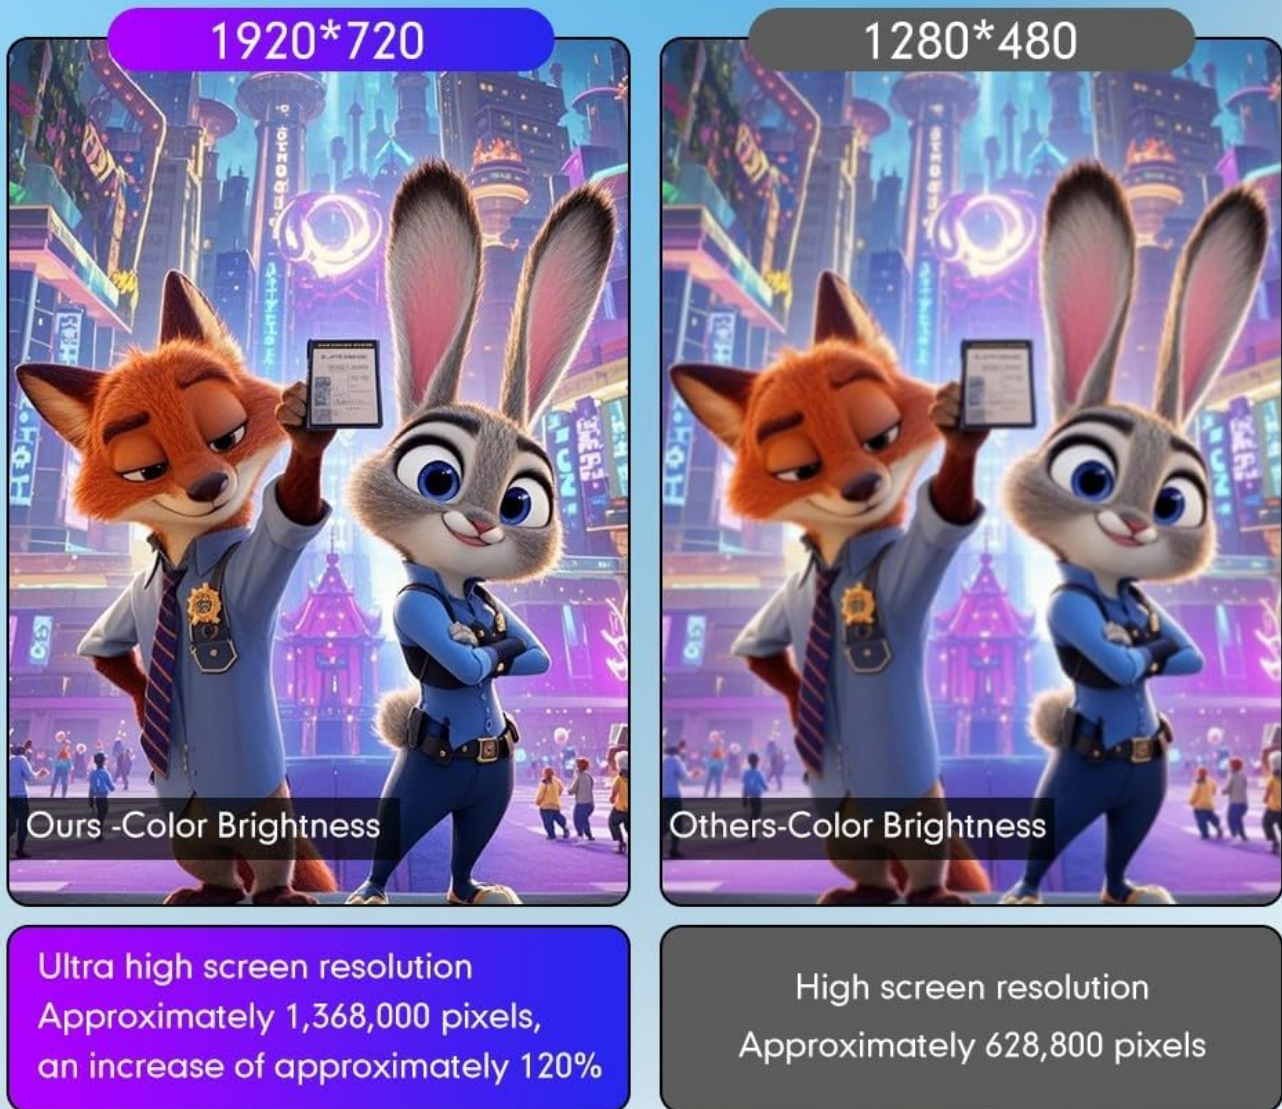

Image 6.2: A visual comparison demonstrating the higher resolution (1920x720) and improved color brightness of the KUNFINE display compared to standard 1280x480 screens.

## 7. MAINTENANCE

---

To ensure the longevity and optimal performance of your KUNFINE car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that could damage the display or finish.
- **Software Updates:** Periodically check for software updates through the system settings to ensure you have the latest features and bug fixes.
- **Temperature:** Avoid exposing the unit to extreme temperatures, which can affect performance and lifespan.
- **Power Supply:** Ensure a stable power supply to prevent electrical damage.

## 8. TROUBLESHOOTING

---

If you encounter issues with your car stereo, refer to the following common troubleshooting steps:

- **No Power:** Check all power connections. Ensure the vehicle's ignition is on. Verify the fuse in the vehicle's fuse box.
- **No Sound:** Check volume settings. Ensure all speaker wires are correctly connected. Verify audio source selection.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (note: this will erase all user data).
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Bluetooth/Wi-Fi Connection Issues:** Restart the head unit and your mobile device. Re-pair Bluetooth devices or re-enter Wi-Fi passwords.
- **CarPlay/Android Auto Not Connecting:** Ensure the "Zlink5" app is open on the head unit. Verify Bluetooth connection. For Android Auto, ensure the app is installed on your phone.

For persistent issues, please contact customer support.
