4. Operating Instructions

4.1 Flip-Top Mirror and LED Lights

- **Opening/Closing:** Gently lift the top panel to reveal the mirror and internal storage. Close by lowering the panel until it rests securely.
- **Powering On/Off:** The LED lights are equipped with a smart body sensing feature. They will automatically turn on when you approach the vanity and shut off when you leave after a short period, conserving energy.
- **Adjusting Light Color:** Short press the touch sensor on the mirror to cycle through 3 dimmable light colors: white, warm white, and warm.
- **Adjusting Brightness:** Long press the touch sensor to adjust the brightness level of the selected light color. Release when the desired brightness is achieved.

5. Maintenance

Proper care and maintenance will ensure the longevity and appearance of your Lvifur Vanity Desk.

- **Cleaning Surfaces:** Wipe all engineered wood and glass surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Mirror Care:** Clean the mirror with a glass cleaner and a lint-free cloth. Do not spray cleaner directly onto the mirror; apply it to the cloth first.
- **Electrical Components:** Ensure the vanity is unplugged before cleaning around the LED lights or charging ports. Use a dry, soft cloth to wipe these areas.
- **Drawer Slides:** Periodically check drawer slides for smooth operation. If they become stiff, a small amount of silicone lubricant can be applied.
- **General Inspection:** Regularly check all screws and fasteners to ensure they remain tight. Retighten if necessary.

6. Troubleshooting

If you encounter any issues with your vanity desk, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
LED lights not turning on.	Not plugged in; power outage; sensor obstructed; sensor malfunction.	Ensure the vanity is properly plugged into a working outlet. Check the power source. Clear any obstructions from the body sensor. If issues persist, contact customer support.
Charging ports not working.	Vanity not powered; faulty cable/device; port malfunction.	Verify the vanity is plugged in. Try a different charging cable or device to rule out external issues. If ports still do not work, contact customer support.
Drawers are difficult to open/close.	Obstruction in drawer slide; loose assembly; overloaded drawer.	Check for any items blocking the drawer slides. Ensure all assembly screws are tightened. Reduce the weight or volume of items in the drawer.
Vanity feels unstable.	Uneven surface; loose fasteners.	Place the vanity on a flat, level surface. Check and tighten all assembly screws and bolts.
