2. Setup

2.1 What's in the Box

- eufy Smart Scale P2 Pro
- AAA Battery (x4)
- Measuring Tape
- User Manual (this document)

2.2 Battery Installation

Locate the battery compartment on the underside of the scale. Insert the four AAA batteries, ensuring correct polarity (+/-) as indicated. Close the battery compartment securely.

2.3 App Download and Connection

1. Download the **EufyLife** app from your device's app store (available on Apple App Store and Google Play Store).
2. Open the EufyLife app and follow the on-screen instructions to create an account or log in.
3. Add your eufy Smart Scale P2 Pro to the app. The app will guide you through connecting the scale via Wi-Fi or Bluetooth. Ensure your device's Bluetooth is enabled for initial pairing.

2.4 Initial Calibration and Placement

For accurate measurements, place the scale on a hard, flat surface. Avoid carpets or uneven flooring. To calibrate, step onto the scale for a few seconds, then step off. The display should show '0.0' or '0.00' indicating it's ready for use.

4. Maintenance

4.1 Cleaning

To clean the scale, wipe its surface with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these can damage the scale's finish and electronic components. Ensure the scale is dry before storage or next use.

4.2 Storage

The eufy Smart Scale P2 Pro is IPX5 waterproof, meaning it can withstand splashes and humid environments. It can be safely stored in your bathroom. For long-term storage, keep it in a cool, dry place away from direct sunlight.

The eufy P2 Pro Smart Scale features an IPX5 waterproof design, making it suitable for use and storage in humid bathroom environments.

4.3 Battery Replacement

When the battery indicator on the scale's display or in the EufyLife app shows low power, replace all four AAA batteries simultaneously. Use new, high-quality alkaline batteries for optimal performance.

5. Troubleshooting

5.1 Inaccurate Measurements

- Ensure the scale is placed on a hard, flat surface. Uneven surfaces can lead to inaccurate readings.
- Make sure your feet are dry and make full contact with the scale's surface.
- Step on and off the scale to re-calibrate it before weighing.
- Check for any obstructions under the scale.

5.2 Connectivity Issues (Wi-Fi/Bluetooth)

- Ensure Bluetooth is enabled on your smartphone and the scale is within range.
- Restart the EufyLife app and try reconnecting.
- Check your Wi-Fi network connection. The scale supports 2.4GHz Wi-Fi networks.
- If issues persist, try removing the device from the app and re-adding it.

5.3 App Not Syncing Data

- Verify that the scale is successfully connected to the EufyLife app via Wi-Fi or Bluetooth.
- Ensure the app has the necessary permissions on your smartphone (e.g., location, Bluetooth).
- Check for any pending app updates and install them.
- If you have multiple users, ensure the correct profile is selected in the app before weighing.
