> Mirightone Full Bed Frame with LED Lights and Storage Headboard - Instruction Manual

## Mirightone CY104AD

# Mirightone Full Bed Frame with LED Lights and Storage Headboard

Model: CY104AD

## INTRODUCTION

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your Mirightone Full Bed Frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## SAFETY INFORMATION

---

Always follow the assembly instructions carefully to ensure the bed frame is stable and secure. Do not load more than 300 pounds onto the bed frame. Be careful around sharp edges to prevent injury. Always secure the guardrails properly before use.

## PRODUCT DIMENSIONS

---

The overall dimensions of the Mirightone Full Bed Frame are 85.9 inches in length, 58 inches in width, and 32.5 inches in height. The bed is designed for a full-size mattress with a thickness of 6 inches or less. The maximum weight capacity is 300 pounds.

# Product Dimensions

## Number of Slats

Bed: 8+1 pcs

## Applicable Mattress Thickness

6 inches or less

## Size Type

Full Size

## COMPONENTS LIST

Before assembly, ensure all components are present:

- Full Bed Frame (1 unit)
- Storage Headboard (1 unit)
- Built-in LED Light (pre-installed in headboard)
- Installation Manual
- All necessary tools and hardware
- Plywood Slats (8+1 pieces)

## SETUP AND ASSEMBLY

Assembly of this bed frame requires following the step-by-step instructions provided in the included manual. All parts and pre-drilled holes are designed for straightforward assembly. It is recommended to assemble the bed in the room where it will be used.

### Guardrail Assembly

The two bed guardrails are designed for flexible installation. They can be optionally installed on any two ends of the bed sides according to user preference. This allows for convenient access to the bed while also providing protection during sleep. Ensure guardrails are securely fastened.

## Flexible Assembly of Bed Guardrails

### Slats Installation

The bed frame includes 8+1 plywood slats for mattress support. These slats are designed to provide solid stability and eliminate the need for a box spring. Distribute the slats evenly and secure them according to the assembly manual.

## 8 +1 Pcs Plywood Slats

Constructed with strengthened  
slat, forging solid stability .  
No box spring needed.

### OPERATING INSTRUCTIONS

#### LED Motion Sensor Light

The integrated LED light in the headboard offers three application modes: switch-on, switch-off, and human body motion sensor. Operate the light using the switch located on the unit. The motion sensor mode activates the light when movement is detected, providing convenience and eye care during nighttime.

## LED Motion Sensor Light

By the switch operation, you will experience three application modes: switch-on, switch-off and human body motion sensor.

## MAINTENANCE

To maintain the quality and longevity of your bed frame, follow these guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Tightening:** Periodically check and tighten all bolts and screws to ensure structural integrity.
- **Environment:** Keep the bed frame in a dry environment to prevent wood damage.
- **Weight Limit:** Do not exceed the maximum weight recommendation of 300 pounds.

## TROUBLESHOOTING

If you encounter any issues with your bed frame, consider the following:

- **Squeaking Noises:** Ensure all connections are securely tightened. Loose bolts can cause squeaking.
- **LED Light Malfunction:** Check the power source and ensure the switch is in the correct operating mode. If issues persist, contact customer service.
- **Instability:** Re-verify all assembly steps, ensuring all parts are correctly installed and tightened.
