## PRODUCT FEATURES

- **Enhanced Efficiency:** Designed to help you knit more efficiently by securing stitches.
- **Durable Silicone Material:** Constructed from hardwearing silicone for long-term use and reliability.
- **Universal Fit:** Suitable for various knitting and crochet needle sizes, offering versatility.
- **Slip-Resistant Design:** Ensures needles stay in place, preventing accidental stitch loss.
- **Easy to Carry:** Lightweight and compact for convenient storage and portability.

## SETUP AND USAGE

### Applying the Needle Caps

1. Ensure your knitting or crochet project is at a stopping point where you need to secure your stitches.
2. Gently slide the open end of the silicone needle cap onto the tip of your knitting needle.
3. Push the cap firmly until it covers the needle tip and securely holds the stitches on the needle.
4. Repeat for all open needle tips to prevent stitches from slipping off.

## Removing the Needle Caps

1. Grasp the silicone needle cap firmly.
2. Gently pull the cap off the needle tip. Avoid excessive force to prevent damage to the cap or needle.
3. Store the caps in a safe place when not in use.

## MAINTENANCE AND CARE

To ensure the longevity and effectiveness of your Angoily Heart Shaped Silicone Needle Caps, follow these simple care instructions:

- **Cleaning:** Wipe the caps with a damp cloth if they become dirty. For deeper cleaning, wash with mild soap and water, then air dry completely.
- **Storage:** Store the caps in a clean, dry place away from direct sunlight and extreme temperatures when not in use.
- **Avoid Sharp Objects:** Keep the silicone caps away from sharp objects to prevent punctures or tears.

## TROUBLESHOOTING

Issue	Possible Cause	Solution
Caps do not fit on needles.	Needle size is too large or too small for the cap opening.	Ensure the needle diameter is within the compatible range for the silicone caps. While designed for universal fit, extremely thick or thin needles may not be ideal.
Caps slip off easily.	Cap is not pushed on far enough, or needle surface is oily/slippery.	Push the cap firmly onto the needle tip. Ensure needles are clean and dry.
Caps are damaged.	Exposure to sharp objects or excessive force.	Replace damaged caps. Handle with care and store properly.
