Xoopar 4-in-1 Multi USB Octopus Cable Instruction Manual

Model: XP61040.OP.20

INTRODUCTION

The Xoopar 4-in-1 Multi USB Octopus Cable (Model: XP61040.OP.20) is a versatile charging solution designed for a wide range of electronic devices. This cable features multiple connectors, including USB-C, Lightning, and Micro USB, allowing for universal compatibility. Constructed with Ocean Bound Plastic (OBP), it reflects a commitment to environmental responsibility. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your Xoopar Octopus Cable.

Image: The Xoopar 4-in-1 Multi USB Octopus Cable, orange in color, laid out on a matching orange background, showcasing its compact design and multiple connectors.

SETUP

The Xoopar 4-in-1 Multi USB Octopus Cable requires minimal setup. It is designed for immediate use upon unboxing.

1. **Unpack the Cable:** Carefully remove the cable from its packaging.
2. **Inspect for Damage:** Before first use, visually inspect the cable and its connectors for any signs of damage. Do not use if damaged.
3. **Identify Connectors:** Familiarize yourself with the different connector types:
 - **USB-A:** The input connector, typically for power sources like wall adapters, power banks, or computer USB ports.
 - **USB-C:** For modern Android devices, laptops, and newer iPhones.
 - **Lightning:** For Apple iPhones (older models), iPads, and iPods.
 - **Micro USB:** For older Android devices, Bluetooth headphones, and other small electronics.

OPERATING INSTRUCTIONS

To charge your devices using the Xoopar 4-in-1 Multi USB Octopus Cable:

1. **Connect to Power Source:** Plug the USB-A end of the Octopus Cable into a compatible power source, such as a USB wall adapter, a power bank, or a computer's USB port. Ensure the power source provides adequate current (up to 2.4A recommended for optimal charging).
2. **Connect to Device:** Select the appropriate connector (USB-C, Lightning, or Micro USB) for your device. Gently insert the connector into your device's charging port.
3. **Verify Charging:** Once connected, your device should indicate that it is charging. If not, check the connections at both ends.
4. **Multiple Devices:** The cable supports charging multiple devices simultaneously, provided the power source can supply sufficient current for all connected devices. Note that charging speed may be reduced when multiple devices are

connected to a single power source.

Important Usage Notes:

- Always use a certified power adapter to prevent damage to your devices or the cable.
- Avoid bending the cable sharply or applying excessive force to the connectors.
- Do not expose the cable to extreme temperatures or moisture.

MAINTENANCE

Proper care and maintenance will extend the lifespan of your Xoopar Octopus Cable.

- **Cleaning:** Disconnect the cable from all power sources and devices. Use a soft, dry, lint-free cloth to wipe the cable and connectors. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the cable in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tangling the cable; gently coil it to prevent damage.
- **Handling:** Always grasp the connector head when plugging or unplugging the cable, rather than pulling on the cable itself.

TROUBLESHOOTING

If you encounter issues with your Xoopar Octopus Cable, refer to the following common solutions:

- **Device Not Charging:**
 - Ensure both ends of the cable are securely connected.
 - Try a different power source (e.g., another wall adapter or USB port).
 - Test the cable with a different device to rule out a device-specific issue.
 - Inspect the cable and connectors for visible damage.
- **Slow Charging:**
 - Ensure your power source provides sufficient output (e.g., a 2.4A wall adapter for faster charging).
 - Avoid charging multiple high-power devices simultaneously if using a low-output power source.
 - Check if your device's charging port is clean and free of debris.
- **Intermittent Connection:**
 - Ensure connectors are fully inserted and not loose.
 - Avoid moving the cable or device excessively while charging.
 - Inspect for internal cable damage by gently flexing the cable near the connectors.

If these steps do not resolve the issue, please contact Xoopar customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Brand	Xoopar
Model Number	XP61040.OP.20
Connector Types	USB-A (input), USB-C, Lightning, Micro USB (outputs)
Cable Type	Multi-connector charging cable
Compatible Devices	Smartphones (iPhone 15, 14, 13, 12, 11, Pro Max, Xs Max, Xr, X, 8, 7, 6s, 5s, Galaxy, Note, Huawei P9/P10/P20/P30 Pro, HTC, LG, Google), iPod, iPad Air, iPad Mini, iPod Touch, Headphones, Laptops, Power Banks, Speakers
Special Feature	Lightweight, Made with Ocean Bound Plastic (OBP)
Recommended Use	Charging
AC Adapter Current	2.4 Amps (Max)
Item Weight	1.59 ounces
Package Dimensions	7.87 x 3.15 x 0.79 inches
